

ONE MINUTE INTERVIEWS

BY MRS. J. P. CALDWELL  
Office Phone Number 334.

"Doing a Wonderful Work in France," says Lieutenant Beane, former Camp Greene Soldier. Mrs. Jules Allen Beane has received a most interesting letter from her husband, Second Lieutenant Beane, who is in France. Lieutenant Beane was at Camp Greene last winter and left for France with the first group of third division regulars in April. In his letter to his wife, he paid a splendid tribute to the Y. M. C. A. or the "Y," as the soldiers call it. Said he: "The Y workers over here are doing things. They serve hot chocolate, sandwiches, etc., to the soldiers. The Y is doing a wonderful work, and I don't know what we would do without them. They are a God-send to the American boys."

"This is from one who knows. Everywhere we have been the Y always made its appearance. Sometimes under the most difficult circumstances, and many times in the range of the enemy's shell fire. They were right there, serving hot drinks, food, and cigarettes. If any one says anything uncomplimentary about the Y I tell them, for me, that they are crazy."

Teach Ideals of Citizenship to the Children of America.

"That the young should be more thoroughly trained in ideals of citizenship is a fact that the war has already impressed upon the nation," remarked a citizen who is reading between the lines of the future. "We have been a careless nation in training the children in the matter of citizenship. We left that to the Fourth of July orator or to an occasional lecture in the children's room at school. The future is to make it imperative that every child be a patriot; that every child be taught the meaning of the word democracy, and have it impressed upon the importance of being familiar with the facts of his history, and of his national heritage. Teach the child to speak good English; to love his country and to die for his country, if need be, as our glorious soldiers are doing now in the fields of France. We are the inheritors of democracy. Let us live up to the knowledge and blessing of our inheritance."

Mrs. Bickett Visits Miss Young in France.

Mr. A. M. Young has received a letter from his daughter, Miss Willie Young, who is in the "Y" work in France, in which she said: "Have a visit from your mother. Bickett, wife of Governor Bickett. She brought me a box of candy and was just as sweet and lovely as she could be. She was intensely interested in our work, and asked many questions, all of which we were only too glad to answer. She is a fine woman, and her visit over here will help our work very much. The effects of her visit is already apparent. Don't know just when she will be going back to the states, or rather 'back home.' I like that better."

Flags for Soldiers' Graves.

"We are very much disappointed," said a D. A. R. of Guilford, yesterday, "that it was necessary to cancel the meeting of the state conference to have been held in Greensboro in November. An interesting program had been planned, but it may be carried out at some future time when the epidemic has become ancient history."

"Our chapter, in compliance with the suggestion of the state regent, is sending American flags to be placed on the graves of the soldiers who are brought home for burial."

Dr. Ray Dies in Florida.

Many in this city will regret to hear of the death of Dr. William A. Ray, formerly of Fayetteville, but more recently of Jacksonville, Fla. He died October 15, at his home in Jacksonville, of influenza. The remains were taken to Fayetteville for burial. Dr. Ray was a native of Cumberland county and had friends all over North Carolina. He practiced dentistry in Fayetteville. Last February he was married to Miss Belle Tillinghast, of Fayetteville.

Ideal Prospect.

"We shall be better, wiser. When every tyrant falls And every king and kaiser Appears in overalls." —Chicago News.

Josh Billings On Milk.

"A conversation today on the high cost of milk between several housekeepers reminded me somehow or other of Josh Billings' lecture on milk," said a man who was eavesdropping. "Josh, you may remember, was billed to lecture on milk at a college town."

NUXATED IRON

Advertisement for Nuxated Iron, featuring a bottle illustration and text: "Nuxated Iron helps get autointoxication strength and energy into the system and bring rashes to the cheeks of pale, nervous, run-down women," says Dr. James C. Gandy, formerly physician of Bellevue Hospital (Outside) and N. Y. and Westchester County Hospitals. "I prescribe it regularly in cases of depleted energy, weakness and lack of strength and endurance. There is nothing like organic iron. Nuxated Iron—so quickly, so richly, so healthfully, healthy women and strong, vigorous iron men." Satisfaction guaranteed or money refunded.

He had placed before him on the table a pitcher and a glass. As soon as he was introduced he poured milk from the pitcher into the glass, took it up, looked at it and said: "I have read some facts written on milk, but the best thing I ever saw on milk was cream. Then he drank it and went on with his lecture. He did not refer to milk again. The lecture consisted of a lot of funny sayings which held his audience to the end."

Red Cross Chapters Securing Cartons for Christmas Presents for Soldiers Overseas.

"The Red Cross chapters throughout the country are beginning to order cartons for shipping Christmas packages to the soldiers," said a Red Cross worker from another North Carolina city, here for a few hours yesterday. "I note that the Greensboro chapter has ordered 1,700 cartons." Inquiry was made of Miss Edna Hirschinger, of the local chapter, as to whether or not the chapter had ordered cartons yet. "No, not yet," she replied. "I do not know how many we will have to order. An estimate has to be made of the number of men who are on the basis on which the ordering is done—and this would be in the hands of the Red Cross chairman, Mr. C. C. Hook. Only one box, as you noted in the 'One-Minutes,' can be sent to each soldier, and no carton can be issued by the Red Cross except to those who have received a label from the soldier in France authorizing that person to send him a parcel. As many as a dozen persons can be sent to the soldier, and no carton can be issued by the Red Cross except to those who have received a label from the soldier in France authorizing that person to send him a parcel. As many as a dozen persons can be sent to the soldier, and no carton can be issued by the Red Cross except to those who have received a label from the soldier in France authorizing that person to send him a parcel. As many as a dozen persons can be sent to the soldier, and no carton can be issued by the Red Cross except to those who have received a label from the soldier in France authorizing that person to send him a parcel."

Richard L. Young, only son of Mrs. M. L. Ross, has recently been commissioned second lieutenant in the artillery, Camp Zachary Taylor, Louisville, Ky., and assigned to duty at Camp Lewis, Washington.

Off to Camp Lewis.

Richard L. Young, only son of Mrs. M. L. Ross, has recently been commissioned second lieutenant in the artillery, Camp Zachary Taylor, Louisville, Ky., and assigned to duty at Camp Lewis, Washington. Lieutenant Young left Wednesday on his trip across the continent. He was graduated from the University of North Carolina and immediately entered the field artillery officers' training school at Camp Taylor.

Alfred Scates' Nephew of Mrs. Z. V. Taylor, Buried in Greensboro Yesterday.

Mr. and Mrs. Z. V. Taylor, who were called to Greensboro to attend the funeral of their nephew, Alfred M. Scates, probably will return to the city today. Mr. Scates died Tuesday in the Naval hospital in Brooklyn of pneumonia, following influenza. He was 29 years of age, and was the son of Mr. Alfred M. Scates, of Greensboro, by his first marriage. The remains reached Greensboro Wednesday afternoon, the funeral service being conducted yesterday afternoon on the lawn at the Scates home by Mr. C. F. Myers, pastor of the First Presbyterian church, of which church Mr. Scates was a member. Mr. and Mrs. Scates and daughter, Miss Elizabeth Scates, were with him when he died.

To Enter the Army.

Mr. Frank Hutchison left last night for New York city where he will enter Columbia university for a special course of training. Mr. Hutchison has recently passed the examination for the army, but will have to submit to a slight operation before he will be able to enter the college. Mr. Hutchison expects to undergo this operation within a few days.

Office of Camp Greene Brings Women of City Up to Firing Line.

"Dear Mrs. Caldwell: With several hundred of the intelligent men and women of Charlotte straining every nerve, giving hours of their time, day and night, that Charlotte and the county may go 'over the top' in the fourth Liberty loan, is it not time for every really patriotic man and woman to take stock of themselves? My wife informs me that a number of women, young and old, who, because of the epidemic of influenza and the quarantine, have offered their services and automobiles in carrying food and supplies to the homes of stricken families, are now thinking of uniforming themselves with caps, liberty bells, puttees, etc. The cost of the uniforms and outfits will run from \$50 up. Why cannot these women, in-

stead of making a show of themselves, take this money and buy Liberty bonds thus helping the government in two ways: increasing their money and conserving the use of cloth and leather. Why ruin a service, appreciated by every citizen of Charlotte and officer and man at the camp, simply to satisfy vanity? They will make themselves a laughing stock, for when this epidemic is over, they will be in the position of the girl who was told to hang her clothes on a hickory limb and not go near the water. Don't do it, women. Don't spoil the splendid services you have rendered by making a foolish show of yourselves. Take the money and buy Liberty bonds.

"OFFICER, CAMP GREENE." Charlotte, Oct. 17.

Arthur Black First Lieutenant.

Rev. William Black and Mrs. Black have received word that their son, Arthur Black, has been made a first lieutenant.

Lieut. Black is with the Third United States Infantry (regulars). He took his training at Fort Oglethorpe and commissioned second lieutenant he was stationed at Eagle Pass, Tex., where he remained a year. He was transferred to Fort Sam Houston, Texas, and within the last week or so has been made a first lieutenant. Lieutenant Black is the third son of Mr. and Mrs. Black in the service, others being Capt. Fred Leroy Black, and Clarence L. Black, of the bureau of chemistry, in Washington.

Linen for Emergency Beds Badly Needed.

Mrs. Charles E. Platt, who has been chairman of the committee on linens for the emergency beds at the local hospitals, has turned over the chairmanship to Mrs. L. Hoffman, as she was unable to attend to it on account of the illness of Mr. Platt, who is sick at his home on Hawthorne Lane with influenza.

SIX VICTIMS CLAIMED BY "FLU" AT GASTONIA

Gastonia, Oct. 17.—Influenza and pneumonia have claimed six victims here in the 24-hour period ending at 7 o'clock tonight. There is very little change either way in the general situation here. While there are some new cases, many patients also have been down are now up. The physicians of the city are overworked and last night seven of them were in bed.

As Spanish Influenza is an exaggerated form of Grip GROVE'S TASTELESS chill TONIC should be taken in larger doses than if prescribed for ordinary Grip. A good plan is not to wait until you are sick, but PREVENT IT by taking GROVE'S TASTELESS chill TONIC in Time.—Adv Tues & Fri.

GIRLS' MAHOGANY BOOTS, \$6.00

Fine calf with genuine Neolin soles and low rubber heels—a splendid value.

We have the same shoe with leather soles and heels at the same price.

Dies in France.

Thomas P. Vaughn, only child of Mr. and Mrs. James M. Vaughn, of Madison, was killed in action in France, September 12. He was 23 years of age and was among the first of the drafted men to go to Camp Jackson. He was made corporal, and soon thereafter started for France. He had been there eight months when he was killed. The young soldier was a nephew of H. G. Wain of Greensboro, and was known in Charlotte.

Fear, Contributory Cause.

"One thing that is militating against the doctor in handling the epidemic," said a physician yesterday, "is the constant fear of those who are well have of catching the influenza, and the fright suffered by those who have the disease, death in some cases being almost due to fright. The physical resistance so essential in throwing off the germs of the disease is weakened by worry, and worry decreases resistance, leaving the patient in condition to take the disease and be unable to throw it off. Every one should take precaution, but precaution does not mean worry and remembrance that people sneezed and coughed and have felt unwell ever since the world was made."

U. N. C. Military Faculty.

"Was interested to see that the military faculty at the university now number 17," said an alumnus of "Charlotte" yesterday. "The last addition is Lieutenant M. T. McCowen. An army canteen has been opened in the University Inn, another fact of interest."

Remember the Soldiers.

"There are other slogans beside the Liberty bond ones," said one who let ever thinking about the soldiers. Here is one, and this is the way to remember it: "Save your magazines for the soldiers at the camp, so they will have something to read on Sunday." And with this revive the old one, "Do it now." Begin today to make your pile and add to it as many times as you can; as many times as you are thinking of the soldiers over here and the soldiers over there."

Sergt. Guy Empey Says Germany is in Better Shape Now Than She Was at Battle of Somme in 1916.

"We in the tanks are not thinking about an early end of the war. Germany is actually in better shape now than she was in at the battle of the Somme in 1916." Thus says Arthur Guy Empey, sergeant in the American army tank corps. Author of "Over the Top," a veteran of the battle of France.

Purcell's—Women's Garments of Quality—
