**COMMUNITY ENERGY SERVICE AVAILABLE FROM CAROLINA FRIENDS SCHOOL** — The Department of Energy has awarded Carolina Friends School a modest grant to provide energy advice and some installation services in Orange and Durham counties.

The service consists of:

- a free home energy audit and planning to meet energy needs more efficiently, including using solar energy;
- some help in installing energy improvements (insulation, solar collectors, etc.) for some participants. Those least able to do the work themselves will have priority;
- help in monitoring homes to see how well improvements work.

No cost of materials is paid under this grant. One must either buy one's own insulation and other materials, or get it from other weatherization programs.

A few small businesses and public buildings can get the same energy service under this grant.

The basic purpose of this program is to help people save energy in their homes and in buildings. About fifty homes and ten buildings will be served.

For more information, write: Community Integrated Energy Systems (or CIES), Carolina Friends School, Route 1, Box 183, Durham 27705.
