from San Francisco, to be sent to Congress, a memorial in favor of the postal telegraph, as recommended by him, signed by one hundred busi- ness men of that city, embracing a large amount of its wealth. They say that they are very confident the adoption of the telegraph business by the Government will prove a benefit to the entire business com- munity of the country, increasing the facilities of communication be- tween distant points, and thus aid- ing in the development of trade. If the sentiments of business men gen- erally could be brought to bear upon Congress we have no doubt that they would be the same as those express.	The Revelations which have been made in regard to Senator Harlan and the Gredit Mobilier, when taken in counection with Dr. Newman's circular recommending Harlan's re- election on account of his piety, show the necessity of a separation of Church and State.—N. York Herald. The Secretary of the Navy, in his last annual report, sent to Congress a short time ago, says: "The Navy of the United States numbers 178 vessels, carrying 1,378 guns, exclusive of howitzers, 68 steamers, 31 sailing vessels, 51 iron- clads, and 28 tugs." To protect the system against their effects, it must be in- wardly toned, regulated and reinforced, as well as shielded outwardly by apppropriate garments. This essential service is more safely and satisfactorily accomplished by the daily use of Hostetter's Stomach Bit- ters than by any other means within the province of medical science. The fact here stated is as incontrovertible as a de- monstration in mathematics. Nobody dis- putes it. It is a matter of common belief and of general record. Here the case might be rested ; but the public, naturally enough, wants to know why this famous vegetable specific is so far ahead of all other medicines of its class. This reasona- ble curiosity can be readily gratified. The Bitters comprise five important elements, viz : a stimulant, a tonic, an aperient, and a blood depurent.
