Fire.

Yesterday morning a short time after 8 o'clock, it was discovered that flames were proceeding from a chimney in the building occupied by the post-office. The fire was occasioned by the burning out of a foul chimney. Some excitement grew out of the fire but no harm was done, and the fire died out without causing any damage.

More Immigrants.

Yesterday morning another party of immigrants for Messrs. Graham & Nash arrived in Charlotte. This makes twenty-one immigrants these gentlemen have brought to this county thus far, and others still are on the way. In addition to those now en route, thirty more have been ordered, and will soon be here. A colony will be ordered soon for a party in Lincoln county. The agents are daily in receipt of letters from all parts of the State from farmers and planters desiring to order laborers through them. The laborers received up to this time embrace the nations of Germany Italy, France, England and Ireland. All of them seem to be well pleased with their new homes, and are working well.

A New Volume of Little's Living Age.

The second number of the volume, dated April 11th, is just out, and has the following varied and valuable articles:—Two chapters on the Reign of Louis XIV, by James Cotter Morrison, Fortnightly Review; The Shield of Achilles, by Rt. Hon. W. E. Gladstone, late Prime-Minister of England, Contemporary Review; Letters from Elizabeth Barrett Browning on Literature and General Topics, part III, Contemporary Review; Chinamen out of China, Pall Mall Gazette; Dr. Johnson's Writings, Cornhill Magazine; Childhood in Japan, All the Year Round; and installments of Disorder in Dreamland, from Blackwood; and of The Story of Valentine and his Brother, besides poetry, miscellany, &c.

The Bill to Provide for Inflation and Free Banking.

The following is the Finance bill as amended and as it now stands before the Senate:

Be it enacted, &c., That the maximum amount of United States notes is hereby fixed at four hundred million dollars.

SECTION 2. That forty-six million in notes for circulation, in addition to such circulation now allowed by law, shall be issued to national banking associations now organized and which may be organized hereafter; and such increased circulation shall be distributed among the several States as provided in section one of the act entitled "An act to provide for the redemption of the three per centum temporary loan certificates, and for an increase of national bank notes," approved July 12, 1870.

Sec. 3. That each national banking association, now organized or hereafter to be organized, shall keep and maintain, as a part of its reserve required by law, one-fourth part of the coin received by it as interest on bonds of the United States deposited as security for circulating notes or Government deposits; and that hereafter only one-fourth of the reserve now prescribed by law for national banking associations shall consist of balances due to association available for the redemption of its circulating notes from associations in cities of redemption, and upon which balances no interest shall be paid.

Sec. 4. That nothing in this act shall be construed to authorize any increase of the principal of the public debt of the United States.

It is more than hinted by those who ought to be well informed, that the President is likely to interpose his veto, if necessary, to save the country from the schemes of the inflationists. The fear of this may, perchance, exert a wholesome influence upon the Senate, and lead to the adoption of measures less injurious than those which have for some time past seemed inevitable. If Gen. Grant has the courage to plant himself squarely in the path of the inflationists, and hold the Republican party to the fulfillment of the pledges made in its platforms, he will win a popularity comparable only to that which he achieved during the late war.—Christian Union.

No Name.

Many, many people suffer from they know not what. They are not sick—they are not well. There is no name for it. It is simply weakness—a breaking down of the vital forces. Whatever its causes (and they are innumerable), its symptoms are in the main the same. Among the most prominent are extreme lassitude, loss of appetite, loss of flesh, and great mental depression. Indigestion and stomachic troubles are also frequently concomitants of this distressing state of body and of mind.—The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunate really want is vigor, vital strength; and as certainly as dawn succeeds darkness they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear that a life-reviving tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived by a new supply of oil. Perfectly pure and innocuous, containing nothing but the most genial vegetable extracts, and combining the three grand elements of a stomachic, an alterative, and a general invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men. No words can do justice to its marvelous properties. It stands pre-eminent among the health restoring preparations of the age, and every year adds to its fame, not only in this country, but throughout the civilized world. From April 23 to 9th.

THE GUANAHANI GUANO

UNADULTERATED AND GENUINE.

THIS IS A GENUINE GUANO WHICH IS TAKEN FROM THE Guanahani Island (one of the Bahama Group) and bids fair to become one of the most popular fertilizers offered for sale. It is put up in sacks in the same condition as when taken from the caves, and no manipulation or grinding is required.

It is recommended by Prof. P. B. WILSON, of Baltimore, who is regarded as one of the best analytical chemists in the country.

Our State Geologist, Prof. W. C. KERR, also, recommends it as entitled to a place among the standard fertilizers of the country. The analysis shows it to be richer in plant food than the great majority of fertilizers, which in connection with the moderate price at which it is sold, are strong inducements for every farmer to use it.
