

STATE STUDENT COUNCIL DELEGATES

Shepard Student Wins Student Council Office

The Sixteenth Annual Convention of the North Carolina Association of Student Councils was held at Dillard High School, on November 13, 14, 15. The theme was "Youth Promotes World Understanding Through Citizenship, Leadership, and Fellowship." Greetings were extended to the delegates from the city and school officials. The address for the opening session was given by Dr. Carl S. Winters, Lecturer, General Motors Corporation.

Highlights of the Conference were given by Mrs. Catherine J. Smith, Executive Secretary of the North Carolina Association of Student Councils. During the Second General Session, Thomas Caldwell, President of the NCASC delivered the address. During the afternoon session, members of the convention went to one of fifteen discussion groups.

A banquet was given in honor of the delegates on the evening of November 14. Guest speaker was Jerry D. Paschall, Superintendent of Goldsboro City Schools. On November 15, the delegates and their sponsors were taken on a tour during which they visited Cherry Hospital, O'Berry Center, and

Seymour Johnson Air Force Base.

Following the tour, the group gathered in the Dillard High School auditorium to listen to a panel discussion. Speakers were: Ree Payne, Director of E. A. House Boys Club, Goldsboro, who spoke on the "Citizenship"; Gene Causby, Principal of Goldsboro Junior High Schools who spoke on the "Leadership"; and Rev. J. E. Arnette, Chaplain of O'Berry Center who spoke on "Fellowship."

During the closing session, committee reports were given and discussion groups reported. The newly elected offices of the NCASC were installed into office. They are as follows: President, Ellen D. Lawrence, Fuquay Consolidated High School, Fuquay - Varina; First Vice President, Roderick E. Hinton, Phillips High School, Hinton; Second Vice President, Wandra Hill, James E. Shepard Junior High School, Durham; Secretary, Gwendolyn E. Moran, Leak Street School, Rockingham; Treasurer, Linda Ann Johnson, North Warren High School, Wise; Parliamentarian, Ernestine E. Robinson, J. W. Ligon Senior High School, Raleigh.

The delegates from Shepard Junior High School were: Wandra Hill, Sharon King, Cynthia Manuel, Regina E. Robinson, Lonnie Trollinger, and their advisor, Mrs. M. L. Smith.

Twenty states and the District of Columbia conduct automobile safety inspection programs.

Dollar-per-bale Assessment for Cotton Farmers

North Carolina cotton producers will join growers throughout the nation Dec. 5 in voting on a \$1 per bale assessment for the support of research and promotion.

The referendum will be conducted by mail ballot through county Agricultural Stabilization and Conservation Service offices.

Growers will be voting on two issues. In addition to the assessment, a vote will be taken at the same time on a separate ballot regarding continuation of cotton marketing quotas.

Dr. Charles Brooks, extension cotton marketing specialist at North Carolina State University, said Tar Heel cotton growers will be mailed their ballots along with a summary of the proposed cotton research and promotion order. Complete copies of the order are expected to be available at county ASCS offices.

The assessment proposal if adopted would enable cotton producers to establish finance and carry out a coordinated program of research and promotion to improve the competitive position of cotton and to expand markets for cotton.

Dr. Brooks explains that in order to be adopted, the proposal must be approved by two-thirds of those voting or by a majority of producers voting if that majority produced at least two-thirds of the cotton in 1966.

If approved, it is anticipated that the \$1 per bale assessments will start at the beginning of the ginning season for the 1967 crop.

No grower would be forced to participate in the program. A producer would be allowed to receive a refund from the program by making written request to the Cotton Board.

Eligible to vote in the referendum are those who were engaged in the production of the 1965 upland cotton crop. This would include those who planted cotton and those who shared in the proceeds of the 1966 cotton crop except for a landlord of a standing rent, cash rent or fixed rent tenant.

In addition, owners or operators of farms for which an acreage allotment was established but unplanted will be eligible to vote in most cases.

In 1951, the Distinguished Service Cross was posthumously awarded Pvt. Edward O. Clearborn for standing atop a Korean ridge and repulsing hordes of North Korean communists while his comrades escaped.

A CORRECTION—Last week the above picture appeared by mistake with the J. C. Smith University story. The caption and story should have read as above. We regret this error and willingly make the correction.

Local Births

The following births were reported to the Durham County Health Department during the week of November 21 through 26:

Willie and Jamesetta Salter, boy; Charles and Laura Matthews, girl; Joseph and Betty McNeil, boy; Seofield and Lillie Montague, girl; Sherman and Thelma Lunsford, boy.

IN PROTEST

On November 5, 1951, resignations of eight of the nine theology faculty members of the University of the South (Seawee, Tenn.), including the School of Theology dean and the University chaplain, were made public. They were in protest to a ban on admission of Negro students to the School of Theology.

What to do about the little girl who likes to stay up into the grown up hours? One way to get around the problem is to get her nightwear that makes getting changed something to look forward to.

Night owls, junior style, love the pretty way they look in Her Majesty's nylon tricot robe with matching pajamas. This ribbon trimmed charmer, quilted with scrumptious warm Eastman Kodol polyester fiberfill makes her look every inch a princess. And it makes mother feel every inch a queen because sleepwear with Kodol fiberfill is a pleasure to care for—can be machine washed and tumble dried and retains its soft puff and the shape of the garment.

SANTA JOINS THE JET SET!

Dancer, Prancer, Vixen and the rest of Santa's hard working reindeer fleet will have a pretty easy time of it this Christmas. Latest word from the North Pole is that Mr. Claus will be using huge jet planes to deliver his millions of goodies throughout the United States.

And who could blame the jolly gentleman for choosing the swiftest, most efficient and most reliable way to get the job done! The air transportation industry daily performs tasks that would have seemed incredible just a few short years ago. The new all-freight jet giants can easily lift 92,000 pounds of cargo and whisk it across the continent at 600 miles-per-hour! And each of the passenger flights from New York to Los Angeles can carry 20,000 lbs. in the baggage compartment.

Americans are taking to the air at an amazing rate and they are also taking advantage of air shipping to send just about anything—from birthday cakes to automobile engines—to every corner of the land in a matter of hours.

Probably the most unique air shipping service—at Christmas as well as through the year—is Air Express. A partnership between all 39 scheduled U.S. airlines and REA Express, Air

Express provides door-to-door pickup and delivery service between 21,000 cities and towns in the U.S., Canada and Puerto Rico within 24 hours—and often sooner.

This combination of the airlines' fleet of aircraft and REA's 13,500 trucks is ideally suited to meet the needs of a Santa Claus, a businessman, or a housewife. The whole process of sending a package—whether it's a Christmas gift to a son stationed at an Army base or a thousand pound piece of machinery—from here to there is incredibly simple. A phone call to Air Express quickly brings a truck to your door. Your shipment is rushed to the airport and put aboard the first flight of any airline flying to its destination. And it will arrive the next day.

Thanks to Air Express service, St. Nick can sit home and watch TV on Christmas Eve, secure in the knowledge that boys and girls of all ages won't be disappointed when they wake up and rush to see what surprises have been stuffed into their stockings.

And, after all, with his weight problem, Santa should be delighted not to have to squeeze his way into those millions of narrow chimneys.
