

## Native African Exile Speaker At North Carolina College

Gladstone M. Ntlati, a Black exile from South Africa, lectured recently in the auditorium of the education building at North Carolina College. Ntlati's topic was "Racism in South Africa." He began by giving some fact in comparable to the American white and the Indian," he said. Ntlati also talked about

the present revolution going on in South Africa. The revolution began in 1961 when the South Africans stopped using "passive resistance" as a means of obtaining freedom and started using sabotage as a means of protest.

His major point was "what it is to be black." He compared being black in Africa to being black in America. He

### Sports Briefs

THE AMERICAN male's physical condition isn't what it ought to be, recent surveys show. Flabbiness is best overcome by a regular program of physical exercise. Calisthenics and swimming are good starters—or you might want to join a drill team.

IF YOUR THING is togetherness, join a hiking and jogging club. And the jazzy, new ballroom dances can add romance to exercise.

THERE'S a proper costume for every sport, but it's the comfort underneath that counts, as well as style. Let your local haberdasher show you BVD's line of modish men's polyester-cotton underwear, guaranteed for a year...Boxer shorts, undershirts, T-shirts and briefs. Also special new spandex-cotton waist-control support briefs and jogger outfits—a whole wardrobe that'll help make a new man of you.

## LeMay Says U.S. Losing Advantage

WASHINGTON—Gen. Curtis E. LeMay said Sunday a study by the National Security Council of the strategic military strength of the United States and the Soviet Union shows the United States is "losing ground rapidly."

LeMay, former Air Force chief of staff and now a third-party candidate for vice president, said the study fails to support Defense Secretary Clark M. Clifford's contention that the United States enjoys a substantial military superiority over Russia.

Based on the study, in which he participated before his retirement in 1965, LeMay, "I would say otherwise."

said that "black power is the most exciting thing in this country today," and that "blackness is a special gift of which we should be proud. It is unfortunate that black power has been misinterpreted and associated with violence." He warned, however, that violence is inevitable in the United States and South Africa.

Ntlati has been in this country since 1958. Since that time he has earned a Master's degree from both Yale and Harvard Universities. He is also a candidate for the Doctor of Philosophy degree from Harvard.

## Iredell County Manufacturer Named in Wage-Hour Suit

STATESVILLE—Percy McNear Dillon has been named the defendant in a Fair Labor Standards Act (FLSA) suit filed in U. S. District Court here by Secretary of Labor Willard Wirtz.

The defendant resides in Iredell County where he is engaged in the manufacture of garments and in the performance of clerical duties in connection therewith.

The complaint alleges the defendant is in violation of the minimum-wage, overtime-pay and shipping provisions of the FLSA; that as a result of these violations \$11,689.07 in minimum wages and overtime pay has been unlawfully withheld by the defendant from 77 of his employees.

The action asserts defendant's employees are covered by the FLSA because they are engaged in commerce and in the production of goods for commerce.

The suit seeks a judgement enjoining and restraining the violations alleged and enjoining and restraining the withholding of payment of minimum wages and overtime pay found by the court to be due the defendant's employees.

## Bob Scott wants to save you money on car insurance. And that's not all.

Bob Scott is concerned about the rising cost of automobile liability insurance. As the cost for this insurance increases, the burden on the car owner increases. Bob Scott asks why.

When he becomes Governor, there will be reforms in the automobile insurance program—reforms that save you money.

Bob Scott also wants to save lives. Too many people are being killed on our highways. Lives full of talent and leadership end abruptly. Each year the toll mounts.

Bob Scott will work for highway safety and for a reduction in highway fatalities. He wants to build better and safer roads. Roads that will enable North Carolinians to see more of their State. Roads that will make it easier and more pleasurable to travel to and from work. Bob Scott means what he says.

Vote for a better North Carolina. Elect Bob Scott your Governor.
