Passage by Senate Recommended by Majority; La-Fellette and Five Democrats Oppose.

WASHINGTON, Aug. 20.-The dministration's bill for funding the allied debts was reported to the senate today by the finance committee with a majority recommedndation for its passage so that the treasury secretary may have broad powers in adjusting the questions at issue. An amendment requiring the funding to be empleted within five years was added by the majority.

The freedom and broad powers with which the majority said the secretary should be endowed, however, was attacked by Senator La-Follette, republican, Wisconsin, and five democratic members of the committee, who declared in a minority statement that this constituted a basis sufficient for rejection of the measure. The secretary, they ontended, has now sufficient authority to negotiate the settlements and they suggested that the obligations of the foreign governmens be held in their present form "until our government shall have sufficiently crystalized its policy to know exactly what use they can best be

The best and most practicable method of handling the question is afforded by the measure, the majority report declared, adding that it was necessary for someone to be authorized to deal promptly with the situation. Assurance was given that the treasury secretary does not intend to accept obligations other than Mrs. McElvey and the man had been south. thorized to deal promptly with the

The minerity report said the foreign obligations accepted should bear the same rate of interest that the American government paid to raise the money loaned, and opposed the exchange of the obligations for those of countries other than the original debtors. The bill, it con-tinued, would permit the secretary to "make any bargain he wants to make," and "become the actual dietator of the disposition of \$11,000,-000,000," with Congress "having ab-

dicated its control.

Police Are Unable to Connect Mrs. McElvey With Spartanburg Robberies.

Special to The Observer.

SPARTANBURG, Aug. 20.-Mrs. H. S. McElvey, the woman arested on suspicion in connection with the recent robberies in Spartanburg has been released on her own recognizance. Her bond was fixed at \$500. but she was permitted to sign her own bond.

It will be remembered that a oung man giving his name as Jack Davis was shot early one morning as Spillane, the world famous authority he was emerging from the residence of Dr. T. T. Moore, in Wales Garden, in Columbia. When challenged by the policeman the man showed fight and was desperately wounded. He asked that his aunt, Mrs. H. S. Mc-Kelvey, be notified, and said she lived terday a telegram from Mr. Spillane on Magnolia street in Spartanburg.

As soon as the woman received the message she left for Columbia. The touring the country for the Philadel

who had been going under the name of H. S. McElvey, the name of the woman's husband, claimed to be secret service man.

There has not been a robbery since Havis was arrested in Columbia Nothing has been found to connec the woman with the crimes. She claims that she did not know that the man was stealing. It was hoped that she would tell of the Tampa, Fla., connections.

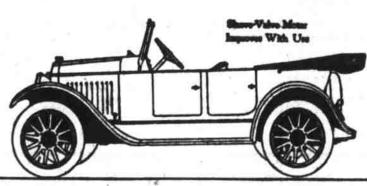

It is evident that that Davis is only a party of a well organized gang of thieves. He would receive telegrams and would at once leave town and soon there would be a robbery re-ported in some other city. He has been known to make shipments from Spartanburg to Tampa to three dif-ferent parties. When he was arrestferent parties. When he was arrested a man giaving the name of Hopkins was notified and came from Tampa to Columbia and employed an attorney and gave Mrs. McElvymoney. Soon after two big robberies here when jewelry and libertybonds, were stolen, Davis made shipment to Tampa and soon afterwards received a Western Union money order for \$450. He received a money order from Tampa everyweek or two.

The woman is a native of Kelton in Union county, but has been living in Florida for the past twenty years The matter has been reported to the Tampa, Fla., police departmen with a request to help locate the men at the Florida end, but the letter to the chief of the Tampa police we never answered.

APIDLY, quietly, the Willys-Knight motor car with the vertical sleevemotor car with the vertical sieeve-valve motor, has slipped into foremost favor in 50,000 homes.

Among its most powerful friends are the political and financial rulers of the world. Their tribute to its quality is paid in spite of its low price.

They buy it because its sleeve-valve motor never causes them to wait for valve-grinding or other repairs—and because a hundred thousand miles finds it at the peak of its power.

No car of its quality approaches its price. No car of its performance approaches its economy.
