STORAGE TIPS FOR FRESHER FOOD

Freeze your best sauces in Tupperware 2-ounce Midget plastic containers and, when frozen, store the cubes in polyethylene bags. When a recipe calls for just a few tablespoons of basic sauce, put the cubes in to a measuring cup... set the cup into a skillet of simmering water... and the sauce will be deliciously ready in only 10 minutes.

Meat loaves, raw or cooked, freeze well. To defrost and cook uncooked loaf: empty into baking pan and bake according to recipe directions, increasing baking time by 50%. To defrost cooked loaf: remove from container, wrap in foil and bake in a 400 degree Fahrenheit oven for 30 minutes.

It's a fact

VENICE'S romantic gondolas are made of strong oak planks... and **COURTING BUGGIES** still used in parts of the Pennsylvania Dutch country are made with beautiful oak paneling.

Modern homes show the same high regard for the beauty and durability of oak by using it on floors that will last longer than the house itself.
