I LOOKED AND I SAW

By REV. C. R. STONE

TO BE CURSED BY HIM

The ways of our God are not always understood by men who seek for the truth to be found in earth as it is in heaven. One may rest assured that the more he seeks for the truth, the more he may find about that truth. God's revelations of His truths are likened unto an operator of a sewing machine. For the most part, one is able to observe a stitch at a time as the needle pulls the thread through the material. But by bit and step by step, God makes Himself known to the seeker. The things that we find within our Father's will do not always appear according to our pleasures only, but our displeasures as well.

A curse by God may be a period within the lives of a people whereby God withdraws His major support in the form of blessings due to their transgressions of His divine laws. For example, the land that a people may desire to use for production of food may become barren. With this in mind, there may be wholesale starvation in that land. Furthermore, there may be uncontrollable wars among nations and smaller kingdoms that destroy the unity among that people. There could also be uncontrollable diseases that destroy lower animals and persons on a large scale basis.

REV. STONE

It should be remembered that even with all of these changes taking place, God's love still prevails. When men are ready to change from their wickedness our maker proves that He is ready to forgive. When men are restored to the grace from whence they have fallen peace and prosperity are seen within that land.

He who hath ears to hear let him hear.

Returning To Christ

By Donald Love

The returning of Jesus Christ, means that He must have been here before. There are so many that doubt His being here at all. Those of us who believe His first being here, what can you do and what must you do to shed light in and around this dark area? When you say that you believe that He has been here is the very first step. You must follow through with the other necessary steps.

We have other religions believing in God but do not believe in His Son, Jesus Christ, the one we feel so closely to. Reasons are many coming from those opposing Christ. He is given the credit of being a good man or a good prophet but not the Son of God and definitely not God or one of the Godheads. They come this far then get off. The responsibility is ours being a salesman for Christ and Christian religion. We should be willing to support the things we believe in.

One of our worst enemies can be found among the Christian family itself. I have said this before and will repeat, there are too many branches within the Christian religious body to do the good that is required of the body. Instead of putting Christ upon the pedestal, we are so

eager putting our own selfish beliefs there. Our denominational system is a thorn in the flesh of the Christian religion. We are trying to get followers to join our denomination rather than having them coming to Jesus.

Once the individual finds Christ, having the experience of telling just what happen and how it happened when a change happened into their lives. When this has been experienced, they have something to tell. You cannot tell anything until you get something to tell.

We have people just joining the church. When this is done the way it is done, they have nothing to make them return. They have nothing to make them go to Sunday School on Sunday after the other or continuously. This is true in any phase of the church. Who attends prayer Continued On Page 7A

CARD OF THANKS

The family of the late Mrs. Pinkie Scott Yates wishes to thank everyone for their many kind expressions of sympathy shown to them during their hour of bereavement. Your cards, telegrams, visits, telephone calls and most of all your prayers were deeply appreciated.

THE FOOD PRICE CRISIS
and what Kroger's doing about it.

Ever since our company was founded, saving customers money has been a major consideration with us. Today, we're as concerned about food prices as you are. When you pay more at retail it's because we pay more at wholesale. We can't do anything about our wholesale prices. But we can do something to help you cut your food costs.

BREAKTHROUGH
We have a plan to help break this vicious circle by helping our customers shop wisely and well. We're going to bring you, in subsequent weeks, a series of messages of vital concern to every shopper with a food budget problem. These messages will offer you.....

PENNY-PINCHING POINTERS
They will show you how to shop with one eye on quality and the other eye on your budget. We'll also bring you several suggestions for.....

GOURMET BUDGET MENUS
These menus take advantage of plentiful foods and let you enjoy expensive tasting meals at less expensive prices. We'll show you some low-cost, yet appetizing serving ideas that cut your food bill without cutting your enjoyment too much. We'll show you how to take advantage of.....

MEAT CUTS AT SALE PRICES
For example, we'll show you how to purchase a large roast and cut it into main dishes for three fresh servings. Yes, we'll be on the lookout for more suggestions like these because.....

WE'RE ON YOUR SIDE
Some stores advocate meatless days. Not Kroger. We don't think our customers want to be restricted like that. Some stores just ignore the situation. Not Kroger. We know our customers want us to do something to help them face this food price crisis.

HERE'S THE KROGER POSITION:
We're going to show shoppers how they can enjoy healthy, appetizing alternate dishes at considerably lower cost. (We'll still have the more expensive items for those who want them.)

YOU DO YOUR PART — WE'LL DO OURS.
Together we'll weather the food price crisis and enjoy delicious, nutritious eating along the way.

WE HEAR YOU
AND WE'RE TRYING TO HELP.
