

Colonial Opens Accounting Div. In Capital City

RALEIGH—Colonial Stores announced today that it is establishing a division accounting office in Raleigh to service the 76 stores in its Raleigh Division.

Gordon D. Zuber has been named Division Controller in charge of the new office which ultimately will employ from 35 to 40 people. The new accounting office will be located in Colonial's division headquarters office at 2233 North Boulevard, Raleigh.

R. L. Belvin, Colonial's Raleigh Division Vice-President, said the new accounting office became necessary because of the growth in Colonial's business in North Carolina. The new accounting office will be equipped with computers which will be tied in by leased wires with Colonial's general computer center in Atlanta.

Zuber became associated with Colonial in mid-summer. Prior to that time he was with the Alcan Aluminum Corporation in Cleveland, Ohio, as staff accountant to the corporate controller, and he was with Thompson, Ramo, Woolridge, Inc. in Cleveland as administrative assistant to the division controller prior to joining Alcan. He also has had experience with the public accounting firm of Haskin & Seils, and for two years was an instructor in accounting at Texas A & M University, from which he holds a master's degree in business administration.

TORCH SINGER — Nichelle Nichols, a torch singer, finds singing and acting compatible, as she plans to re-emerge as a vocalist while continuing as Uhura, the communications officer, on "Star Trek" over the NBC Television Network Friday.

Applications For Trainees Being Accepted

The Interagency Board of U. S. Civil Service Examiners for North Carolina announces that applications are now being accepted from college students for Trainee positions in Agriculture Management, Agriculture Statistics, Soil Conservation, Soil Science, and Engineering. Salaries will be \$88.00 and \$98.00 per week depending upon the grade level of the position and academic level of the applicant.

Lists of eligibles will be used for filling Trainee positions with the Department of Agriculture and other Federal agencies with appropriate vacancies in the states of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee.

Applications and further information may be secured from the Interagency Board of U. S. Civil Service Examiners, 415 Hillsborough Street, Raleigh, North Carolina 27603. Refer to Announcement No. AR-8-16.

CHAT BEFORE SYMPOSIUM—Mrs. Joan Fiss Bishop, director of Placement at Wellesley College, Mass., and Judge Constance Baker Motley of New York chat outside Pfeiffer Chapel before appearing on symposium at Bennett College.

Meeting is Set

SEOUL — The United Nations Command will meet Communist North Korea Monday in a joint Korean Military

Armistice Commission meeting at the truce village of Panmunjom. The announcement did not say what will be discussed at the 279th meeting requested by North Korea.

Sweetpotato — "Flavor-Full" Nourishment

Sweetpotatoes, eaten boiled, baked, browned, fried, candied and glazed in various ways, are one of the most all-round nutritious foods in the world. Sweetpotatoes are brimming over with vitamin A, and also contribute vitamins B and C and iron to our diet.

Sweetpotatoes were found by Columbus and his shipmates, and are believed to be native to this hemisphere. Frosty air of fall and winter months spark appetites for hearty meals and the versatile sweetpotato is especially abundant October-March.

Make the most of any meal—and the most of the sweetpotato—if you want happy faces at your dinner table. Here, Sweetpotato Sausage Casserole for your eating enjoyment.

SWEETPOTATO SAUSAGE CASSEROLE

- 2 pounds sweetpotatoes, (about 5 medium)
- 1 medium apple
- ¼ teaspoon salt
- Few grains pepper
- ¼ cup butter
- 2 tablespoons chopped onion
- ½ pound small link sausages (8)

Peel sweetpotatoes; halve lengthwise. Quarter and core apple; chop coarsely. Arrange sweetpotatoes and apple in shallow 1½ quart casserole; sprinkle with salt and pepper. Melt butter; saute onion over low heat 5 minutes; pour over yams. Cover and bake in 375° F. oven 45 minutes. Brown sausages. Arrange on top of sweetpotatoes. Cover and bake 20 minutes longer. Makes 4 servings.

DID YOU KNOW?

THE DRIVE TO SAFETY

SKIDDING WAS ONE OF THE MAJOR CAUSES OF NEARLY 15 MILLION AUTO ACCIDENTS LAST YEAR, RESULTING IN OVER 50,000 DEATHS AND ABOUT 2 MILLION INJURED AND DISABLED.

SCIENTISTS HAVE FINALLY DEVELOPED A DEVICE TO HELP PREVENT SKIDDING AND SWERVING—THE LEE MYLES ROAD PILOT, AN ANTI-SKID AUTO STABILIZER. IT'S A COMPACT, FULLY ENCLOSED INSTRUMENT THAT HOUSES A HORIZONTAL PENDULUM AND WHEN ANCHORED TO THE TRUNK, INSTANTLY AND AUTOMATICALLY HELPS THE DRIVER MAINTAIN CONTROL ON OIL SLICKS, WET OR SNOWY ROADS, PANIC STOPS OR BLOWOUTS AND CURVES.

HOW IT WORKS

WHEN A SKID STARTS, THE REAR OF THE VEHICLE GOES IN THE OPPOSITE DIRECTION TO THE POSITION OF THE STEERING WHEEL. THE PENDULUM IN THE STABILIZER MOVES TO "PUSH" THE REAR END BACK TO A STRAIGHT LINE. POLICE, BUS AND FIRE FIGHTING VEHICLES ARE NOW INSTALLING THE LEE MYLES ANTI-SKID AUTO STABILIZER.

HUNTING SAFETY

HUNTING IS ONE OF THE MOST POPULAR OUTDOOR ACTIVITIES, WITH MORE THAN 20 MILLION PARTICIPANTS. ALTHOUGH THE INCIDENCE OF FIREARMS ACCIDENTS IS ON THE DECLINE, THEY STILL DO HAPPEN. DO YOU KNOW THE RULES OF SAFE SHOOTING? FOLLOW THESE TIPS SUGGESTED BY THE REMINGTON ARMS COMPANY AND CARELESSNESS WON'T RUIN YOUR HUNTING TRIP:

WATCH THAT MUZZLE! CARRY YOUR GUN SAFELY—NEVER DRAG IT. SAFETY ON UNTIL READY TO SHOOT NEVER CLIMB A FENCE WITH A LOADED GUN.

BE SURE OF YOUR TARGET BEFORE YOU PULL THE TRIGGER. KNOW THE IDENTIFYING FEATURES OF THE GAME YOU HUNT. AND NEVER POINT A GUN AT ANYTHING YOU DON'T INTEND TO SHOOT.

UNLOAD GUNS WHEN NOT IN USE. STORE GUNS AND AMMUNITION SEPARATELY—ALWAYS BEYOND THE REACH OF CHILDREN.

CONTACT LENSES AND YOU

by GEORGE THOMPSON

VANITY, THY NAME IS CONTACT LENSES

New York (NAPS) — What beauty aid can't be seen, goes on in a wink and puts a sparkle in your eyes? The answer is tiny contact lenses and they are being worn by millions of women.

According to Barnes-Hind Ophthalmic Products, makers of adjunctive solutions and accessories for the care of contact lenses, some 60 percent of those who use the vision aids are women and they freely admit that vanity is the reason they own them. Better vision is a happy bonus.

Vanity is good for us, psychologists say, and women know a good thing when in the pursuit of beautiful eyes. History is filled with tricks and rituals used to make them lustrous and limpid.

Egyptian ladies, for instance, drew circles about their eyes using a powder called Kohl, made of crushed pearls, coral, ambergris and a bat's wing! African natives added ants and mud to the recipe.

Spanish ladies of the Court achieved shiny eyes by bathing them in orange juice. Belladonna was good for dilating the pupils giving a wide, innocent look.

Later on, women who were hopeful of putting away their eyeglasses turned to cumbersome glass contact lenses. These were bulging, eye-covering shells which needed special fluids to be worn. These may have blurred a girl's social life, as she had to see around the bubbles that formed.

Modern contact lenses cover the cornea, the clear section that covers the colored part of the eye out of which we see. Made of featherweight plastic—also, paper thin—they rest on the eye's own natural tear layer and often can be worn 12 to 16 hours a day.

A bonus beauty aid to women who wear the tiny vision aids is the colored contact lens. These not only shield bright sunlight, as originally intended, but can actually change the color of the eyes—from grey to brown, blue to green and more. Only woman, spurred by her charming vanity, could have made that discovery!
