

Philby, Burgess & MacLean On WTBS

"Philby, Burgess and Maclean," the true story of Russian counterespies who invaded the ranks of the British government, debuts as the third program of the Mobil Showcase Network's Summer-show Monday, July 21 at 8:30 p.m. on WTBS.

"Philby, Burgess and Maclean" begins in 1945, when a Russian KGB colonel offered to reveal the names of Russian agents working in the British government. It covers the dealing and double-dealing that preceded the 1951 defection to Moscow of Guy Burgess (played by Derek Jacobi) and Donald Maclean (Michael Culver), both highly-placed officials in the British diplomatic service. It was not until 1963 that Kim Philby (Anthony Bates), exonerated in the initial scandal, was identified as the mysterious 'third man' in the ring. Philby, a full-paid KGB colonel who'd been working for Moscow throughout his entire career, had managed to rise to the rank of a senior official in Britain's Secret Service. Why it took 20 years to flush out a cadre of counterespionage agents in their own ranks is a question that has been bothering and fascinating the British for years.

The implications of the work done by Philby, Burgess and Maclean reaches far beyond the borders of Great Britain. Acting as a chain the three agents effected the most serious leak of top-secret information of the 20th Century. Atomic energy secrets funneled to Russia from America by Donald Maclean climaxed in the Russian atomic bomb. The detonation of that bomb permanently changed the balance of world power, precipitating the ominous damper on world relations known today as the Cold War.

The scandal surfaced again last year when journalists unmasked a fourth man in the case, Sir Anthony Blunt, excurator of the royal art collections, following the publication of "The Fourth Man" by Andrew Boyle.
