MARINE SECOND LIEUTENANT

2nd Lt. Jay A. McMillan, Black Acad. Grad Chooses Marine Air

JAY A MCMILLAN

Second Lieutenant Jay A. McMillan, a 1972 graduate of the Naval Academy, believes Marine Aviation is the only career he could possibly have chosen.

So today, at Naval Air Station, Ellyson Field in Florida he is training in helicopters for that very career.

"I wanted to do something different. Be someone different," he says. I couldn't see myself anywhere else but in the air, flying with the Marines. If I had the money, I'd buy my own plane.

McMillan was born in Nashville, Tenn., but he grew up in Chicago, completing studies at Hales Franciscan High School on the South Side. He ran low and high hurdles for the school track team.

He is the son of Julius A. McMillan and Mrs. H.D. Hudgins, both of Chicago, where the elder McMillan is a human relations officer for the mayor.

Lt. McMillan hopes to be assigned to the CH-53 helicopter, (See LIEUTENANT Page 10)

Increase Postal Rates May Force Many Magazines Stop Publishing

NEW YORK-The Reader's Digest, in a rare "message from the editors," warns this week that "a large number of magazines" will be forced to stop publishing if projected i ncreases in second-class postal rates are allowed to take effect as presently scheduled. In the lead article in its January issue, the Digest characterizes the increases as "the most serious financial threat in the magazine i ndustry's history."

The rates, which apply also to newspapers, are already 50 percent higher than they were three years ago. Yet last September 25, the U.S. Postal Service announced its inteniton to more than double second-class rates over the next three years. Moreover, some observers of postal affairs think

BAN ON BUSING **DROPPED AFTER** NAACP PROTEST

NEW YORK-Following a strong condemnation by NAACP Executive Director Roy Wilkins of the anti-busing amendment passed by the House of Representatives on December 13, a joint House Senate conference committee agreed, on December 19, to delete the amendment from a compromise energy bill. The

House amendment would have banned fuel for "forced" busing of school children to achieve racial balance.
