QUESTIONS AND ANSWERS
MICROWAVE OVENS
Question: I'm vain. It's not enough for me that my pie crusts are yummy. I want them to be beautiful as well. What will give them a browner appearance?
Answer: The home economists at Whirlpool Corporation agreed that pie crusts cooked in a microwave oven are very flaky and tender. But—you're right—they don't brown very much.

If you're making a dessert pie, they recommend that

A STROKE OF THE PASTRY BRUSH may make a pie crust a work of art.

Durhamites Gala Cabaret

Dear Durhamite:

Perhaps you have already heard that we Durhamites of Metropolitan Washington, D.C., Area were very successful last year when we celebrated our first scholarship gala.

To that end, we donated a scholarship in the amount of \$1,000.00 to our recipient, Ms. Tara Fikes. Tara is about to complete her first year of college work at the University of North Carolina.

It was because of folks like you who provided the means to give a scholarship that we were able to help carry Tara through some of the difficulties encountered as a freshman in a college environment. Thank you for caring!

Chances are you are wondering what we are doing now. This year we plan to give a second scholarship to another deserving senior high school student who lives in the City/County of Durham, North Carolina, to help provide financial support during the first year in college. Further, we plan to move forward to help meet some of the needs of the community.

In fulfilling our objectives, again, we call on you to join us in supporting our second annual public money making activity. We promise to go all the way, and then some, in providing an occasion you cannot afford to miss and at the same time help you to renew old ties with friends.
