## Panther's Appeal Denied By Court

SAN FRANCISCO (UPI) — The California Court of Appeal has denied bail for Black Panther party co-founder Huey Newton, whose manslaughter conviction for the 1967 slaying of an Oakland policeman it reversed recently.

Newton was sentenced to two to 15 years and is now in the California Men's Colony at San Luis Obispo.

"WE WILL have to think about whether we will go to the state Supreme Court for bail," said Newton's attorney, Charles Garry.

The state attorney general's office indicated it would appeal the reversal. If that appeal loses, Newton will be granted a new trial.

William Henry Harrison delivered the longest inaugural address of any President — 8,578 words and about one hour, 45 minutes time.

## Bennett Finals Speaker Stresses Dedication

(By DOUGLAS D. McADOO) GREENSBORO — The challenge hurled at the 126 members of Bennett College's 1970 graduating class during commencement ceremonies in Pfeiffer Chapel June 1, was to go out into the world and force an "imperfect system" to work for them if they are going to help with the solving of the ills in American society.

The speaker, Mrs. Anita F. Allen, President of the Board of Education in Washington, D. C., a city she described as a profoundly troubled city, listed four ways to accomplish this: (1) through politics, or mastering the system, (2) perseverance, or don't quit now, (3) positive program, which is to say, know what you want, and (4) prayer—that speaks for itself.

Calling herself a practical woman, Mrs. Allen said that sitting as the president of the school board she sees education, public school systems, and the Negro community through those glasses. And the question often asked is "not how shall we bring about quality education, but, rather, shall we have education at all?" And she added, the question, too frequently, even in some of our colleges, is "will we be able to keep the schools open today."

Calling quality education "that which enables each individual to maximize his ability to function in his roles as an individual, as a family member, and as a citizen in a community and in the world," she said that we generally understood the personal part of education rather well. But quoting W. E. B. Dubois, she said those of us designated as the "Talented Tenth" need to put more stress on functioning in the community in the fullest sense, and being sensitive to one's and others environment.
