SECRETS WOMAN NEVER TELLS

SHE DOESN'T WANT LIBERTY!

WINONA WILCOX.

Some women are born independent, a few achieve independence and many have independence thrust upon them. But no woman dotes on the condition. Every woman would like to throw her burdens on some strong man, forever and forever.

Whether a woman marries and points out some man's path for him; or remains single and becomes a business success and economically independent; or, as a divorcee, holds marriage an intolerable experiment, every woman admits in her heart, that she is really a beggar, mad, and whether lovely or not, that she is very much in need of a certain ruling King Cophetua.

Coquetry, however, prompts even the slightest of women to affect a swaggering show of independence, or of indifference to man. The pretty doll who would starve in a week if left to her own efficiency, makes a charming bluff of her ability to twist a man around her little finger, and the prettier she is and the more helpless the greater delight does her pretense of authority over him delight the man!

The most exasperating nagger is often unfortunately persistent, but not because she actually delights in ruling her mate. She proceeds from a stern sense of her sad and disagreeable but unescapable duty to make an unwilling spouse assume the right way, and the prettier she is and the more helpless the greater delight does her pretense of authority over him delight the man!

And the most capable of women, those who are convinced of the equality of the sexes, those who believe in the comradeship and partnership of man and woman, arrive at a time, if they marry happily, when they are obliged to depend, and when they delight in finding handy the protection and strength of the superior male. But they don't tell him so.

The normal woman wants to be petted and spoiled. The woman who kill this need from their souls, or are deprived of it by fate of intention, have a horrid price to pay.

They misunderstand man, misunderstand him, consider him selfish, brutal, stupid. They lose patience with him, condemn him, despise him.

They forget that man makes up half of the human race, and that when they shut him from their lives, or refuse to regard him even as an interesting volume, then they are liberally closing their intelligence to one-half of the big truths of existence. Thereafter, they will see life only in shadows, out of focus and blurred.

They grow cruel, bitter and narrow. And all of the time they want to be just normal, devoted, old-fashioned subordinate but protected wives and mothers.

"Across the night and through the day,
O'er all the world she followed him."

If woman would frankly own up to her extraordinary need to be made much of, and to be taken care of, it would appear that divorce court records might shrink considerably.

Post This Bodyguard Around Your Children

You Can Keep Them Free from Colds Without Dosing.

These two fine boys have a "Little Bodyguard" to protect them against sudden attacks of croup or cold troubles. Their mother Mrs. C. C. Evinger, 1224 N. 6th St., Terre Haute, Ind., writes:

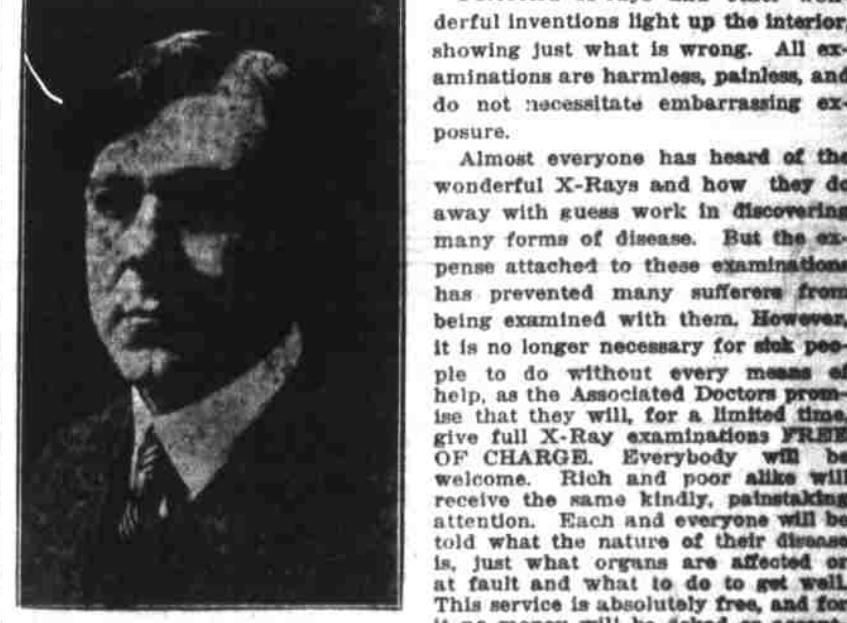

"I have tried your Vick's Vaporub on my two boys (who are nineteen months and three and one-half years old respectively), and have found it very satisfactory when they had the croup. The first application helped to loosen the phlegm, making them rest more easily, and they were able to go to sleep. Vaporub also helped them when they had severe colds. I can recommend it to all mothers."

But the best part about this "Little Bodyguard"—VapoRub, is that it is applied externally and hence can be used freely, with perfect safety, on the smallest child, as often as wished. Three size, 25c, 50c or \$1.00.

Perplexity and Doubt Removed in Many Cases by the X-Ray

Keep From Beneath the Shadow of the Gloomy Hospital or Dreary Sanatorium.

Perfected X-rays and other wonderful inventions light up the interior, showing just what is wrong. All examinations are harmless, painless, and do not necessitate embarrassing exposure.

Almost everyone has heard of the wonderful X-Rays and how they do away with guess work in discovering many forms of disease. But the expense attached to these examinations has prevented many sufferers from being examined with them. However, it is no longer necessary for sick people to do without every means of help, as the Associated Doctors promise that they will, for a limited time, give full X-Ray examinations FREE OF CHARGE. Everybody will be welcome. Rich and poor alike will receive the same kindly, painstaking attention. Each and everyone will be told what the nature of their disease is, just what organs are affected or at fault and what to do to get well. This service is absolutely free, and for it no money will be asked or accepted.

Ed. No sick person in this community should fail to take advantage of this generous offer, as, without a penny to pay, they can ascertain whether their case is curable and whether their present line of treatment is the correct one to effect a cure. Many sick people have been saved years of suffering through the X-Rays, and hundreds have been saved unnecessary expense and loss of time, which might have been wasted upon taking treatment for the wrong disease.

Ella Wheeler Wilcox in The Chicago American, Said:

"Because wonderful operations are performed and lives saved and health restored by the skilled use of the knife, (AND SURGEONS CROWNED WITH WEALTH AND FAME) the desire to operate has become a menace to motherhood and to life itself."
