Trust Me! Try Dodson's Liver Tone!
Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel when it comes into contact with your bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone.

Here is my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot sallow or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste.

CONFERENCE HAS 'GREATEST DAY IN ITS HISTORY'
 (Continued From Page One.)

publication to succeed themselves and the bishop was requested to appoint Rev. H. M. Blair, editor and W. L. Sherrill, assistant.

The following were admitted on trial in the traveling connection: W. H. Thompson, James Milton Varnes, Walter R. Jenkins, Julius S. Folger, Allen P. Brantley, R. Clement Goforth, Albert L. Lucas, William J. Hackney, James M. Barler, Whiteclaw E. Harris, William E. Baker.

W. H. Willis read the report of the board of managers of the summer school for undergraduates.

This report recommended that the summer school at Trinity college be continued and that the two conferences of North Carolina appropriate sufficient money from year to year to meet the demands of the school. The report was adopted.

Centenary.

"The Centenary Program," said Dr. W. B. Beauchamp, when introducing the centenary, "is the greatest undertaking to which the church has set itself to accomplish.

"This world is not saved by war, but by the Gospel of Jesus Christ and through Him alone."

"Christianity must make the world safe for democracy, for democracy cannot save the world, being itself dependent upon the Gospel of Christ. The truth is that at this stage of the world's history, the church stands face to face with its greatest opportunity. For much of the world must after this war be rebuilt. The world is wide open to us whether we are willing to enter or not. Will Methodism arise to this mighty call of the present opportunity?"

Every conference to date has voted without a dissenting voice to push through the centenary enterprise. The only exception to the accepting of the allotment is with those conferences which have asked for more than the amount assigned them, as was the case of the North Georgia conference, which requested that their portion be increased to \$2,250,000.

R. D. Smart Speaks.

Rev. R. D. Smart, a returned missionary from China, gave a survey of oriental fields. Dr. Smart said that Japan is the progressive people of the orient. Being without room for expansion in her own territory, Japan must seek room elsewhere. For this reason Japan should be Christianized, as well as for her own benefit. "Korea is the sorrowful nation," he said. "Japan's taking this nation over has been a good thing for the people, nevertheless an occasion of sorrow to the patriotic Korean."

Dr. J. A. Baylor, of the board of church extension, discussed the enlarged vision. In 1492," said Dr. Baylor, "Columbus discovered America, but in 1918 Europe discovered America. We Americans in this war have discovered ourselves, our resources, our true spirit of world service and leadership."

Every reference to President Wilson by this and other speakers of the day was greeted by rounds of applause.

Dr. Winton Speaks.

Dr. Winton, of Nashville, Tenn., perhaps the best-informed man in America upon the subject, delivered a great address upon Latin America. He spoke in part as follows:

"The strong and efficient republic of North America and the weaker and less successful republics of Central and South America have been kept apart by many barriers. Now, however, the influences drawing them together are almost as numerous as the obstacles that have kept them separated. It is the business of the churches, in their program of doing good to all men everywhere, to take advantage of and to multiply those unifying influences."

"First of all the Americas have been kept apart by ignorance. The north is even more ignorant of the south than the south is of the north. Our people go to Europe, they study French; they do not study Spanish or go to South America."

"One reason of this is that natural obstacles have been great. The lines of communication have gone more

 Special to The Observer.
