NCCU Students Moving Toward Health Careers

By Trellie L. Jeffers More than forty North Carolina Central Universiry students were encouraged to enter health and professions related through a variety of programs offered during the summer of 1980, according to Dr. Doris Health Kwasikpui, Careers coordinator at the university.

The programs offered independent included research, clinical work in a number of health programs, and additional education for a career in medicine and other health careers.

Participating in the program for Minority Access to Research Careers, an undergraduate honors program, Christopher D. McIver, a senior chemistry major; Carlton O'Neal, a senior biology major; and Ms. Terry Marie Williams, a junior chemistry major. O'Neal participated in research at Lederle Laborators of American Cyanamid Company in Pearl River, NY, and McIver and Miss Williams worked on research on the NCCU campus.

Eleven siudents participated in the clinical work-study summer health program - Edna Vann, a physical education and recreation major; Elaine Vinson, a 1980 health education graduate; Dennis Scott and Patricia Wallace, psychology majors; Willie Reese, III, and Leondras Worley, biology majors; Barbara Jones and Joselyn Lipscomb, health education majors; Felicia Kizer, a sociology major, and Adrian McCrae, a physical education major pursuing a career as a physical therapist.

Students who parricipated in the Summer Program, sponsored by the N.C. Health Manpower Program at Chapel Hill were Ms. Greichen Bryan: and Ms. Nina L.

Moore. Linda Miss Perrice Wesley and Cynane Robinson attended a summer heaith program at East Carolina University. Allen Harch participated in Biomedical Research Program at Meharry Medical School, and William Stockton attended the summer preparatory program for biomedical careers at the Rutgers University Medical

School. Working under the National Institutes of Health Minority Biomedical Support Program at NCCU were Lorraine Scott; Robert Cumming, Willie Whitter, Dorothy Foushee, Gregory Parker, Terry Williams, Cynanc Robinson, Allyson Gattis and Edward Davis.

The following students attended the Medical Education Development Program at the UNC Medical School: Avis Arris, a 1980 NCCU graduate, who will attend to Duke Medical School this fall; Kary Dodd, who will attend the UNC-CH School of Dentistry this fall; Brenda McClain and Willia Rainbow, who will enter the UNC-CH Medical School this fall; Johannah Tyson; Douglas White, Harry Stanberry, Charles Henderson, Kenneth Watson, Setrina Hunter and Barry Barnes.

The health careers and related professions are becoming increasingly attractive to the NCCU students who are now being given the opportunity to participate in a variety of programs throughout the nation, according to Dr. Kwasikpui.

Car Safety Checklist

When it comes to keeping your car on the road to safety, little things mean a lot. Little things done properly all the time can add up to a lot more safety and

save money in the long run. Most pros advise checking your car's basic equipment before you start on a trip. Here are a few tips:

Seat Belts-Be sure you fasten them before you start

Windows and Doors See that windshield wipers work and that the blades are good. Make sure all windows are clean and keep the rear window deck clear of articles that can obstruct your view. Lock all doors especially if there are small children in the car.

Engine-Before you start it, check the radiator, battery and windshield washer fluid levels. Check drive belts for wear: look for cracks on the inside edge or glazed contact surfaces.

Tires-Inspect them for unusual wear and check the pressure, before driving, with a quality gauge. Proper inflation will save fuel and reduce the chance of tire failure. For added protection equip your car with Uniroyal's new puncturesealing tire called Royal Seal. The Royal Seal is an energy-efficient steel belted radial tire with a patented

compound that protects against 90 percent of punctures 3/16-inch in diameter

Battery-Inspect, test and, if necessary, replace it. Have the terminals, cables and battery itself cleaned. Take along a good set of battery booster cables.

help you drive danger away.

Since cables are no good unless they work, it makes sense to invest in a top-rated product like the M. Black TPR 16Q from M. Black Manufacturing Co. of Philadelphia. These cables are insulated with Uniroyal TPR, a high-technology rubber that protects and en-

sures high performance. Cooling System-Check the coolant's strength; drain and flush if under par and add more antifreeze coolant. Inspect the hoses and connections for cracks or

Following this professional advice can help you arrive safely and on time.

FOR A DAY

125 Youth To Serve As write to Youth Involve-State Heads

If you are a high school student in Durham Counly and would like to run state government for a day, now is your chance.

Approximately students in grades ten to twelve across the state will have an opportunity to serve as governor, lieutenant governor, state attorney general and otherstate officials during Youth Involvement Day activities in Raleigh, Oc-10ber 6-7.

"This experience gives our young people a firsthand look at the daily operations of state government," said Governor Jim Hunt. "State officials also learn from them about their concerns and recommendations for young people's programs."

The cost per student is \$24.50, which covers a

New Durham County Hospital President Is Named

Ralph E. Jennings, 47 year old executive director of Memorial Mission Hospital in Asheville, was named president of the **Durham County Hospital** Corporation, DCHC board chairman Edwin J. Walker, Jr., announced Thursday morning. His appointment is effective in

early November. succeeds Jennings Thomas R. Howerton who resigned from the position of executive director on June 30 to become director of The Program on Access to Health Care in Raleigh. The title of the position is being changed to president, said Walker.

A five-member search committee, headed by Walker, made its recommendation to the DCHC board during a meeting held Wednesday at Durham County General Hospital.

Jennings was graduated with honors from East Tennessee State University in 1955 and earned a certificate in hospital administration at Duke University in 1956.

He is now adjunct professor of management at UNC-Asheville and a preceptor in Duke's health

administration program.

Jennings worked in hospital administration at Duke during 1961-68 and has been executive director at Memorial Mission since 1969.

During his decade-plus of service in Asheville, Memorial Mission grew from a small community hospital to a regional medical center of 427 beds. He oversaw construction of a cardiovascular wing and cardiac surgical suite.

A Fellow of American College of Hospital administrators, he is a member of the advisory council of N.C. State Emergency Medical Services, a trustee of Blue Cross and Blue Shield of N.C., and a director of the Asheville board of First Union National Bank.

The search committee interviewed eight finalists in recent weeks following a two and a half month search for a new director. Richard L. Myers, DCGH associate director, will continue as acting director until Jennings ar-

rives in Durham. Jennings is married to the former Ms. Patricia Swogger of Lansing, Michigan. They have three

At age 70 to 75, the average woman should take in about 2,000 calories a day, the average man about 2,300.
