less, when the tale is finally told, I believe that it will show that the forces working for good in our national life outweigh the forces working for evil, and that many blunders and shortcomings, with much halting and turning aside from the path, we shall yet in the end prove our faith by our works, and show that our lives are but that righteousness exalted a nation.

Mark Twain Logic. "What a man sees in the human race is merely himself in the deep and honest privacy of his own heart. Byron despised the race because he despised himself. I feel as Byron did and for the same reason."

Secretary Lane's Charge. "I have come to believe that Secretary Franklin K. Lane was about right when he said that 'we are not a serious people except when we are scared.' As a nation, we suddenly wake up to find that it is time to get serious and then we are confronted with that makes us scared. We are too busy to realize what is going on then comes a happening like the Illinois trouble. We realize that we have let too many aliens in, that we are not training our boys and girls to the real meaning of Americanization. We neglect to set up the right standards for youth. We let things go, and then suddenly we get serious because we were scared. Secretary Lane is right: We are not a serious people except when we are scared."

Is It True? "Will they ever let up on us girls?" said an attractive miss of 17 yesterday. "A woman up in New York says that American parents are training their daughters to be home breakers rather than home makers. This woman Mrs. Oliver Hamilton, is a well known resident of the Camp Fire Girls of America. She says the parents are just as foolish as the children in many homes. They teach their daughters to marry rich men whenever the opportunity comes. "The girl of the day is largely a vendor article. The homebreakers are not limited to any class or age of women—the consequence, the enlarged number of divorcees."

Knocked Jailer Senseless With Banjo While Alone—Reward of \$25 Each for Capture. Special to The Observer. MORGANTON, July 1.—Using a banjo as their weapon to overcome Jailer T. S. Bright, six prisoners made their escape from the Burke county jail last night. Mr. Bright is offering a reward of \$25 each. Picking their chance, when Mrs. Bright was known to be away, and they thought the jailer was alone in his work of locking the prisoners in for the night, the six men, who had the liberty of one of the corridors, overcame him as he was putting an old demented man to bed, took his keys and hurried to the outer door. Following them, Mr. Bright attempted again to block their passage and to cry for help, when one of the men seized a banjo and knocked the jailer practically senseless. While not seriously injured he has been wearing bandages on his head today. Police men arrived just a few minutes after the wholesale escape. Five of the men who escaped are from McDowell county, sent here for keeping while the McDowell jail is being repaired. All were serving for periods of more or less minor nature. Their names are Henry Duncan, John Tinsley, Carl Gunter, Carl Morrow, Albert Ledford and Dan Burnett.

OSTEOPATHY REMOVES THE CAUSE OF SICKNESS

All health is the result of a weak body. When the natural operation of organs is hampered after day and night after night, resistance is slowly but steadily diminished. Under such conditions a body slowly succumbs to its ailments. Each period of sickness doubtless requires remedial attention but so often the fundamental cause is permitted to go on unopposed and unattended. The osteopathic physician goes back of the mere illness and locates the physical structure that interferes with natural processes. Once he has corrected this natural operations are resumed and natural law rebuilds and restores the needed strength. This is why osteopathy is known to the multitude who make use of its methods as a system that "treats the cause of sickness" rather than a system that "treats the symptoms." There can be no such condition as "bad health" when such part of the body does its full duty as the manner provided for by Nature. Therefore this natural operation is the osteopathic physician's sole endeavor. This educational series sponsored by THE AMERICAN OSTEOPATHIC ASSOCIATION. Local Osteopathic Physicians: DR. H. E. EARLY COTTON BLOSSOM BROUGHT TO OBSERVER Cotton is beginning to bloom in Mecklenburg county, despite the ravages of the boll weevil, which is said to be threatening the crop at this time. John W. Beatty, a progressive farmer of Berryhill township, route 4, brought a fine cotton bloom into The Observer office Saturday morning. It is a well grown blossom and Mr. Beatty has promise of a good production of the staple if this specimen is typical of what he is growing. This planter got an early start and is among the very first to have blooms on his cotton stalks. He has the reputation of being the first to bring a bale of cotton to town about each year.
