#### The Key to Health.

It is the easiest thing in the world to lose the blessing of health, but when lost it is not so easy to regain it. The popular idea of flity years ago that a tremendous scouring of the bowels was an essential element of cure in almost all diseases has fortunately for mankind been pretty effectually exploded. The introduction of Hostetter's Stomach Bitters, nearly a quar ter of a century ago, may be said to have given the coup de grace to drastic purgation. The world has learned from the beneficial effects produced by that admirable prepar ation, that one medicine may embrace the three properties of a tonic, a laxative, and cesses of invigoration, purification and regulation may be composed at the same time bythe operation of a single agreeable remedy. There are sound, philosophical reasons for the remarkable improvement which the Bitters occasion in the condition of a deranged and enfeebled system. This pure combination of vegetable juices not only strengthens the stomach, stimulates the appetite and braces the nerves, but also imparts tone and vigor to the secretory organs-as the skin, the liver, and the kidneys; -and if the blood has become too thin and watery to norish the body properly, enriches and vitalizes that "raw ach complaints, and dysenteric and diarrhœic ailments are more or less rife, occa-sional doses of the Bitters will be found the best safeguard against the atmospheric conditions which generate them. An accession of general vigor is necessary to enable the system to resist the morbid influence of the malarious vapors which rise from the earth at this season; and of all the known invigorants, Hostetter's Bitters is the safest and the most potent.
