

STRAP & JONAH,

NOW IN FINE HEALTH,

WILL cover mares this season, which commenced 1st March and will end 1st August, at \$20 the single leap, to be paid down; \$25 the season, and \$35 to insure a mare to be in foal, with 50 cents to the groom in every instance; mares at the distance of 20 miles will be insured at \$30. In every instance where the property of any mare insured, is changed, the insurance money will be claimed. The season money to be paid 15th Jan. next, and the insurance at the same time, or as soon as it is ascertained that the mare is in foal. JONAH will stand at Mr. Andrew Hurst's in Duplin county, and STRAP at my own stable near Tarborough, where every attention will be paid to mares, with pasturage gratis, but not liable for accidents or escapes. Mares left with the horse will be fed as may be requested, at a moderate price, for which pay will be expected when taken away. I expect Strap and Jonah to commence their fall season at their respective stands from 1st of Aug. to end the 10th Oct. (at which time Jonah will return home) mares to be insured at 25 dollars. Should any mare put to Strap or Jonah in the first season, fail to be in foal, she can be privileged to the fall season—and if any mare put to either of my horses should die, another is privileged to be put in her stead within the seasons, or if necessary, and convenient, at any time during the fall.

JONAH is a fine brown bay, 16 hands high, of high form, and as a blood horse, racer and foal getter, equal to any on the continent. Owing to the most of his best stock being in possession of gentlemen who are totally unconnected with the turf, but few of them have been trained. Some of those that have been trained, have proved themselves to be equal to any on the continent, as will appear from letters in my possession, and which can be seen on application.

Jonah was got by the Prince of Wales's justly celebrated Escape who was got by the unequalled Highflyer, his dam by old Squirrel out of an own sister to Sir James Lowther's Babraham. Squirrel was the most esteemed horse of his day both as a racer and a stallion; he was got by the extraordinary old Traveller, who was got by the celebrated old Partner out of an Almanzor mare; Almanzor was brother to Flying Childers. Traveller was one of the most esteemed horses in the kingdom both as a runner and a stallion—S. D. p. 414. Escape is described by the late Doctor Tappin to be one of the best runners and the most beautiful horse in England; he beat Grey Diomed (the best son of the late old Sorrel Diomed) in the year 1790, over the Beacon course; (four miles 358 yards) for 500 guineas. In 1791 he beat him again over the Beacon course for 1000 guineas; two days after he beat him again for the 140 guineas. In this year he beat Acton, Glauvis, Gustavis, Highlander, Skylark, Halkin, Meteor, Baff'r, Chanticleer, Harpator and Alderman; whose fame as racers were equal to any in the kingdom—S. D. p. 230, &c. &c. The well known and much celebrated Jockey, Mr. Samuel Chifney, who was for many years a rider for his royal highness the Prince of Wales, Lord Grosvenor, the Duke of Bedford and several noblemen, and whose superior judgment is fairly admitted; Sporting Magazine of 1806, p. 163 and 233, &c. says in his own words, that "Escape was the finest horse he ever straddled." He produced some extraordinary runners. Jonah's dam Laveuder, (the dam of the famous Coriander) by the well known old King Herod, her dam by the old favorite horse Snap, who was a son of Snip by Flying Childers; her dam, Sweet William's dam, by the celebrated old Cade of whom it is said was a horse of the best blood, speed, and bottom ever bred in the kingdom—S. D. p. 102. The celebrated Coriander, half brother to Jonah, was one of the best runners in England—S. D. p. 166, 67 and 8. He ran at the advanced age of 14 years—p. 195, as also Racing Cal. of 1800. He produced some of the best runners in the kingdom, Marcia and Vesta amongst them. This stock is remarkable for their long continuance on the turf; running till 7, 8 and 9 years old. It is likely that Jonah would have continued on the turf equally as long as Coriander but for an accident; after four years severe training and hard running, he came off the turf with the most perfect set of legs. A reference to the Racing Calendars will prove him to have been equal to any if not the best runner in the kingdom till he got injured in 1800; having run with uninterrupted success, never once paying forfeit, beating the best runners in the kingdom at two and four miles till his third year (1800) of running, at which time he sustained an injury in the round or whirlbone; and was fired, leaving a place of the size of the hand, at this time without hair. In this patched up state, he was (imprudently) immediately put on the turf again, and was then occasionally beat by those he had previously beat with ease. Jonah beat the famous Symmetry who beat Gamenut, who beat Dion at York in 1800. Jonah also, in the year 1799 at York, four miles; beat two of Dion's best brothers, by Spadille, together with the celebrated Gamenut who was the hindmost of the four in the race, all four years old, and all on equal terms, having run no race the day before as Jonah did when beat by Dion. Notwithstanding Jonah's (then) late hurt, the day before Dion beat him at York, he (Jonah) at Malton, beat the celebrated Tartar four miles—Reference to the Racing Calendar of 1800. I do however acknowledge Dion's pure racing blood and good performances on the turf; and that he very deservedly was placed amongst the best blood and race horses in England.

The celebrated STRAP is a fine blood bay, 15 hands 1-2 inches high, and as to correct symmetry a better horse, racing performances and foal getter, is equal to any on the continent. He was a winner at every distance, whether his competitors run for speed or bottom, viz. across the Flat, 1 mile and 484 yards, and round about 1 mile 3-4; 2 miles, 2 mile heats, 3 miles, 3 mile heats and 4 miles. He was at three years old a contending horse 8 times, out of which he beat 6 races, and was when a losing horse always found in a good place, leaving as many or more behind than were before him. He was a winner 17 times. Amongst the many celebrated runners he contended against he beat Surprise, the famous Lenox, Dick, Ale, Canterbury, Humming Bird, Little John, Marianne, Primrose, the celebrated Altonzo and many others.

was a winner at every distance, whether his competitors run for speed or bottom, viz. across the Flat, 1 mile and 484 yards, and round about 1 mile 3-4; 2 miles, 2 mile heats, 3 miles, 3 mile heats and 4 miles. He was at three years old a contending horse 8 times, out of which he beat 6 races, and was when a losing horse always found in a good place, leaving as many or more behind than were before him. He was a winner 17 times. Amongst the many celebrated runners he contended against he beat Surprise, the famous Lenox, Dick, Ale, Canterbury, Humming Bird, Little John, Marianne, Primrose, the celebrated Altonzo and many others.

PEDIGREE.
STRAP was got by the justly celebrated Beningbrough, his dam one of the best daughters of the unequalled old Highflyer, who was a horse of great size, (5 feet 4 or 5 inches high) and produced large stock; her dam by the celebrated Tatter, one of the best sons of the famous old Blank who was one of the best sons of Lord Godolphin's Arabian, out of a Childers mare, &c. Tatter's dam by the noted old Partner (the best runner and stallion in the kingdom of his day—S. D. p. 153) out of a daughter of old Snip the son of Flying Childers, &c. Beningbrough was got by the famous King Fergus, who is acknowledged to be one of the largest and best bred sons of Col. O'Kelly's miraculous Eclipse—S. D. p. 225, 53-4, and Racing Calendars, &c.; his dam, Tuting's Polly by Black and All Black, the most famous horse in the kingdom of his day both as a racer and a stallion—p. 141; her dam by old Tartar, who was the sire of King Herod, and was one of the best racers and stallions in England of his day—p. 394; her dam by old Sterling, who it is said ran his first mile in a minute, equal to Flying Childers—S. Mag. of 1806 p. 124. In the Sporting Magazine (of what year and page my recollection does not serve me and have it not by me) King Fergus is portrayed and represented as running over the course without a competitor, for such was his proven and acknowledged racing powers that no racer in the kingdom dared to contend against him. Beningbrough's dam, Zachariah's dam) by the noted old King Herod, who was a horse of great size and produced the largest stock in England; his grandam Pyrrha by old Matchem, who was got by the celebrated old Cade, out of a daughter of old Partner, and was an extraordinary runner and for many years the most favorite stallion in England, S. D. p. 107, and of whom it is said fairly earned more money than any other horse in the kingdom—S. M. &c. Beningbrough's great grandam, Mr. Fenwick's famous Dutchess (Lesang's dam) by White Nose, out of Miss Slamerkin, own sister to Black and All Black, the name of whom is so firmly fixed in the memory of every old sportsman of the present generation, &c.—p. 141. Beningbrough is a horse of great size, was a good racer, and allowed to be one of the finest bred horses in England—Sport. Mag. 1806, p. 215-16, as also Racing Calendars of 1798-99, &c. &c. Strap, his brothers & sisters, are recognized as Beningbrough's best stock, S. Mag. p. 216, &c. They are to be seen engaged at the age of 3 years old only, 20 subscribers, 4 miles, against aged horses, such is their proven speed and hard game—S. M. pages 18, 17 &c. &c. Sir Bertrand, full brother to Strap, and others near in blood to him, are selected and purchased as the best stock, to send to Russia—S. Mag. p. 54. I have seen a letter of recent date from a gentleman in England, four miles from London, saying that "Beningbrough and Sir Peter Teazle, half brother to Strap's dam, cannot be bought at any price." They are now covering at fifty guineas the season; so says my informant, Richard Esq. Portsmouth, Va. who has lately received letters from England on the subject of horses. HENRY COTT, N. Near Tarborough, 1st April, 1810.
Several gentlemen having seen Strap's stock in Virginia, particularly a filly out of the dam of Sir Solomon, which in their judgment, is so far superior to the stock of any other, they have engaged their mares to him this season, &c.

THE IMPORTED HORSE
SIR PETER TEAZLE,
WILL stand the ensuing season in the town of Salisbury, and be let to mares at twenty Dollars the season, which may be discharged by the payment of sixteen dollars on or before the 1st day of January 1811; forty dollars to insure a mare to be in foal, which may be discharged by the payment of 32 dollars on or before the 1st day of Jan. 1811; ten dollars the single leap to be paid when the mare is covered. The insurance money will be demanded in every instance where the property of the mare is changed.
The season will commence the 15th of March and end the 1st of August. Mares can be furnished with good pasturage gratis, and if required fed with grain on very moderate terms.
Sir Peter Teazle is a dark bay, full 16 hands high, and I have no hesitation in saying, that if he is not the most elegant, he certainly has never been surpassed by any horse ever seen in this part of the state. His head, neck and shoulder are of the highest finish and in other respects a horse of superior form. In addition to which, he unites both on the side of his sire and dam the best blood in the world, as will be seen by the annexed extract taken from Taplin's Sporting Dictionary, page 300 and which may also be seen by a reference to the general stud book, page 178.
"Sir Peter Teazle, (his sire) the name of the most celebrated Stallion at present in the kingdom, his blood, performances, and progeny, being reckoned inferior to none, and superior to most of those who have ever appeared on the turf." (Taplin's Sporting Dictionary, page 300.)
In 1794 his colts began to appear, among the number was the afterwards celebrated Hermione who won in that year the enormous sum of Sixteen Hundred and Thirty Guineas and £100 Sterling, besides, better than \$7,000. In 1795 nine winners appeared of Sir Peter's get—in 1796 twelve winners started, among the number Ambrosio (3 years old) won that year 800 guineas and £50 sterling.
In 1797 his reputation as a stallion continued increasing, eleven of his produce obtained 33 stakes, plates, &c.
In this year Petrina (full sister to young Sir

Peter Teazle) won three fifties at Newcastle Knutsford, and Northampton."
In 1798 Petrina, won the gold cup at Chesterfield, and the King's 100 guineas at Lincoln.
His constantly increasing reputation as a stallion produced an annual increase of winners. In 1800 fifteen of his get started, and were winners of thirty nine sweepstakes, subscription, matches and plates." Among the number were Agorites, Knowsley, Robin Red-breast and Fanny, the latter of which won the great sweepstakes of 100 guineas each at York, (22 subscribers) seven she beat, and 14 paid half forfeit, so that she won 1,400 guineas better than 5,600 dollars in less than eight minutes.
"In 1801 & 1802 (says Taplin, page 304) he seems to have attained in his progeny, the very summit of all possible celebrity: during the former there appeared 15 of his produce, who were the winners of 44 sweep-stakes subscriptions and plates, of which the most eminent were Agorites, who won to the amount of 590 guineas; the King's plate value £216-5—and the Ladies' plate at York. Haphazard, Lancaster, Lucan Sir Harry (a horse now in America) and Telegraph (full brother to Sir Peter Teazle and to Petrina) who in that year won 100 guineas and £50 at Newmarket, and 45 guineas at Bibury.
"Thus the united blood of Herod, Blank, Snap and Regulus, are proved equal, if not superior to every other junction or cross ever introduced."
Old Sir Peter Teazle when only nine years of age covered at 15 guineas each mare and 15 shillings sterling to the groom.
Lucy, Sir Peter's dam produced five capital runners, viz. Twig'em, Minos, (afterwards Yorick) Skylark, Telegraph, own brother to Sir Peter, and Petrina, own sister.
Sir Peter Teazle was imported by Col. Tallmadge of Connecticut, whose agent Mr. Butler purchased him in England when very young; (as will appear by a certificate of that gentleman in my possession.)
The subjoined extracts of letters, (the originals of which are in my possession) from gentlemen of the first respectability, will more fully show the high estimation in which this very superior horse is held in the state of Virginia and elsewhere.
Col. Tallmadge's letter to Col. Taylor. (Col. Tallmadge is a respectable member of Congress. Washington, June 8th, 1809.
DEAR SIR,
In compliance with your request, I take the earliest opportunity to assure you, that the brown horse, young Sir Peter Teazle, the true son of that noted English horse Sir Peter Teazle, was imported from Great Britain by me in the year 1797. Since the day of his importation he has been kept at my stable, or has stood for covering mares in my vicinity, until he was brought to this place by my groom, and delivered at your stable. Although his stock have not been trained for the turf, in the country where I usually reside, (Connecticut) yet many of his colts which I have seen, as well as others of which I have been informed appear to have been some of the most promising horses raised in our country. In fact I have every reason to believe that his stock would have been equal to any in our country for running or service, if equal attention had been paid to them.
I am very sincerely and affectionately yours,
BENJ. TALLMADGE.
Col. John Taylor.
Mr. J. Melton's letter to Wm. Woods, Esq. Frederick, May 24th, 1809.
DEAR SIR,
I am happy to tell you that the dam of Cupbear, has produced a horse colt by Sir Peter Teazle, that may be ranked amongst the first that I have ever seen in this state, both for size, figure and points, is color a fine bay. I think it just for the reputation of the horse, that I should make known to you this circumstance. I have seen several of Sir Peter's colts lately, and they are generally very promising.
I am, dear sir, respectfully yours,
J. MELTON.
Mr. Wm Woods.
Extract from a letter of Mr. Robert Carter Barwell to Col. John Taylor.
With "respect to the colt and filly I have, which were gotten by Sir Peter Teazle, I have no hesitation in saying the filly is a very fine one indeed, large, and is thought by every person who has seen her, to be one of the finest, if not the very finest they have seen this year, and I myself am of opinion the colt is by much the handsomest, tho' not so large."
PEDIGREE.
SIR PETER TEAZLE was got by Lord Derby's old Sir Peter Teazle, (unquestionably the best stallion in all England) his dam Lucy by Conducter—Stud Book, page 178; his grandam by Spectator, great grandam by Blank, g g grandam by the Devonshire or Flying Childers, acknowledged to be the fleetest horse ever trained; g g g grandam by True Blue, g g g g grandam by Cyprus Arabian out of the Duke of Rutland's Bony Black—Stud Book, page 344. She "was the best runner of her time; at three years old, she beat a six years old horse at ten stone each, at four years old she won the five years old Hambleton Cup, and again at five years old; at six years old she beat an aged horse giving him three stone—Her owner afterwards challenged to run four times over the Round Course at New Market, against any horse or mare in the kingdom, which challenge not being accepted, she became a brood mare in the Duke of Rutland's stud, and was the great grandam of Mr. Martindale's Gustavis." It is not unworthy of notice that this challenge was given in the time of the celebrated horse Flying Childers.—See Stud Book, page 346.

William H. Williams,
PHYSICIAN AND SURGEON,
RESPECTFULLY informs the citizens of Raleigh, that he has returned to this place, to long tour through several counties in this state with an intention of making it his permanent residence. From his own observations, and from a former visit, and the representations of the did and well informed, he is induced to believe that the city of Raleigh, will afford a residence, and perhaps a decent support, to whose wants are few and whose chief aim is to excel in his profession. He now offers assistance to all those in town and country, may require Medical and Surgical aid. He possesses testimonials of his education and character from gentlemen of the first respectability in New England states, which are free for the inspection of every person.
N. B. Doct Williams has taken a room in Tavern House of Mr. Parish.
Raleigh, March 17th, 1810.

THE teeth have been considered of consequence in the animal economy as to the particular attention of the most eminent dentists. In order to prevent and remove the decay of the teeth, they have made minute investigations and communicated them to the world. Advice is often disregarded, whilst the swelling and flattering language of the Dentist is swallowed. Doubtless there are many who have improved the opportunities that have been afforded to become acquainted with the causes of the teeth, and the means of preventing and removing the same: the number however comparatively small. Many men remarkable for their character, as they are generally of passage, they disregard responsibility of character, and not only make great demands on the services, but often entirely ruin the teeth of those who incautiously yield to their flattering promises. Having witnessed the sequences of their ignorance and imposture, determined to oppose a barrier to their progress equal to my ability. For this purpose I will give advice, gratis, on the prevention and removal of the diseases of the teeth to all who will call at my medical room. As I am present at leisure, I will, at a comparatively small expense, perform all the necessary operations for the preservation of the teeth that are practised by dentists. I do not mean that these proposals considered as interfering with the practice of Medicine and Surgery, nor with the pursuits of my medical brethren.
Wm. H. Williams
Raleigh, March 28, 1810.

NOTICE.
I am happy to inform the public, that the Drawing of the Cape-Fear Lottery, will commence on the 16th of April next. All persons holding Tickets for sale, are requested to return by part or otherwise, so as to receive the place by the time above mentioned. The drawing will be left open during the drawing, for the purpose of giving general satisfaction; and a list of all the prizes will be published when completed.
