Brothers and Sisters School for For Unity to Aid Hayti Youth

By MRS. NAOMI ROGERS
During the summer and even during the winter months, little brothers and sisters in the Hayti Community are usually left to play up and down the rugged streets of Durham having little or no direction.

As they play, they are faced with the increasing number of daily problems common to those areas where one finds drugs, not just the weak marijuana, but they see people "popping" skin and swelling their veins with the poison and deadly juices which cause one to completely lose himself. If they are lucky, they can make it through the day without someone trying to push drugs on them.

Several teens in this community feel that it is their obligation to care for their little brothers and sisters and we, the staff of DYOCA, Inc., feel it is our responsibility to meet the needs of all our people when and where possible. We encourage and suggest that Black people can sufficiently and successfully guide the minds of our young by working closely with them daily in an atmosphere which creates the feeling of brotherly love for each other so that as they grow older, they will not need drugs to help them escape problems which face all of our people daily. Our starting point is the second week in June, we shall call our school, "Brothers and Sisters for Unity." We hope to carry our program into the fall; however, your response as a citizen of the Black Community will help determine how successful it will be.

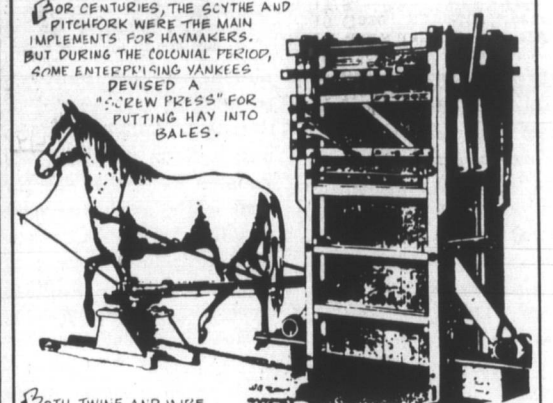

At present, we plan to start with 30 students between 8 and 11 years, with five consultants from the Hayti Community to serve as program directors. The program is proposed for 10 weeks without your help; with your help, it is proposed for many years.

As Brothers and Sisters for Unity our emphasis will be placed on developing the skills and talents of these young minds.

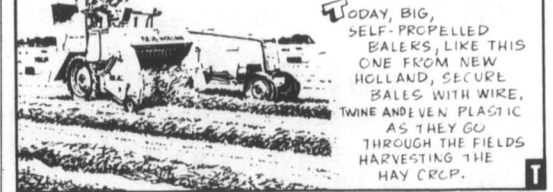

We need your support. You may help by donating food or funds. May we count on you?

CENTURIES AGO, AMERICAN INDIANS TRIED TO GAIN IMMUNITY FROM POISON IVY BY CHEWING THE LEAVES. BUT THIS FORM OF LIP SERVICE FAILED TO LICK THE PROBLEM.

IF YOU CAN RECOGNIZE POISON IVY ON YOUR PROPERTY, DON'T TRY WEEDING IT OUT BY HAND, FOR YOU ARE LIKELY TO LEAVE THE ROOTS BEHIND. INSTEAD, BUY A GOOD COMMERCIAL PLANT KILLER WHICH WILL DESTROY ROOTS AS WELL AS FOLIAGE.

IF YOU HAVE CONTRACTED A CASE OF POISON IVY, TREAT IT WITH RHULIUM, WHICH IS ALSO EFFECTIVE AGAINST NON-POISONOUS INSECT BITES. THE STANDARD, NON-PRESCRIPTION REMEDY FOR POISON IVY, IT IS AVAILABLE AT MOST DRUG STORES.
