Stamp Out Tired, Overheated Sandwiches

When Dad unpacks his lunch the summer days will be end up with hot sandwiches when you packed cold appetizing ones? We hope not. Because his sandwiches are just as appealing and appetizing as they were when you prepared them. That's because the Thermos vacuum bottle and cold beverages could be carried from home, was introduced an insulated lunch kit for Dad which will keep his meal away from home kitchen fresh for hours. Attractively styled in black and white polypropylene, the kit divides into two sections. The lower half, which is completely insulated, holds sandwiches and cold beverages. The top section stores a pint Thermos vacuum bottle. The new kit, complete with vacuum bottle, costs for about \$7.19. Incidentally, Dad had better keep an eye on this kit. Teenagers will find it just the thing for beach picnics.

New Life Seen For Bill To Allow Bigger Trucks

WASHINGTON — Legislation to allow longer, wider and heavier trucks and buses to use the interstate highways may be rescued from a House pigeonhole if Congress meets after the political conventions, sources say.

Passed by the Senate April 4 without a record vote, the controversial measure was approved by the House Public Works Committee and cleared for a House vote by the Rules Committee.

But House leaders have displayed no enthusiasm for it and have not scheduled it for a vote before a planned recess for the conventions in August. They claim too much other legislation has higher priority.

Supporters of the bill are confident that they can pass it if Congress comes back into session.

The bill would allow these increases in the size of trucks, trailers and buses on interstate roads:

Gross weight, from 73,200 pounds to 138,000 pounds; maximum width, from 8 feet to 8½ feet—plus safety gear, which opponents claim would add another 6 inches to the maximum width.

There would be no restriction on length, since this would be limited by the maximum weight provisions, backers say.

The legislation, if it becomes law, would not automatically permit the increases, but would allow individual states to make their own regulations within the limits.

States approving greater weight and width would lose some federal highway funds.

Major backing for the bill has come from trucking associations mainly in the west, and from bus lines. Principal opponents are the American Automobile Association and the U.S. Conference of Mayors.

The legislation was sponsored in the Senate by Sen. Warren C. Magnuson, D-Wash., chairman of the Commerce Committee, and 21 colleagues. It was introduced in the House by Rep. John C. Kluczynski, D-Ill.

Buy Bonds where you work.

He does.

Why do our servicemen buy U.S. Savings Bonds? Their reasons are the same as yours and mine: saving for the future, supporting freedom. And because they're fighting for freedom, too, maybe servicemen see the need more clearly than many of us. Buy Bonds. In more than one way, it makes you feel good.

NOW—Higher Rates!

Savings Bonds now pay 4.25% when held to maturity—and Freedom Shares (sold in combination with E Bonds) pay a full 5%. The extra interest will be added as a bonus at maturity.

And now you can buy the Bond-Freedom Share combination any time—no monthly commitment necessary. Get the facts where you work or bank.

Surcharge Extension Envisioned

WASHINGTON — The income tax surcharge recently enacted may have to be extended unless a major de-escalation of the Vietnam war is under way by mid-1969, a panel of economic advisers to Vice President Humphrey said Tuesday.

The special tax now is due to expire next June 30, but there have been other suggestions that an extension will be necessary.

Charles L. Schultze, former director of the Budget Bureau and a co-chairman of the advisory group, said also that without an end to the war, "room for added social programs will be quite small."

The advisers, designated the vice president's task force on the post-Vietnam budget, met with Humphrey on their report.

This is one of 32 groups of specialists helping Humphrey, a candidate for the Democratic nomination for president, on domestic and international issues.

A major conclusion of the panel was that with an end to the war, strict controls on military spending combined with continuing economic growth would make available nearly \$20 billion more in revenues than the normal amount of budget growth and inflation by the 1972-73 fiscal year.
