### POOL AND THE PEOPLE OF CHAPEL HILL.

The proceedings of the meeting at Chapel Hill on the 16th, which were published in the OBSERVER of yesterday, show very clearly what the people of that place think of Rev. (!) Solomon Pool and his abortive attempt to blacken the character of one of the purest and most spotless women in the land. Pool, by his cowardly attack upon Mrs. Spencer, has sunk himself to a depth of infamy which is far worse than death. The detter exhibited a degree of brutative and malice which we were little prepared to expect from one, the prefix to whose name would imply that he is an ambassador of One, who in His day, preached only "peace on earth and good will to

We are glad that the citizens of Chapel Hill have expressed their opin ion of the man and of his letter in such mamistakable language, and have held him up to the gaze and the execration of mankind. If anything was lacking to fill to the brim the cup of Pholis infamy, he has made up the deficiency by his attack on Mrs. Spencer. If mything, which could lower him further in the eyes of the world, has been left unstall by the press of the State, the deficiency has been amply made up by the Chapel Hill resolutions. To these resolu-

Col.W. L. Sanrders, one of the editors of the Wilmington Journal, is now on a visit to Chapel Hill. In a letter to the Journal he nees the following language in regard to Pool and the opinion which is entertained ductor's order, "Go, ahead," two minutes toward him by the citizens of the

"The infamous conduct of Solomon Pool, the wretch whose wanton insult to one of North Carolina's purest and best, as she is one of her most cultivated and intellectual daughters, has brought shame and disgrace upon his church, his State cited much indignation in this community. So far as we have heard there is but one opinion. If any proof were needed of the law abiding character of the people of Orange county, abundant evidence would be found in the fact that Solomon Pool walks the streets of Chapel Hill unof his own conscience, that doubtless are ever saying to him "thou art the vilest of men." The destruction of Atlanta and Columbia by Sherman was scarcely more complete than has been the destruction of Chapel Hill by Solomon Pool, yet a hair of his head has never been harmed by the people who saw him day by day des-troying their property, who saw him day by day taking the bread from the mouths of their children. Sherman's mode of destroying Atlanta and Columbia was sharp, short and decisive. Pool's mode of destroying Chapel Hill was by the slow torture and lingering death that followed his so-called Presidency of the University, an institution upon which the property of the village, in its former prosperity and that of the surrounding country depended, in such great measure."

# THE STATE ELECTION.

Returns from all the counties of the State have not yet been received at the office of the Secretary of State. Indeed, only about one-half of the counties have been heard from officially. These embrace nearly all of the heavy negro counties of the East, and the majority for the amendarents so far, is in the neighborhood of tweity-five thousand.

The amendments are of more importance to the State, than the public generally have appreciated. That one in relation to the State census, will, of itself, save thousands of dollars to the State, to say nothing of the abolition of useless offices which the adoption of the amendments will effect. There is also a hope that means used for keeping up political the University, which, by the adoption of the amendments is put under the control of the Legislature.
