Remember the song, "What Are You Doing New Year's Eve," that guys used to sing to their favorite girl? If you are planning a get-together for December 31st, chances are your guest will be singing to you, "what Are You Serving New Year's Eve."

If cold cuts are included on your New Year's Eve buffet menu, make sure they are fresh and chilled. Be cautious not to allow them to stand at room temperature too long. This can be avoided if you use several trays of food so that one may be left in the refrigerator until the first one is used. This way you can bring out a fresh tray often and meats will stay cold and bacterial will not have a chance to grow.

If you're serving salads - shrimp, chicken or the like - remember, they are highly perishable. Pack the serving dish in cracked ice - or, use smaller serving dishes and refill often from the refrigerator. Set them on molds of ice and be safe.

Serving eggnog? A punch bowl of eggnog that stands for hours at room temperature is a fine breeding place for bacteria. Eggnog should be chilled, and be sure to replace the supply often.

A good rule of thumb is to remember that all perishable foods such as cream pies, seafoods, and dishes made with eggs, fish, meat and poultry should be kept COLD. Since cream pies and cream-filled pastries get soggy, if refrigerated too long, it is a temptation, to leave them at room temperature. This encourages bacteria to grow so an ounce of prevention is to fill the pastry as close to serving time as possible.

If you serve sandwiches why not plan to have the kind you can freeze ahead so they can be thawed as needed? Are you going to serve chicken?

Freeze the cubes of chicken and use them in preparing the salad? They will thaw as the salad stands, keeping it as cold as possible. With any salad there is much handling in preparation and serving. Make sure all ingredients are clean and well-chilled.

Food that has been contaminated and allowed to remain at room temperature for four hours can cause a gastro-intestinal upset. This includes preparation and serving time. If it takes two hours to make a chicken salad and it is refrigerated overnight, and the next day, it is left on the buffet table for two hours, the total time at room temperature is four hours. Putting food in the refrigerator slows the contamination process but it doesn't stop it.

After the party, don't let huge quantities of party leftovers fill your refrigerator for days. Plan in advance for ways that you can use the foods, the freeze the rest. If you have doubts about a leftover, don't use it. Throw it out. Contaminated food does not necessarily have a bad smell or taste. Just because the food doesn't seem spoiled, doesn't necessarily mean that it is all right to eat.

When the bells ring out the old and welcome the New Year, your crowd will go home well fed and happy that you have done it safely.

LIVINGSTONE COACH HONORED—Baxter D. Holman (right), head football coach at Livingstone College at Salisbury, was honored recently at Coach's Roast, sponsored by the Livingstone faculty athletic committee. Holman, the 1974 Central Intercollegiate Athletic Association coach of the year, is presented a silver bowl by Grady Nelson, committee vice chairman. Holman guided the Livingstone Fighting Bears to the school's best record in the school's history, 9-2. His two-year record since coming to Livingstone is 16-4-1.

L.B.D.O.'s provide information, advice, and business assistance to minority clients who desire to go into business or to improve and expand their existing business.

In commenting on the example of the Hunts and their success story, Alex Armandaris, director of OMBE, said that, "Mr. and Mrs. Hunt typify the American dream. A dream in which anyone, regardless of background, by reason of hard work and determination, can reach the highest degree of success."

Armandaris said there are some 300 OMBE-funded business organizations nationally to help member of minority groups with their business ideas and their problems. The names of these can be obtained from regional and district offices of OMBE.

Edward Hunt, a quiet man of 42, and his wife, Shirley, started their market and grocery business with a bus - a very special kind of bus. One that had been converted to a mobile grocery store with a regular door-to-door route in the same area their store is in today.

Hunt says, "We took the seats out of the bus and loaded groceries into it and sold them out the back door. I used a driver, an assistance and myself. But then after a couple of years, misfortune struck. The bus Mrs. Hunt was operating caught fire and was destroyed, seriously injuring her in the process."

Mrs. Annie E. Daniels left with the party-makers a thought to remember when receiving or giving gifts: "Christmas Gift" Francis Ellis.

As Christmas comes to cheer the world again,

And kindled o'er the earth, the hopes of men, we are

Thinking of the gifts that God might leave beside your

Friendly door on Christmas Eve.

They are the things untouched by rust and blight,

Things that do not perish with the night,

But linger in the heart to cheer and bless, leaving a

Fragrant trail of happiness. Christmas Party 1974 for

A poem penned by Mrs. Lorena Williams especially for Dr. Davis's 1974 Christmas Greeting:

He's the pastor of our church,

Shepherd of our flock,

He directs us to the one above

The save and solid rock.

He tries to do the best he can,

He gives to those in need,

He renders service to one and all,

Our souls he doth feed.

And so may God bless our pastor, whatever he may do,

May God give him souls for hire, and keep him always true.

FACULTY ARTIST—Philip Lindsay Mason, chairman of the department of art at North Carolina Central University, is shown with one of his paintings displayed in the department's recent Faculty Art Show at the NCCU Art Museum. Comments in the museum's guest book for the well attended show indicated that Mason's work has a wide appeal. Mason is dynamite, one visitor remarked.
