

Local Affairs

JOS. P. CALDWELL, Local Editor.

Friday, February 14, 1873.

Post Office Directory. We have been kindly furnished by the post master here with the following statement of the arrivals, opening and departure of the mails at this point:

Table with columns for mail type (Northern, Southern, West), arrival times, and delivery times.

Hours from 9:15 A. M. until 12 M. and from 2 P. M. until 5:30 P. M.

New Advertisements.

The following new advertisements appear this morning for the first time. Wholesale Grocers. Spiced Pig's Feet.

Notice. Subscribers in the city who do not receive their papers regularly are requested to leave word at this office on the occasion of each failure.

Dead. Mr. Rufus Johnston, the young man who accidentally shot himself a short time since near Mount Mourne, died yesterday morning at 6 o'clock.

Appleton's Journal. The last number of this sterling journal contains among its many interesting articles, the following of special interest: "A Prayer to St. Valentine," "A Supper with Rachel," "Reminiscences of Bulwer" and the first chapter of "Bressant," a new novel by Lillian Hawthorne. Published by D. Appleton & Co., N. Y.

The Fair of the Carolinas. A large and intelligent meeting of the friends of this Society, took place at the Court House on yesterday, the 13th inst. The meeting was organized by calling J. P. Alexander to the chair, J. S. Myers and J. P. Caldwell were appointed Secretaries.

Capt. S. B. Alexander then explained the object of the meeting in a few pertinent remarks. After a full interchange of views among the various gentlemen present, regarding the affairs of the Society,

Gen. Rufus Barringer moved that, in order not to lose time, a committee be appointed to make an appeal to those present for subscriptions to the stock of the company. He was glad to know that the difficulties under which the Society had been laboring were gradually disappearing.

The public were awaking to the fact that the officers had acted wisely in the management of the Fair, and began to see that the work undertaken by them was a "labor of love." He saw every occasion for encouragement; was not at all out of patience with those who had censured the managers, and believed they were beginning to see matters as they really were.

Mr. R. I. McDowell looked on this Fair as every important matter. He much regretted the coldness which had been manifested by the farmers toward it. It would go far to stimulate the Agricultural Interests of the country, upon which everything else was dependent. He was anxious to see a spirit of emulation among the farmers, and this Fair would accomplish that. He had followed farming for the past thirty years, and had made no success of it. Any man could do it, if he followed it properly. The Agricultural Interests of Mecklenburg could be made to increase one hundred per cent. if our farmers would take hold of this Fair in the right spirit.

Gen. Barringer's motion to appoint a committee as mentioned above, after being seconded, was put to a vote and carried. The Chair appointed Gen. John A. Young and Messrs. E. C. Grier and J. S. Davidson as such committee, who after fifteen minutes reported that they had raised nearly \$300.

The Chairman remarked that he hoped the young farmers present would take hold and lend a helping hand. The hope of the country lies in the young men and young farmers, particularly, he hoped those present would take upon share each if no more.

Mr. McDowell said there were many present who refused to take stock because they did not know who were to be the new officers. He moved that the meeting, as soon as possible, go into the election of new officers, the old ones having resigned.

Mr. J. S. Davidson agreed with Mr. McDowell.

Gen. Barringer moved the present meeting be merged into a stockholder's meeting, without a change of officers. Carried.

Mr. Davidson moved that the meeting go first into the election of a President, which, being seconded and carried, the Chair announced nominations to be in order.

Mr. McDowell nominated Dr. Columbus Mills of Cabarrus, which nomination was seconded by Dr. C. J. Fox.

Mr. T. B. Myers had but two objections to Dr. Mills; he was not a cotton raiser and he lived rather far away. It had heretofore been complained by some that the officers were all too near Charlotte, and now it might be said by others that they were too far away. He nominated Mr. E. C. Grier, and was seconded by Mr. T. W. Dewey.

Mr. John L. Morehead replied to Mr. Myers' first objection, that he (Myers) was mistaken about Dr. Mills not being a cotton raiser; Mr. Morehead was at that gentleman's place last week, and the Dr. showed him 15 bales of cotton which he had raised on 15 acres.

Mr. J. S. Davidson nominated Gen. W. H. Nell. That gentleman declined to let his name go before the meeting as a candidate.

Gen. Barringer was for Gen. Nell on any one else who would bring strength to the Society, and would go for the man who would bring the most influence with him.

Mr. Constantine Davidson nominated E. McDowell. Several other nominations were made, after which, the Chair put the vote to the house, having appointed Gen. Young and Capt. J. P. Johnston tellers.

There was no election on the first ballot, when Mr. McDowell withdrawing, Dr. Mills was elected on the second ballot.

The meeting next went into the election by ballot of twelve Directors, with the following result:

E. C. Grier, T. W. Dewey, R. B. Hunter, J. H. Orr, J. E. Johnston, S. P. Smith, J. A. Torrance, W. Barringer, J. S. Davidson, J. Gimham, E. H. Moore, J. W. Wadsworth.

On motion, Mr. M. J. Wiston was continued as secretary, with leave to choose an assistant, and Mr. J. C. Burroughs, was selected as treasurer.

The meeting then proceeded to the election of Vice-Presidents, when after the choice of two, it was resolved that the whole question of selecting Vice-Presidents and all other officers and agents, be referred to the Board of Directors. A list of the Vice-Presidents and the agents, to solicit stock, will be published hereafter.

Gen. Barringer introduced the following which was unanimously adopted:

Resolved, That the several officers, Vice-Presidents and Directors, outside of the City of Charlotte, be requested and authorized to organize in their respective neighborhoods, farmers or other industrial clubs, to act and operate in connection with this Society, and that the officers and members of such organizations be entitled to a voice in this association and admitted to its exhibitions and fairs, on such terms as may be mutually agreed upon.

It was then moved and carried that the present meeting adjourn to Saturday the 16th of April, when a full attendance of stockholders and others is requested.

It was requested of the several city papers to publish the proceedings of the meeting, and the meeting proved to be both interesting and harmonious, and it is confidently expected that great success will attend the future operations of the Society.

A meeting of the Directors above chosen, was held at Dr. Mills' place on Tuesday last, at 11 A. M.

Destructive Cyclone. New York, Feb. 11.—A cyclone passed over Aspinwall on Jan. 20th, and caused great destruction.

The storm was so sudden that many vessels in the bay and at the wharves were unable to get to sea and were wrecked.

The steamships generally escaped, but the three-masted schooner, Logia, from Boston, with coal for the Pacific Mail Steamship Company, was driven stern foremost through the company's masts, which it was sailing.

The bark, Odell, of Boston, went ashore at the French wharf and wrecked it as well as herself.

The schooner C. H. Kelley, of Boston, broke adrift and went ashore, but may possibly be gotten off.

The Halifax Schooner, J. W. Halls, fell foul of a French steamer and suffered some damage.

Other sailing vessels were saved principally by the active exertions of the Panama Railroad people.

The damage done the Pacific Mail Wharf, with the whale oil and other produce on it, cannot be less than \$300,000.

Several large boats, which were carried away, and had made no success of it. Any man could do it, if he followed it properly.

The Agricultural Interests of Mecklenburg could be made to increase one hundred per cent. if our farmers would take hold of this Fair in the right spirit.

Gen. Barringer's motion to appoint a committee as mentioned above, after being seconded, was put to a vote and carried.

The Chair appointed Gen. John A. Young and Messrs. E. C. Grier and J. S. Davidson as such committee, who after fifteen minutes reported that they had raised nearly \$300.

The Chairman remarked that he hoped the young farmers present would take hold and lend a helping hand. The hope of the country lies in the young men and young farmers, particularly, he hoped those present would take upon share each if no more.

Mr. McDowell said there were many present who refused to take stock because they did not know who were to be the new officers. He moved that the meeting, as soon as possible, go into the election of new officers, the old ones having resigned.

Mr. J. S. Davidson agreed with Mr. McDowell.

Gen. Barringer moved the present meeting be merged into a stockholder's meeting, without a change of officers. Carried.

Mr. Davidson moved that the meeting go first into the election of a President, which, being seconded and carried, the Chair announced nominations to be in order.

Mr. McDowell nominated Dr. Columbus Mills of Cabarrus, which nomination was seconded by Dr. C. J. Fox.

Mr. T. B. Myers had but two objections to Dr. Mills; he was not a cotton raiser and he lived rather far away. It had heretofore been complained by some that the officers were all too near Charlotte, and now it might be said by others that they were too far away. He nominated Mr. E. C. Grier, and was seconded by Mr. T. W. Dewey.

Mr. John L. Morehead replied to Mr. Myers' first objection, that he (Myers) was mistaken about Dr. Mills not being a cotton raiser; Mr. Morehead was at that gentleman's place last week, and the Dr. showed him 15 bales of cotton which he had raised on 15 acres.

Mr. J. S. Davidson nominated Gen. W. H. Nell. That gentleman declined to let his name go before the meeting as a candidate.

Gen. Barringer was for Gen. Nell on any one else who would bring strength to the Society, and would go for the man who would bring the most influence with him.

Mr. Constantine Davidson nominated E. McDowell. Several other nominations were made, after which, the Chair put the vote to the house, having appointed Gen. Young and Capt. J. P. Johnston tellers.

There was no election on the first ballot, when Mr. McDowell withdrawing, Dr. Mills was elected on the second ballot.

The meeting next went into the election by ballot of twelve Directors, with the following result:

E. C. Grier, T. W. Dewey, R. B. Hunter, J. H. Orr, J. E. Johnston, S. P. Smith, J. A. Torrance, W. Barringer, J. S. Davidson, J. Gimham, E. H. Moore, J. W. Wadsworth.

On motion, Mr. M. J. Wiston was continued as secretary, with leave to choose an assistant, and Mr. J. C. Burroughs, was selected as treasurer.

The meeting then proceeded to the election of Vice-Presidents, when after the choice of two, it was resolved that the whole question of selecting Vice-Presidents and all other officers and agents, be referred to the Board of Directors. A list of the Vice-Presidents and the agents, to solicit stock, will be published hereafter.

Gen. Barringer introduced the following which was unanimously adopted:

Resolved, That the several officers, Vice-Presidents and Directors, outside of the City of Charlotte, be requested and authorized to organize in their respective neighborhoods, farmers or other industrial clubs, to act and operate in connection with this Society, and that the officers and members of such organizations be entitled to a voice in this association and admitted to its exhibitions and fairs, on such terms as may be mutually agreed upon.

It was then moved and carried that the present meeting adjourn to Saturday the 16th of April, when a full attendance of stockholders and others is requested.

A Home for the Poor. The New Orleans Picayune of the 30th ult. says: "The Italian bark Rosina Brown, took from this city a horse, as a present to His Holiness the Pope. It was shipped by some gentlemen, citizens of this place, and the freight from here to New York \$200 in gold. The horse is a very valuable animal, and will doubtless be received as a most acceptable present."

Fatal Boiler Explosion. Haddington, 11th Feb. 10.—The boiler of Yates & Bro.'s agricultural works has exploded, killing both proprietors.

Farmers in Western Texas are employing Mexicans to work for the year.

INTERVIEWING THE MURDERERS.—A New York Sun reporter, who has had a talk with the Warden of the City Prison, thus gossip:

"You would be surprised," said the Warden, "to see the number of people who come here to see Stokes and Foster. It is a surprising fact that a great majority of the people who come to see the women, and they beg and implore to see the condemned men, Foster and Stokes, are not known to me. I could not tell them if I could, and I would not if I could, for we do not keep a monogamous house. It isn't show, as some think. Why, sir, they come from all parts of the country to see Stokes and Foster." His father and brother, Horace, went to see him in the afternoon. The old gentleman's eyes were wet with tears as he went from the cell of his son, and he walked the stone flagging of the courtyard with a slow, unsteady step. Horace seemed glowed of heart.

The Rev. Dr. Tyng and Mrs. Foster visited William Foster yesterday. The clergyman remained nearly an hour. Mrs. Foster stayed with her husband about an hour, and a half. Mrs. Foster went from the Tombs with her father. After her departure the doomed man seemed even sadder than usual. He walked his cell with slow and measured tread, and seemed lost in his own thoughts. Foster has nearly abandoned all hopes of Executive clemency.

GEORGIA PAYING UP.—The lower House of the Georgia Legislature—and there is said to be no doubt that the upper branch will concur—has passed a bill appropriating three hundred and seventy-five thousand dollars to pay off an old private score, with interest, also appropriating six hundred thousand dollars to pay the interest on the State debt. This is the right way for other Southern States to liquidate their indebtedness. If they rely upon Congress, for relief they are likely to be disappointed. Neither Congress nor the people are in a humor to wink at plundering jobs just now. —N. Y. Herald.

A LADY RECOMMENDED FOR A CONSUL.—Mrs. Annie Savery, of this city, has been recommended by all the Iowa delegations, and by the United States Consuls at Paris, France, an audience was held by Gen. Glasgow, an Iowa man. We understand that the recommendations of Mrs. Savery were procured by other parties, anxious to bring to a test the question whether or not a woman might and cannot fill a consulate under the Government as well as a clerk. —Des Moines (Iowa) Register.

A Home for the Poor. The New Orleans Picayune of the 30th ult. says: "The Italian bark Rosina Brown, took from this city a horse, as a present to His Holiness the Pope. It was shipped by some gentlemen, citizens of this place, and the freight from here to New York \$200 in gold. The horse is a very valuable animal, and will doubtless be received as a most acceptable present."

Fatal Boiler Explosion. Haddington, 11th Feb. 10.—The boiler of Yates & Bro.'s agricultural works has exploded, killing both proprietors.

Farmers in Western Texas are employing Mexicans to work for the year.

FINANCIAL & COMMERCIAL.

CHARLOTTE MARKETS.

Cotton Market.

This report is made up by the reporter of the Observer, after consultation with all the leading cotton buyers of the city.

On the 10th inst. the market was dull and tending downward.

A new lot of Chatter Mortgage Blanks for sale at the Observer's Office.

A new lot of Job Blanks just received at the Observer's Office. All work executed with neatness and dispatch. Satisfaction guaranteed.

A Dangerous Atmosphere.

The great atmospheric wave which, the meteorologists tell us, sweeps over the whole United States from the Pacific coast at this season, is loaded with mephitic vapors that chill the body and disturb all its functions.

Perforation has checked, the stomach is deranged, the bowels and the liver sympathize with that organ, the nerves and muscles are affected, pulmonary complaints are engendered, and the spirits are more or less depressed.

These are among the common effects produced by the mephitic winds prevalent in the winter months. But the system is toned and fortified in advance with Hostetter's Stomach Bitters, no danger need be apprehended from any condition of the atmosphere. The "ill wind that blows nobody any good" will not be likely to blow any harm to him who has strengthened and regulated his internal organs with this delicious vegetable and alterative, and clothes his outside in a summer suitable to the season.

The seeds of fever and other diseases of an intermittent or remittent type, are now in the air, and are liable to be planted in the system, to germinate and bring forth their fruit, either immediately or at a later period, unless due sanitary precautions be taken to ward them off.

Of all safeguards, against malaria, this famous vegetable antidote is the best; and of all remedies for the mephitic atmosphere, it is the most reliable and the most agreeable.
