## LOCAL DOTS.

**Old Pros slipped up on the weather question yesterday.****Notify us, please, to-day, of any change in church services to-morrow.****Those services are to be held at J. A. Young & Son's, the quietest looking specimens in town.****An effort is now being made to build a Roman Catholic Church in Charlotte—E. H. change.****There has been a Roman Catholic Church in Charlotte for years. The members of the congregation here propose to build a new church sometime during the coming summer.****Soldiers, the man who is stopping at the Charlotte Hotel, met up yesterday with a fellow who was too many for him. We believe this is the only instance on record where an incident of this kind, known to the public, has occurred.****Old Baldy.—We learn by private advice that Old Mountain is at his tricks again. It has been rumbling very much of late, and on Wednesday night the shocks were quite severe. From all we learn we are inclined to think that Old Baldy means business after all.****An Old Coin.—Mr Israel Fink of this city has put in possession of a coin owned by himself, which is rather interesting. It is a Spanish quarter of the issue of 1722, and is well known by age. On both its sides are representations of the crown of the King or Queen, surrounded by Spanish characters. It is a coin in which several of our antiquaries have interested themselves. It is not often that an old one is brought to light.****Complimentary.—A subscriber in Lexington writes to us speaking in complimentary terms of the Observer. He says, among other things, that it was in this paper that news of the President's veto of the currency bill was first carried to his town, and that he finds the paper wide awake, newsy, and up-to-the-times. This is the kind of a sheet we try to assure visitors gladness when they pass through our city, in this direction.****The Carolinian—Charlotte—Head of Bellarmine.—The Wilmington Journal of Thursday says: "We are glad to learn that the fire contrives Col. Ames is now engaged in having his house built in Charlotte, and that the building of Boggs's Cut, under the direction of the Company's engineer, is now intended for Lane's Creek, now being frayed at Abbottsburg, by wagon teams. The road may be completed by the time the track reaches that point.****We understand that the President and Board of Directors, at a recent meeting, authorized the road to be pushed forward, every means possible, to an early completion of the line through to Charlotte, and**
