## Leslie Uggams Guest Stars in "I Spy" Drama

NEW YORK—Leslie Uggams guest-stars in the title role of "Tonia," a drama of a pretty girl who is used as a pawn in a plot by Italian revolutionaries to turn agents Robinson and Scott against each other, on the NBC Television Network colorcast of "I Spy" Wednesday, Jan. 4 (10-11 p.m.)

Alexander Scott (Bill Cosby) and Tonia (Miss Uggams) become romantically involved after what appears to have been a chance meeting but was actually arranged to accommodate a Communist plan to break up the team of Scott and his partner Robinson (Robert Culp). The scheme proves successful when Tonia is found murdered and Scott is convinced Robinson is responsible.

Tonia was filmed on location in Italy, directed by Alf Kjellin and written by Michael Zagor.

Coats Strike Up The Band

Designers are constantly striving to create fashions that are newer, more elegant and more striking. Among the many coat and suit successes, this fall, is the handsome skimmer with eye-catching band in contrasting color. National Board of the Coat and Suit Industry notes that women like several coats in their wardrobe today. They like to match the coat to the fashion beneath. This gives them the fashionable costume look and stamps them as women of taste who carefully choose their entire ensemble. The attractive coat with diamond design on the contrast band is a perfect matchmaker. Bound to catch compliments, fall and winter, it has the new "stovepipe" collar. Taupe and black or red and black. Sizes 6-16. About \$100. Available at major stores everywhere.

## DR. MARTIN L. KING TAKES LEAVE TO WRITE NEW CIVIL-RIGHTS BOOK

ATLANTA, Ga. — Dr. Martin Luther King, Jr. this week began a two-month sabbatical to write a new book.

The president of the Southern Christian Leadership Conference will be out of the country during his private retreat so that he may write without interruption.

Dr. King said he decided to write the new book because he found in recent travels throughout the nation that "there is an uneasy feeling in the civil rights movement that we may have lost our sense of direction, and that the forces of good will are in disarray. I feel a need to re-examine the course of our movement and to suggest new ideas and programs."

In the new book, tentatively entitled "Where Do We Go From Here?", Dr. King plans to evaluate progress already made toward justice and equality, and to analyze "the resurgence of the so-called white backlash, implications of the 'Black Power' slogan, and the need for the Federal Government to re-order priorities for the nation. Our traditional allies are now in search of new purpose and meaning, and I
