Memorable Days .- The month of April | MR. EDITOR :-Richmond was evacuated, and occupied on the 3d by the Federals, in 1865; on the 6th, the bloody battle of Shilo h, in '62; Island No. 10 surrendered on the 7th, in '62; battle of Pittsburg Landing on the 7th, in '62; surrender of Gen. Lee on the 9th, 1865; Fort Sumter first bombarded on the 12, and surrendered on the 13th, in '61; on the 13th, the war ended, practically, and Lynchburg surrendered on the 13th in '65; on the 14th, President Lincoln was assassinated and Andrew Johnson inaugurated on the 15th, in '65; all North 'Carolina forts and arsenals were occupied by Confederates on the 16th, in '62; President Davis was captured on the 16th, in '65; Virginia seceded on the 17th, in '61; Massachusetts volunteers mobbed in Baltimore on the 19th, in '61; Gosport Navy Yard evacuated and burned by the Federals on the 20th, in '61; Harper's Ferry burned on the 20th, in '61: Lower Mississippi opened on the 24th, in '62; Fort Macon captured on the 26th, Gen. Joe Johnston surrendered and J. Wilkes Booth was shot, on the 28th, Admiral Farragut captured New Orleans, in '62; on the 29th, in '63, occurred the battle of Grand Gulf; on the 30th was fought the battle of Sabine Fork, in '62. Thus we see the greatest events of

The Month of April .- According to the ancient Alban Calendar, when the year consisted of ten months, April was the first, and had thirty-six days. According to the calendar of Romulus, it was the second month, and had thirty days. The twelfth month calendar of Numa gave it the fourth place, with twenty-nine days; but when Julius Casar reformed the year, i was given thirty days, and has so remained till the present time. April is the th wer producing month of showers and sun-shine. Hence the proverb:

the unhappy four years occurred during

this month.

"April showers Make May flowers."

A Curiosity .- For a day or two past there has been on exhibition here a perfeet curiosity. It is a young pigeon, with four perfectly formed legs, the two unnaturai ones being just under the wings. Unfortunately the pigeon was killed by a hen (whose neck has been wrung) immediately after being born, but it has been preserved in alcohol. The curiosity is the property of Mr. John T. Butler, and was born on his premises. It can be seen at New Idea Saloon.

THE "To-DAY."—We had the pleasure of a call yesterday from Mr D. G. Fenno, the agent of "The To-day," a new weekly paper, published in Philadelphia, of which the everywhere-popular and world-renowned Dio Lewis is the editor. We learn from Mr. Feuno that it is the intention of the publishers to employ a number of Southern writers to contribute to the To-Day. In the last issue "Christian Reid" (Miss Fanny Fisher) has a beautiful story. As an inducement to subscribers, the publishers furnish gratis a beautiful chromo, "Just 80 High," which alone is certainly worth the price of subscription.

[For the Observer.] The Ball in Motion

Mr. Editor: In your Friday's issue, I was pleased to read the Communicated piece headed, Dry Ticket, in which, I have no doubt is expressed, the true sentiments of most of the best people of Charlotte. Now as the ball is in motion it may not be amiss to keep it so, and strke whilst the iron is hot. It has well been said that if alcohol were unknown, half the sins, and office, has taken charge of the City List of a large part of the poverty, and unhappiness would disappear from the world, and that it is unnecessary but detrimental to health, is well shown, not only by those He will give the city circulation his close who have visited the Arctic regions, but also by those who live under a burning sun. In the first and second expedition in search of Sir John Franklin, says Dr. King and Dr. Kennedy, they refused to take any one accustomed to Spirits, and we are told by Dr. Carpenter, that the Russian Army on the march, use no spirits. Now if such cold countries exclude spirits may I not ask what is to become of those who live under the heat of a burning sun, and yet make it their daily and almost hourly practice to walk from saloun to saloun in &c. search of the slow, but fatal draught. Me thinks I hear India, Bengal, Bornea, Af-

rica, Demerara, answering my question. Then, my brethren, in the good cause of Temperance, how will you consent to elect men high in office to be your rulers, whose practices, the world detests, men who have no promise except for a short life, and a diseased body. So be wise, and choose sober and temperate men, and don't hunt for the rich, but choose poor business men, who know what it is to be over-burdened with taxation (as we are now) who earn

The Entire Population of the Globe Is in a greater or less degree infected with the taint of Scrofula. It appears in various forms, such as White Swellings, Ulcers, Erysipelas, Swelled Neck, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c. For these as well as all other constitutional diseases, Dr. Tutt's Sarsaparilla and Queen's Delight has proven itself in a thouand instances a positive antidote.

Bilious, Remittent and Intermittent Fevers

Which prevail in the valleys of rivers, and other miasmatic districts through the Summer and Autumn are invariably accompanied by derangements of the Stomach and Liver, and other abdominal viscera. There is always a weakness and irritable state of the stomach, and torpor of the bowels. Dr. Tutt's Liver Pills are peculiarly adapted to such cases.

Collapse of the Nerves.

There is nothing more disheartening than nervous debility. In extreme cases of this class the sufferers do not care whether they live or die. A feeling of hopelessness comes over them, and in some instances where the threatening symptoms are not met by prompt and proper treat-ment, lunacy or idiocy ensues. Yet nervous debility is not a dangerous complaint if wisely dealt with. A medicated stimulant is the remedy needed, and in Hostetter's Stomach Bitters this specific for the complaint is presented in its purest and most potent form. Nervous disease is usually complicated with other ailments. It frequently involves biliousness, constipation, irregularities of the bowels, indigestion, and great mental depression. In the spring of the year, owing to the effect of chilling fogs, searching winds and other unhealthy atmospheric phenomena, upon the external nerves, persons who are subject to nervous affections often suffer acute distress, both of body and mind, from this cause. It is, therefore, advisable for all who are liable to these troubles, and to the other bodily ills above mentioned, which so frequently accompany them, to commence the regular use of Hostetter's Bitters early in the season. The severe nervous and bilious attacks, with which they might otherwise be visited, can by this means be certainly avoided. As a ner vine, gentle aperient and anti-bilious medicine, the Bitters have no equal.

L establishment, has been to make Charlotte a wholesale Mart, and ours THE HOUSE, and to conduct our business so as to outgrow the alleged and even accepted opinion of some that there is a kind of bloquy attached to them for buying in Charlotte; and having, by the very great increase of our business, (since we removed to our new and elegant Store,) been convinced that we have partially succeeded in our cherished plan, we have concluded to endeavor to still further eradicate the erroneous idea, by presenting, this coming season to the Trade, a still Larger and better assorted Stock than eyen we ever offered before, so that Country Merchants will be able to find in our house not only all he needs but a very large stock to select from; thereby being enabled to operate with a much smaller capital than he can by buying in different houses North, where he must necessarily buy more goods than

he actually needs in order to have an assortment. In view of the foregoing, Mr. Rintels left on the 27th January, (much earlier than usual,) "for Northern Markets and Manufacturing places, where he will remain two months in making our purchases, buying everything from first hands on the same terms as any Jobbing House in Baltimore, Philadelphia or New York; and the assortment when thus completed will foot up in amount to upwards of Two

Hundred Thousand Dollars. The expenses attached to carrying on a business here being much less than it would be in Northern Cities and having a lower rate of freight than smaller shippers here, brings the fact patent that, we are in a position to successfully compete with of very fine Mackerel for family use, in any Jobbing House in the United States, wholes, halves and quarter barrels, and
