You don't have to be a basketball player to get into college anymore.

Time was when the Negro either had to grow 6'8" tall or develop shoulders big enough to tear a hole in somebody's football line if he wanted to go to college.

Things are different now. About all it takes for a black to get into the college of his choice is brains and money.

If your kid has the brains we can help you plan for the money. North Carolina Mutual has a policy that helps you make certain there will be enough money for your child's college education. And give your family protection, too.

We're a Negro operated company that's been helping blacks plan for tomorrow since 1898. It's made us one of the strongest companies in the insurance industry today.

Call us about your child's college education.
