New Challenges for James Earl Jones

James Earl Jones is one of America's most celebrated and honored actors. He's won Broadway's coveted Tony Award, been nominated for Hollywood's Oscar as well as winning a multitude of other pres-tigious awards. He's never been a man to stand still, and his talent cuts across racial and cultural boundaries to reach world-wide audiences.

Known for his versatility, Jones recently starred in Ibsen's classic "Hedda Gabler" at the Yale Repertory Theatre Spain to play the vil-lainous Foolsadoon in "Conan the Barbarian" opposite muscleman Arnold Schwarzenegger. Jones describes his character as "kind of a prehistoric Darth Vadar." He did the voice of Vadar in "Star Wars."

James Earl Jones attended the University of Michigan and was studying to become a doctor when the theatre bug bit but he wasn't certain that he would make it a career at that point.

The Army has played an important part in his life. He joined Amy ROTC at the University of Michigan and enjoyed the experience.

"I was in college at and sororities were very strong," Jones says. "I had no interest in fratemities, but ROTC did have the Pershing Rifles and Scabbard and Blade," two Army ROTC fratemities which he did join, and balanced the drill and military training with an active social life. "They gave me the association of my fellow trainees in non-military situations. We'd go out for clambakes and weinie roasts and weekend hikes. So I had fun, too.''

would recommend Army and films, and for reviv-ROTC to today's young ing some of America's would recommend Army men and women, also be- great theatrical dramas.

James Earl Jones

lieves in the citizen Army. "I believe Army Army. "I believe Army ROTC is a very strong part of the citizen Army. That's where you know that college-trained people are also your officer corps for the Army.

In fact, it was an Army officer who counseled him to try for his dream of becoming an actor rather than extending for a second term in the Army.

Jones has been ac-claimed for the "universal" quality of his act-ing. "I feel I have an obligation in playing a black person to play a person who is primarily a human being. I don't load him with a lot of ethnic and cultural limitations because I think that's what a lot of people think being black is. It is so much more. So I make sure that as an actor I get as broad a range of the time when fraternities what a black person can be as possible." It is that universal quality that has allowed Jones to play a number of roles which had previously been associated only with white actors.

Jones has a lot of Jones has a lot of plans. He wants to play Big Daddy in "Cat on a Hot Tin Roof," and he'd like to play Brock in "Born Yesterday." He'll also be playing "Othel-

lo" again this summer. If that weren't enough, James Earl Jones also has several irons in the Jones, who says he fire for television plays
