**Cannonball Adderley Sets Hot Sales Pace With Latest Recording "Mercy"**

CANNONBALL ADDERLEY

HOLLYWOOD — Cannonball Adderley's recording of "Mercy, Mercy, Mercy" has become the biggest-selling single in the great jazz artist's career, and the album of the same name, which Capitol released last month, is also headed for the same distinction. The "Mercy" single has already sold more than 600,000 copies since its release and occupies the highest chart position of any previously-released Adderley single. As for the album, pre-release orders number 100,000 and an additional 100,000 orders were received by the label on the day it was released. Adderley has just finished recording a follow-up single and album to "Mercy." Release date for the single has not, as yet, been set. The new LP will be released in early summer.

**IBM Planning Open House For April 22**

The story of data communications—the sending and receiving of information for computer systems—will be featured by IBM in the Research Triangle Park at a community Open House April 22. Plans for the day long event were announced today by General Manager Arthur L. Becker. The plant and laboratory will be open for public tours from 9 a.m. to 4 p.m. "The Open House is one of the few opportunities we have to show our company to the community," Mr. Becker said. "I hope everyone will take the opportunity to visit us during the day." Announcement of the Open House falls almost two years to the day from the announcement that IBM would build a center for the manufacture and development of data communication products in North Carolina. The 605,000 square-foot complex was finished in January and contains the latest developments in data communications. Displays in the laboratory will feature some of the advanced communication techniques developed by local scientists and engineers, while manufacturing displays will concentrate on the company's current line of products built for use with System/360 computers. Tours guides will be available to answer questions. Children under 12 must be accompanied by an adult. No pets are allowed in the buildings. The Open House will follow a Thursday dedication in which Governor Dan K. Moore, former Governor Luther H. Hodges, and Thomas J. Watson, Jr., IBM Chairman of the Board, will address an estimated 4,000 guests, employees and their families.

(Continued from page 3A) first to admit I make a good living, but I certainly don't have to spend every minute of my life making a dollar. The results of Miss Kitt's efforts have already been deeply felt. An adhesive loyalty has grown among Ertha's assistants and the mothers of the young dancers. While the star was away in Houston on tour, Majorie Mead took to the Los Angeles freeways in some of the worst rain in the state's history to keep the class going. The children's mothers have named the youngsters The Ertha Kitt Dancettes. The mothers call themselves The Ertha Kitt Dancettes' Mothers. Ertha has also received offers of aid from everyone from cab drivers to actors. "So many people have wanted to help," says the entertainer, "that I might start an organization of people who want to help other people." She already has.

**Future Food: Torula Yeasts**

Nutrition experts in the Catholic Digest see yeasts as a major food of the future, a survival ration in years ahead. The most suitable yeasts belong to the strain *torula*. This species does not perform fermentation; it simply reproduces at incredible speed, making protein faster than any plant or animal on earth.
