what kind of coffeemaker do you use?

It really doesn't matter.  
 Any coffeemaker can give you a good cup of coffee, providing you use a fine fresh coffee that is ground exactly right for your coffeemaker.  
 We've always known that the correct grind is important to coffee flavor.  
 That's why, years ago, we developed Custom-Grinding.  
 That's why we don't have just one or two grinds but seven different grinds... to fit any coffeemaker, including electric percolators, of course, (Ask for medium-fine grind for electrics).  
 Custom-Grinding means a little extra work for us and a little extra time for you. (It takes 15 seconds to grind a pound).  
 But what a difference in flavor those few seconds make.  
 You know, there's only one reason we insist on selling custom-ground bean coffees... WE CARE.
