THIS YEAR, PUT YOUR MONEY INTO SOMETHING SOUND.

A Volvo.

Inside a Volvo, five people are surrounded by a steel passenger cage so sturdy it has held up six other Volvos. The driver is protected by a collapsible steering column that has five separate energy absorbing areas. And the car stops with a dual braking system that has three brakes (two front and one rear) on each system.

These days, you'd be smart to put your money into something that offers substantial protection. One of our Volvos.
