5,000 Hear Katzenbach In Mobile, Ala.

WASHINGTON, D. C. — Attorney General Nicholas deB. Katzenbach in a speech in Mobile Alabama, Sunday warned those who seek to defy the new Voting Rights Law that "they will have the federal government to reckon with."

In a forthright declaration of his intentions, the Attorney General said:

"I have a message for those noisy few who may entertain thoughts of trying to frighten or coerce a Negro citizen—or any citizen — from trying to register or vote. If you do, you will have the federal government to reckon with."

Katzenbach told the large audience, nearly 5,000, in the Mobile Municipal Auditorium, that 532,000 Negroes were registered in Alabama, Mississippi, Louisiana, Georgia and S. C. Georgia and South Carolina when President Johnson signed the Voting Rights Act last August.

He said: "Since then, the 80,000 registered by federal examiners and the 160,000 registered by local officials have brought the total to more than 840,000—an increase of 41 per cent. In Alabama, the number of Negroes registered has gone from 106,000 to 176,000 or from 22 per cent to nearly 40 per cent."

N.Y. to Increase Number Negro School Officials

NEW YORK — New York City's schools will shortly have an increased number of Negro supervisors under the Board of Education's policy of improved integration of the public school staff.

Superintendent of Schools Bernard E. Donovan announced this week that, effective February 7, about 200 new assistant principals will be appointed to the City's elementary schools. They will include about 24 Negroes, representing 12 percent of those for whom supervisory jobs are immediately available.

The appointees to be are among 678 eligibles licensed as assistant principals on December 22. These included an estimated 120 Negroes, or approximately 18 percent of those licensed. About 150 applications are still pending from which additional licensees, including Negroes, may be expected.

School officials emphasized that the estimate of the number of Negro licensees on the new assistant principal list is completely unofficial because the law forbids asking applicants about their race, creed or color in examinations for public school positions. On behalf of the Board of Examiners, Miss Gertrude Unser, Chairman, and Dr. Isidore Bogen, examiner in charge of the assistant principal test, stressed they had no knowledge of the number of Negro licensees. The estimate was made by the school system's Human Relations Unit on the basis of recognition of participants in Professional Promotional Seminars.

Still further appointments will be made from time to time, and it is likely that this eligible list, like most lists for school positions, will be utilized in full before its four-year period of validity expires.

All appointments will be made in strict order of standing on the list, in accordance with the merit system or filling public school vacancies.
