

Claims One Third of All Black Panthers May Be FBI Agents

So contends a leading black editor, Dr. Metz T. P. Lochard, in a revealing article in the May issue of Sepia magazine. Of the total of 1,500 Panthers nationally, "perhaps some 600 are infiltrators. This accounts for the fratricidal acts that keep so many members in the clutches of the law," states Dr. Lochard.

In his article, "Why the Black Panthers Can't Win," in Sepia, Dr. Lochard cites several trials of Panthers as "starting instances of the extent to which undercover agents have infiltrated the party." An associate editor of the Chicago Daily Defender and its chief editorial writer, Lochard quotes J. Edgar Hoover as stating that the FBI has penetrated to the "top echelon of extreme groups," and his description of the Panthers as "the greatest threat of all black extremist groups."

Lochard in his Sepia article supports the goals of the Panthers as "worthy and laudable" but expresses doubts on their tactics of trying to achieve "social reform out of the muzzle of a gun or by shooting it out with police." He ridicules the announced Panther intention of sending "an undetermined number of troops" to assist the North Vietnamese war against the U. S. and their support of the Arabs against Israel. "The Panthers' anti-Semitic assertions defies logic and explanation."

tion. They need all the friends they can make to insulate them against the heat of their unflagging oppressors," states Lochard.

The Panthers "have lost much of their psychological appeal and emotional magnetism," states Dr. Lochard. "The membership is dwindling." But despite its setbacks Dr. Lochard feels that the Panthers' importance should not be underestimated. "It has effected a transformation of race spirit," he concludes.

Mrs. Stanback Is O. H. Teacher Of The Year

Mrs. Stanback was named the 1971 Orange High School Teacher of the Year on Tuesday, April 20. The Teacher of the Year was chosen through a secret ballot vote of the O.H.S. student body and is sponsored by the Orange High School Chapter of the Future Teachers of America in recognition of the National F.T.A. Week.

Mrs. Stanback teaches French I and General English IV at Orange. Aside from her duties as a teacher, Mrs. Stanback is also the sponsor of French Club and is a senior adviser.

Leading aluminum producers and a number of brewers have initiated reclamation programs intended to recover and recycle empty aluminum cans.

Grooving With Chuckie Harris

Hi soul brothers and sisters, and of course to anyone else who wants the very best. We, here at WSRC, are overjoyed at the response we received from our Black Gold weekend, which was a first at WSRC a few weekends ago. At this time we are planning another groovy Black Gold weekend. Many people who I have talked with have asked why we don't have a Black Gold weekend every week. Even though Black Gold weekend was well received and it is very popular throughout the nation, we here at WSRC feel that Black Gold weekends should be treated as it really is, and that is special. To do it every weekend would soon become ordinary, not special; of course, if the demand is great enough, we will do it more often. As I usually say "we try to give you more of what you listen for."

When calling WSRC these days, the pleasant voice that answers is the voice of Mrs. Carolyn Leathers, who was with us a couple of years ago. During her absence, she was blessed with a couple of bouncing baby boys (not twins). But now she's back at the old stand doing a tremendous job as before.

Of course, on her first day back she was a little rusty and

in writing out the copy for one of the food markets, she wrote "fig" feet instead of pig feet, and it got a very big laugh from the whole staff. That is, everyone except yours truly, since I was the one who read it on the air, and it came out just that way "fig feet", but she quickly settled down and is now turning out beautiful copy. "Right on Carolyn."

Another change that has taken place is WSRC now has a full time newsmen. In speaking about 249 lbs. Ray Evans, he is on the job early every morning and is on top of the news wherever it happens in and around our area, which means whenever news breaks, you will hear it first on WSRC.

We are extremely happy about this addition since the public is more news conscious now than ever before. Speaking of Ray Evans, he has had great experience in radio working for WZUM in Pittsburgh, Pennsylvania before coming to WSRC. He is one of the few Blacks in this area that own a first-class FCC license. In addition to his news duties, he still fills in part-time on the air. So, remember friends, whenever news break, you will hear it first on WSRC.

Well I guess you know, as I always say "my mickey mouse says it's time to stray."

Until next week, stay on your feet and don't forget to listen to WSRC with the soulful beat. Of course, you know I want you to "walk tall and stay loose."
