Odd Looking Rabbit.-Mr T J Blanchard, who lives near Wright's Ferry, brought into this city yesterday a most curious-looking quadruped, it being a sort of a claybank or butter-milk-brindle rabbit with pink eyes. Mr. Blanchard caught the rabbit last Fall, under a brush heap, after a hard race with eight hounds. It is not yet full grown, and at the time of its capture was not more than half its present size. It is as curious looking a rabbit as you ever saw, with its claybank mane and tail, and its great big cranberry-colored eyes. We saw it at the store of Burwell,

Grier & Co.

Arrested.—One Bill Capps, a character notorious in this community, was brought to Charlotte yesterday evening from Darlington, & C, upon a requisition from the Governor of this State upon the Governor of South Carolina, and lodged in jail. The charge against Capps is having, 4 months age, stole a large quantity of gun-powder, perhaps ten or twelve kegs, from the store Esq, of Caberrus county, six miles from Concord, and near Rocky River, was desof Messrs Grier & Alexander, and having it sold around through the country by his agents. The authorities have been working up the case ever since the robbery took place and their labors have resulted in the arrest of Capps, as the guilty party, The evidence, we understand, is very strong against him. He will be brought before Justices Davidson and Martin at the Court Mouse to-day, for preliminary examinanineteen bales of cotton in the same man-

> A Baltimore Editor's Opinion of Charlette.-We noted the fact, about a week ago, that C. C. Fulton, Esq., editor of the Bultimore American, had stopped one day from a Southern trip. In the American of the 25th-inst., we notice some sketches of the trip from the pen of Mr. Fulton, and in the course of the article the following paragraphs occur concerning our little

private mansions ornament its suburbs.

"Charlotte is a very ancient city, having long since reached its centennial anniversary. Some interesting historical memories are awakened here. The patriots of Mecklenburg county assembled at Charlotte in 1775, and boldly passed a series of resolutions declaring themselves independent of the British Crown, thus anticipating by a year the Declaration of 1776. The British troops occupied the town in 1780, and for a little while it was the headquar ters of the American forces, when General ters of the American forces, when General Greene took command of the Southern army from General Gates after the depart-ure of Cornwallis. In one of the graveyards are the tombstones of the father and mother of President Polk, with many inscriptions dating back more than a hundred years."

The Lecture Last Evening .- A large and highly intellectual audience assembled last evening in the Chapel of the Charlotte Institute for Young Ladies, to hear the address of Col J P Thomas. Col. Thomas was introduced by a neat speech then reaching inside and unfistening the from Rev Dr Chapman, and began his lecsash. Col. Thomas, in his closing re-

marks, made his language to apply to the entire South, pointing out the way for the rebuilding of our waste places and the restoration of our departed prosperity. This, he said was not to be accomplished by useless repinings, but must be by energy industry and frugality. The difficulties which now beset us must be met and grappled with, and in the end we would reap the reward of our labors by again taking our stands among the other States of the Union.

We beg pardon of the lecturer for having attempted above a synepsis of his lecture. Without presenting as clearly as we should, his leading ideas, we have but spoilt the whole of his admirable address, for it was indeed an admirable address. His language throughout was thost beautiful and chaste, and flashes of thrilling eloquence frequently electrified the audience.

Col. Thomas was listened to to the end with rivetted attention, and closed his lecture amid the regrets of many. All of these present, we feel sure, felt that it was good to be there, and will not, in future, miss an opportunity of hearing his words of instruction and eloquence. With these remarks we must be

content to close. To the Citizens of Charlotte and the

Public in General, I now beg leave to inform you that have just returned from New York, and while there have spared no time or labor in selecting one of the finest stecks of Custom-made Clothing for men, boys and youths wear ever brought to this city.
