TAKES on Sight Last and Best combination for *Conveyances, Agents and Salesmen!* HENRY WARD BEECHER's family newspaper gives every subscriber a pair of the largest and finest Olographs—two most attractive subjects, that "take" on sight—painted by Mrs. Anderson, as contrasts and comparisons for her *Agents* have immense success; call it the "best business ever offered canvassers." We furnish the highest and handsomest outfit, and pay very high commissions. Each subscriber receives without delay two beautiful pictures, which are ready for immediate delivery. The paper itself stands peerless among family journals, being so popular that of its class it has the largest circulation in the world! Employs the best literary talent. Edward Eggleston's serial story is just beginning; brief chapters supplied to each subscriber. Mrs. Stone's "Loves" are read and sought to "live and die" begins in the new year. Any one wishing a good salary or an independent business, should send for circulars and terms to J. B. FORD & CO., Agents wanted. New York, Boston, Chicago, Cincinnati or San Francisco.

AMERICAN STAR LEATHER PRESERVATIVE COMPANY.
The attention of the public is requested to the American Star Leather Cleaner and Dresser for Boots, Shoes, Harness and everything in the way of Leather exposed to mud, water or otherwise. It is easily applied; saves time and labor, and is from twenty-five to fifty per cent. cheaper than any other preparation now in use. It renders the Leather soft, pliable, waterproof and of a red. One application cleans oils, blackens and lifts off all foreign matter; then the preparation sinks in, giving it a neat, leathery finish. The first premium was awarded it at the American Institute Fair, New York, 1873, also at the Maryland Institute Fair, Baltimore, 1873. If all alone is used on Leather, the oxygen of the air has an affinity for the same, weakening the fibres, thereby rotting it. Our Article is composed of such ingredients that while retaining all the virtues of the best oils used in refreshing Leather, it is not affected by water, weather or oxygen.
UNIVERSITY OF MARYLAND,
Nov. 20, 1873.
My analysis of the American Star Leather Cleaner and Dresser shows that it is composed of substances well known to be beneficial and preservative in their action on Leather, while it contains no free acid and nothing of any kind that can be in any way injurious.
