Declares Youth Program is Road To College for Disadvantaged

WASHINGTON — Five years ago Alonzo Abner was, in his own words, "a typical product of the urban ghetto." Now Abner is a senior at Wilberforce University and is expecting to accept a \$10,000 per year job with one of the 8 largest accounting firms in the world when he graduates in June.

He is one of more than 200 Wilberforce (Ohio) University students whose enrollments in the Neighborhood Youth Corps (NYC) led to a college education and a chance to escape poverty. Their stories are told in the May issue of the Labor Department's "Manpower Magazine."

Abner entered Wilberforce through the efforts of the Philadelphia NYC where the staff helped him fill out the papers for Government loans and scholarships he needed to enter college.

Abner said that he had been "brainwashed" into believing that he did not have the potential for going to college because of the inferior education he had received. Now he wants

to go to the University of Pennsylvania's Wharton School of Business and get a Master of Business Administration degree.

Tuition, room and board at Wilberforce cost \$900 per semester, and there are three semesters a year. Because so many of the students cannot afford it, the college has established a financial-aid program, resting on a combination of scholarships cooperative education, work-study programs, and Federal grants and loans ranging from \$200 to \$1,000 per year.

Abner has used Federal student loans and grants, money earned through the co-operative education and work-study programs, and a scholarship plan of the State of Pennsylvania to finish school.

Keep Silver Bright And Beautiful

WASHINGTON, D. C.—You will enjoy your silver more if you keep it bright and beautiful. Here are a few suggestions to make this task easier.

For badly tarnished silver use the fast acting dip type polish. Dip small pieces but wet a sponge and wipe off the blackened tarnish on pieces too large to dip. Silverware manufacturers say dip type polishes won't hurt silver, but it should be rinsed and wiped dry promptly.

Jacquelyn Whitaker, a daughter of the Rev. and Mrs. Charles J. Whitaker, is an active member of several organizations.

She is secretary of the Home Economics Club and a member of Alpha Kappa Alpha Sorority, Inc., the Student Christian Association, and Pershing Rifles Campus Coeds.

Brenda is a daughter of Mr. and Mrs. William Arledge. She enjoys reading, cooking and traveling.

She is affiliated with the college newspaper, the Speech Pathology Club, the Henderson-Davis Players, and Delta Psi Omega National dramatics fraternity.

Miss South Carolina State College and her attendants are elected by the student body.

BANANA ONITIES

IN 1876, THE UNITED STATES CELEBRATED THE 100th ANNIVERSARY OF ITS INDEPENDENCE. WAS RIPE FOR PROGRESS—WAS THE GREAT CENTENNIAL EXHIBITION IN PHILADELPHIA. A WONDERFUL INVENTION CALLED THE TELEPHONE. A FEW ALSO SAMPLED A STEAM-DRIVEN FRUIT CALLED THE BANANA. CAREFULLY WRAPPED IN TEN CENTS!

SOME DOUGHS PREFER FRUIT AS NOT ONLY BECAUSE IT IS SO NUTRITIOUS, BUT BECAUSE FRUITS USUALLY TAKE TO IT SO ENTHUSIASTICALLY. THE ONLY FRUIT THAT DOES NOT HAVE TO BE STEWED FOR THE FIRST 6 OR 8 MONTHS OF A BABY'S LIFE—ACCORDING TO THE KAW KIFE SPECK—IS THE KAW KIFE BANANA—BECAUSE IT CAN BE MASHED SO READILY AND NEEDN'T BE STEAMED.

TODAY, HEALTH-CONSCIOUS SHOPPERS KNOW THAT UNITED FRUIT "CHIQITA" BRAND BANANAS CONTAIN ONLY ABOUT 85 CALORIES EACH WITH VIRTUALLY NO FAT OR CHOLESTEROL.
