THE PUBLIC

As eternal vigilance is the price of liberty, so is continued vigilance, honest, fair and upright dealing necessary to success in business. Having from the outset (18 years ago), appreciated these facts, and acted upon them, we find ourselves to-day rewarded for the countless anxieties, vexations, and the loss of hours of rest by seeing our long cherished hopes realized, of making Char-

Wholesale Mart, and ours an exclusive

Wholesale House.

In order to be more explicit, we have the pleasure of informing the mercantile world that we have leased the superb store, ad-Messrs. Brem, Brown & Co., as their Dry-Goods Store), which we will occupy by first of September next for the retail trade only, and will use our present elegant and commodious store for an exclusive

WHOLESALEHOUSE

thus giving to the trade a strictly "Whole-sole Establishment," where they can make heir selections from a Stock purchased for hat trade only, thus avoiding coming in contact with a Retail Stock and Retail Buy ers. The advantages of such a House are too obvious to need further comment.

To give the general reader a better conception of the colossal dimensions of our two Houses we state that we will have up-wards of thirty thousand feet of superficial door room; or if a lane of ten feet wide were formed of our stores, it would reach considerably over half a mile. At the same time we inform our numer-ous friends that our Mr. Rintels is now again North buying our second stock this eason, and owing to the decline in goods,

ally compete with all other houses. Very respectfully, WITTKOWSKY & RINTELS. Charlotte, N. C., May 1st, 1874.

The Dust .- The dust on the public square and on the principal business streets, is about an inch and a half to two inches deep. It is as finely powdered by the constant use of the streets by wagons, drays and horses, as the best quality of family flour. Every breath of mind stirs this dust, until sometimes it is almost unbearable.

We felt like asking this Question, "Can Charlotte merchants afford to have this dust driving in among their goods, and through their shelves, when for a slight expense, a street sprinkler might be employed?" Think of it gentlemen. Other cities have street sprinklers. Why not Charlotte? We know a man who will go into it if encouraged. Pat him on the back to the tune of ten cents a day, and see what can be done, [COMMUNICATED.]

For the Observer. MR. EDI OR: My attention has been called in the last few days, to a communication in the OBSERVER of the 17th inst., signed "Pink Eye," desiring information as to whether the party intends to support a nominee of their convention for Coroner, while said nominee is running independent for Sheriff, against the regular nominee of the

Now, for the satisfaction of "Pink Eye," and the rest of mankind, I beg leave to say, that the said nomination for Coroner was made without my knowledge or consent, and it will be remembered that I declined the nomination two years ago, and have been acting in that capacity since, only at the solicitation of the County Commissioners, after the Coroner elect failed to give bond. I have not accepted the nomination for coroner, tendered me by the late county convention.nor will I accept it as I am an Independent candidate for Sheriff; and if the people of my county, whom I have served in an office for eight years without any pay, think that I merit now the office of Sheriff, which does pay, I shall be thankful for their WM. P. LITTLE.

CHARLOTTE, N. C., June 24th, 1874. The Tobacco Leaf.—The next issue of the Tobacco Leaf, J. R. Morris, Managing Editor. published in this office, will contain the business notices entitled "Charlotte and Her Business," copied from the OBSERVER. This issue will be a yery large one, and as the Tobacco Leaf has a very extended circulation, it is a fine medium through which to advertise Advertisements for this extra large edition will be received until Monday next. Extra copies furnished at \$2.50 per hundred. One firm in Danville, Va., has ordered 1,000 copies for distribution. Seve-ral Charlotte merchants have likewise order-ed several hundred each. DASHES HERE AND THERE.

Ice cream and soda water were in demand

Messrs Elias, Cohen & Roessler, invite attention to their new advertisement this morning.

Rumor hath it that a "Sentinel slept on his post," around about the Charlotte Hotel yesterday.

A slight shower cooled old mother earth little yesterday. A few more drops would have been acceptable.

The annual musical schearsal of the Charlotte Institute for Young Ladies will take place at the hall of the Institute this evening at 8 o'clock. All are invited to attend.

The gentlemen who were on the recent excursion to Wilmington, are requested to meet this morning at ten o'clock a m, at the office of Capt J E Mills. Punctual attendance is requested.

A Freedman, with toes out of his shoes,

hat gone to seed, and pants in ragged condition, smoking a twenty-five cent cigar, is one of the phases of city life. We saw one vesterday. We have been somewhat "demoralized" by our Wilmington trip, a pressure of work

and official duties. Just as soon as space will allow we propose to continue our series of articles on "Charlotte and her business." Cutting Affray .- Two 15th Amendments got into a fracas yesterday on the streets and one cut the other rather badly through

his way discussing the problem of "man's inhumanity to man. Returned .- Mr. Badger, the clever representative of the Singer Machine Company, in this city, has just returned to his duties from a recent visit to Petersburg, Va., his old home, whither he has been to attend a "marriage in high life." We expect Mr. B.

to "jump the broomstick" next-Railroad Meeting .- We see by the Statesville American, that a meeting of the Stockholder's of the Atlantic, Tennessee & Ohio Railroad, is called to take place in the Court House of this city, on next Thursday, July 2nd. It is not advertised in any of the 50 a 65 | Charlotte papers, but being an item of general interest, we feel called upon to notice it for the benefit of the public.

A Runaway occurred on the streets abou the public square, this morning, at ten o'clock. A herse which Capt Gross was driving, took fright, and in turning the corner of Trade and Tryon streets, nearly upset the vehicle, and threw Capt G. out on the ground. Bystanders were able to secur the frightened animal, before any serious damage was done. One man's loss is another's gain. Elias, Cohen & Roessler, sold a fine coat to replace one badly torn.

Mr. Alexander Hunter, in the Northern part of this county, has discovered a g ld mine on his premises. At present it promises a very fine yield. He came to the city yesterday morning loaded with specimens and bearing a letter from Prof. Kerr, State Geologist, in which that mineralogist gives it as his opinion that his mine will pay to work it. He proposes in a week or two to commence work, and we shall have something more to say about it.

A Beneficial Change.-The change of schedule time on the CC& A R R, has made a considerable improvement in the travel. over the Atlantic, Tennesse & Ohio Railroad Travelers for the Mountains can now go on as far as Statesville, upon the arrival of the train from the South, and find a pleasant place to lay over for the night at that

The St. Charles, or the Simonton House, will furnish first class accommodations to all who desire to stop over in this pleasant little city for the night.

Personal.-We had the pleasure of a call resterday from Reys. J. S. Nelson and B. B. Culbreth. The latter is the agent of Trinity College, and is soliciting contributions for the completion of the new college buildings which are now being constructed. Trinity College has contributed very much to the educational interests of North Carolina. She has sent forth from her academic halls many graduates who have filled, most worthily, many places of trust and honor, and they have reflected alike honor and credit upon themselves and there alma mater. We trust a bright career is before Trinity.

Dr. J. R. Wilson's Educational Sermon at the Presbyterian Church .-"Let the women keep silence in the churches." Such was the text from which the Rev. J R Wilson, of Columbia' preached on Sunday evening-being the Commencement Sermon to the ladies of the Charlotte Institute for Young Ladies. The eloquent divine eloquently portrayed woman, in commode any community; nor shall any all her different spheres. He entreated her to pay less attention to the the city, suffer any water to remain in his gilded allurements of society and ad- or her cellar, or on their lots, so as to be vised her to acquire that which is stagnant, under a penalty of Five Dollars, and the further penalty of one dollar, for more valuable and upon which true every day such nuisance is suffered to rewomanhood is based. To secure this, main. he spoke of the necessity of having city of Charlotte, or tenant, or persons in schools presided over by those who will inculcate religious principles and teach them the real duties of life, and not the mere accomplishments that fit her for the ball room. He closed by speaking in high terms of commendation of the school we have in our midst. Taken all in all, it was one of the most eloquent as well as practical sermons we ever listened to, and we mentally resolved never to let an opportunity of listening to so graceful and accomplished a speaker pass un-

Carolina Military Institute.—The sermon preached by this estimable gentlemen before Cadets of the Carolina Military Institute on Friday evening deserves more than a passing

Rev. R. H. Griffith's Sermon at the

notice. Although Mr. Griffith accepted the appointment et a late day and had very little opportunity for preparation, yet with a readiness that did him credit, and a disinterestness that marked his Christian character, he discharged his task most acceptably and impressed his hearers with the force, the beauty and the justness of his remarks. As to whether he should or should not speak on short notice, he counted himself nothing when the opportunity presented itself to

preach Christ and him crucified. Taking for his theme: "Am I my brother's Keeper," Mr. Griffith deduced the lesson of individual obligation and showed the yast influence that men exert upon each other's mortal and immortal destinies. He shewed how it is that no man liveth to himself or dieth to himself. The sermon throughout was impressive and illustrated the beauty and the harmony, the force and the sweetness of Gospel truth. And as the dew falls upon earth and flowers, blessing him that gives and them that receive, so did the words of the preacher fall upon the hearts and minds of his attentive auditory. Thus appropriately did the public exercises of the Institute close with the words of eternal life uttered with earnestness from the lips of one whose life is in accord with the truths

that he preaches. Eminently non sectarian, Mr. Griffith's sermon was full of the divine spirit of Christian truth, beauty and purity.

"If there be any virtue, and if there be any praise," well may the Cadets think on the hand with a knife. Dr Miller sewed the things whereof ne spoke. up the wound, and our colored friend went

> County Matters .- The County Commis sioners of Mecklenburg met on Saturday last. Col. Thos. H. Brem was appointed one of the Committee to superintend the building of a new jail. The Committee now stands: Thos. Gluyas, Josiah Asbury and Thos. H. Brem. The cost of the building is not to exceed \$15,000. It was ordered by the Board that the appointment of C Dowd as agent to represent the county in the annual meeting of the A, T & O R R be revoked, and that Dr. M. M. The New Trade Dollar .- As Mr Howes, the candy man, has introduced the trade dollar in our midst so suddenly, perhaps it will be enteresting to our readers to know what its real value is, and what it was coined for. The trade dollar is composed of nine tenths pure silver and one tenth alloy, and weighs three pennyweights more than the old silver dollar. Its value in San Francisco, where it is coined, is three per cent and in Philadelphia seven per cent more than gold, the expressing causing the difference in value. It was destined for the Japanese trade, our government supposing that they could form a banking exchange between the two countries, but in this they ONE GRAND CAPITAL PRIZE \$.5000 were mistaken, for the Japanese take all they can get for their teas and re-issue them as the coin of the realm, therefore causing a great scarcity of it in this country. In Nevada they clip the three per cent off the coin and pass the same as gold, by that means making a neat profit.
