**Marriage Guide.**

This is an interesting work of two hundred and sixty pages, with numerous engravings, and contains valuable information for those who are married or contemplate marriage. Still like a book that ought to be kept under lock and key, and not read carelessly about the house. It contains the experience and advice of a physician whose reputation is worldwide, and should be in the private drawer of every male and female throughout the entire globe. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.
