Northern High School Choir Speaks Out

All intelligent and upright citizens of Durham will appreciate to the highest degree the statement made and released to the public by the members of the Concert Choir of the Northern High School concerning the event which occurred at the Crossdaile Country Club last week at an affair given by the Beta Kappa Chapter of Delta Kappa Gamma.

The statement, signed by all members of the Northern High School Concert Choir who were involved in the Croasdaile Country Club incident, was issued this week to the press and the general public. The stand taken the approval of the members of the Croasdaile Club, but it is our feeling it will meet the approval of every fairminded and decent citizen in Durham.

Said the statement in part: "While we respect the right of private clubs to restrict membership to whomever they please, we feel that such extreme action as this was uncalled for. We consider it a gross insult to those of us who are black, as well

as an affront to the entire Concert Choir. That anyone can believe that a person's color reflects anything on that person's character, general worthiness as a human being, or even his ability as a mutual performer is to us inconceivable. However, if private clubs such as Croasdaile must persist in such archaic beliefs, we suggest that they use the necessary caution to assure that such ridiculous confrontation as this not take place in the future."

Appearing on this page of this week's issue of The Carolina Times is a cartoon which we feel tells in a by the choir will probably not meet more forceful manner than we can say in words what we have been trying to say in this editorial. Finally, we say to the members of the Croasdaile Country Club, and all other persons of like mind in Durham that we will not surrender to any element of citizens in this country who will place above the rights of loyal American Negro citizens communists and other enemies of this country so long as their skin is white.

Unanswered Questions About Biafra

The fall of Biafra was no surprise. It appeared that the intent of the federal forces was not necessarily the upholding of a political idea or territorial claims, but rather the complete annihilation of a people. Destruction of a race can be accomplished by continually demoralizing them but this takes time. Apparently the only consideration given time in the recent conflict was that little of it as possible be spent in bringing the secessionist nation to its knees.

Although the world has known of the 30 month conflict, the victory now won evidently was not attained by conventional military strategy. Or was it? Targets of war usually include industries producing arms, governmental complexes, transportation and communication centers. Did the strategists include genocide as a weapon? Civilians are not to be the prime targets of battle. Is genocide by-means of starvation, in any way tolerable by rules the Geneva Convention?

Reports show that the death toll of the Biafrans exceeded two millionmost of whom were children and most of whom starved. Predictions are that 2 million more will die from malnutrition injuries, exposure and disease. How is it possible that weapons and ammunition were delivered and food, medicines could reach neither the military nor the civilians in time to abate such a tragedy? What do the nations who supplied both sides with military equipment hope to gain at the cost of a race's destruction? What hideous set of human values guided nations in choosing to help the federalists or the

What role did the U. N. play? (Following the fall of Biafra, U. N. representatives toured the conquered land). Did the U.S., long a champion of any struggling people, exert its hand?

Why did some black militant groups in this country express sympathy toward the Nigerian forces? Some of them have voiced the opinion that now the federalists (Nigerians) and former secessionists can settle down to a peaceful coexistance. This is paradoxical to say the least unless one final query is explored. Considering that the Ibo children have been the chief victims and the conspicuous absence of young Ibo females as reported by newsmen on the scene, who will declare the future generations of the once great cultural and proud Ibo tribesmen?

FACTS APOUT NEGRO

The View From Here

president's home. Also to be requested is a total of \$84,000

It is not often that a group of well-educated, and distinguished people make a mistake as dangerous to the facade they carry around for the world as the one the members of the Croasdaile Country Club made recently.

Prejudice and racial bias notwithstanding, the age is past when a group of people can just presumptously embarrass and belittle Black people. It is rather bewildering to try to fathom the lack of foresight in people who knowing their shortcomings do not *1. take the time to check into the make-up of performance groups before inviting them. Just a few phone calls would have saved everyone involved a great deal of embarrassment. However, one is tempted to wonder if ignorance is not a folly unto itself.

By now every intelligent white person has had an opportunity to see that Negroes are just people. We are not some cosmic off-shoot on the tree of evolution. We don't grow tails after twelve either. We are human beings with the same skills, aspirations, talents and abilities as other people. With this information available, I can but help wonder why would it come as a surprise to the White Anglo Saxon Prostestants at Croasdaile to see Black faces in the choral group from Northern High School.

As sickening and disheartening as the incident is, I sincerely hope Negroes do not place such significance upon it as to give it importance beyond its worth, Our viewpoint should be that we and all other enlightened people stand on a plane of intelligence so high that those wallowing in the nadir of ignorance cannot touch us. We should not stoop so low as to even consider retaliation, for people of this ilk are not worth it. If they wish to buy their heads like ostrichs in the sands of a darkened past, then let them. We as intelligent and considerate humans will reject even the temptation to apply a wellplaced foot at the exposed end.

It is hard for me to believe that even these people can allow such a drastic mistake to go unheeded. It is them respectively suggested to the membership of the club in question that they issue a formal statement, signed by all members, apologizing to the high school choral group and all sensitive citizens of Durham who see the incident as an affrontal to their efforts to maintain racial harmony. A failure to issue such a state ment on the part of the Croasdaile group will probably cause people to wonder if the tablecloths out there are white linen, and if the lamp shades have eye holes.

"HOW TO LIVE WITHOUT FEAR"

FREEDOM IS PEACE By REV. B. A. MACK

"Peace I leave with you, my peace I give to you, not as the world gives do I give to you. Let not your hearts be troubled, neither let it be afraid.

Peace is the universal desire of mankind. Without peace there is no freedom, without freedom there is no peace. But peace is difficult to achieve. Not only is there the recurring problem of war, there is also the continuing problem of finding personal peace in a world that is not under your control.

The Bible promises peace in the midst of life. It does not advocate self-isolation and

(Continued from front page) I am glad that you Afro-Americans are being resurrected from the dead." When I visited the university of the West Indies, a young student said to me: "When I was in New York last summer, I found the black American clergymen are not so friendly." A young man from Ahmadabad, India was in my office here at 644 Riverside Drive, and he said to me: "I've contacted three clergmen here in New York City to give me an opportunity to speak. and they all turned me down.' As he continued: "One said, he had his calendar full for the rest of 1970." Space will not allow me to continue with quotes from people here at home and from abroad

Sunday, January 11, I was

at one of Atlanta's most outstanding churches and the entire sermon was just a social message without life or spirit. More than 30,000 black dopeaddicts in New York City alone. Does this bother these gentlemen? No. Do these gentlemen concern themselves about the refugees in Nigeria, Biafra and the rest of the world? No. As there are less white Evangelists going to Africa and Asia, are these gentlmen interested in filling the gap? No. Crime is growing ten times faster than the population. Most Afro-American clergymen are absolutely in darkness, or the Bible is the biggest fake of all times. It e only an idiot to call the Bible a fake. I would like to recommend to Afro-American clergymen to either preach the Gospel of Jesus Christ, or seek some other profession.

Vours in Christ. Arthur Bradford
