We have, during the past few weeks, reit by the car load. Our position for the sale of ice is an enviable one. We are remote from the North and from steam boat transportation, and we can sell ice cheaper than any other company which may offer to compete with us. Our ice, will cost very little. We can sell at one cent per pound and make a large profit. The Fourth in Charlotte.-No attempt whatever was made to celebrate the Fourth of July in Charlotte by any public demonstration. An excursion train from Columbia the night before had brought about 150 negroes here, and these, added to a large number who came from the county, together with the town darkeys who took holiday, thronged the streets with the sable brethren and sisters, but there was no parade, barbecue, speaking, or anything of the kind. Latterly this race has made a monopoly of the glorious Fourth in the South.

A good many of the gentlemen of the city rested from their labors on this day, and indulged in recreations of different kinds, but there was no general observance of the day, and-well-the Fourth of July sin't what it "used to was," anyhow: 480

Serious Affair .- Quite a serious difficulty, which may probably cause the death of one of the parties, occurred in this city on Sunday afternoon, between two young men, M T Whitlock, who drives the stage of Wadsworth & Davidson, between Charlotte and the head of the Carolina Central Railway, and William Northey, a resident of this place. It appears that Northey, in ceived letters from 25 towns around our city | company with some others, had hired a enquiring about ice and desiring to buy it buggy and horse at the livery stable of J R in quantities large and small. Some want Davidson, for the purpose of taking a ride. Before the buggy was returned an accident happened to it by which it was slightly broken; this fact being communicated to Whitlock, who is an employee at the stable, he set out on horseback to hunt Northey up -He found him near the Fair Grounds, and taking possession of the horse and buggy, drove off with it toward the stable.

In front of the residence of W W Pegram. Esq. on Morehead street, he stopped to arrange something about the buggy and Northey came up, when Whitlock asked him if he was willing to pay anything for breaking the buggy or harness. To this he replied that he was not, when some sharp words passed between the two. These words resulted in Northey drawing a knife and raking it down Whitlock's arm. The latter then ran around the buggy, pursued by his assailant, and during the race stopped to throw a rock at him. This missed its aim, however, when he threw a clod of dirt at Northey, which struck him cerning the operations of the Directors and in the head. This did not stop him, and finally Whitlock picked up another rock and threw it at his pursuer, this time with better aim, for it struck Northey in the head and knocked him down. Whitlock On motion of H W Guion, amended by kicked him twice in the face, and then, rid-W R Cochrane, the time for the election of ing down town, told a policeman of the to ascertain Northey's condition and to relieve him, at the same time announcing his readiness to surrender himself to the authorities if he had committed any crime.

Meanwhile Northey's family had been apprised of his condition and had him removed to his father's residence, where he was waited upon by Dr R H Gibbon, who ascertained that a considerable piece of the skull had been crushed in and was pressing upon the brain. This was removed as far as pos-sible, and all needful attention given the

young man. Whitlock was taken under arrest and confined in jail until yesterday morning, when he was carried before Justice W F Davidson to answer the charge preferred against him. Geo E Wilson, Esq, appeared for the prisoner, and Hon W M Shipp, for the prosecution. The above facts, substantially, were developed, and also a threat made by Whitlock, a short time before the affray, that he would cut Northey's heart out if he found him, or something of that sort. At the conclusion of the evidence (there were six or eight witnesses) arguments were offered by Judge Chipp and Mr Wilson, after which the Court decided to bind the prisoner over to answer at Court. He fixed the bond at \$1,000, and signers being found for this, he was released from custody

The wounded youth was resting measura-bly easy at last accounts, but his physician pronounces his condition critical.

Mayor's Court .- Jim Ingram, colored. was up yesterday morning, at the Mayor's entertainment, for a violent assault upon his wife Laura. He beat her over the head and otherwise maltreated her, according to the testimony, injuring her considerably, and for his unhusbandly conduct, the Mayor fined James \$7.50.

Radicals in Close Communion. The Radical County Convention met in

"Close Communion" at the Third Ward Methodist Church. No spectators were allowed, but we learn that R R Rea was Chair man and Rev Pearsall appointed Secretary, and that a committee of 18 was proposed to confer with a like committee of the bolting Conservatives and make up a mixed ticket of Republicans and Conservatives, and that after very much talk it was adopted with out-croppings of strong sentiments of adhesion to Logan, as Judge. That Logan must be the candidate of the Independent party or combination. That the Judgeship is the one great leading idea of the Republicans, and that all other nominations are to be considered as of secondary importance, and that Logan is not to be given up under any

Right here we will report that the Conservative part of this attempted-to-be-gottenup ticket are equally as strong and determined that Logan shall not be voted for or endorsed by them under "no circumstances"-which, taken together, will make the marriage of the Radicals and the bolting Conservatives a most lovely, "happy family." The sandwiching process, after being finished, would look fine if photographed

and brought out in the illustrated up-in-aballoon paper, the Graphic. As the action of this combination committee is to be a finality, you now may see how we

To the Public.

Having learned that Col John F Hoke, in a discussion with D Schenck, Esq, at Charlotte, on the 21st of May, 1874, made a wanton and slanderous attack on my private character, I addressed him the following letter

WHITE OAK HALL, Polk Co., N. C., May 25th, 1874. COL JOHN F HONE: I am informed that you. in a public address, on the 21st inst., in Charlotte, used the following language to-

"He is a Tennessee refugee, who fled from Tennessee for killing people. I will charge if I go to Polk, that there was rascality perpetrated by Simpson, in that meeting,-I have found out Simpson is a liar, by letters from

Will you advise me at your earliest convenience, whether or not you used the language, and if so, on what authority, and particularly who is the author or authors, of the 'letters from Rutherford," and what these letters state that convinces you that I have been guilty of lying? Very respectfully, JAMES K SIMPSON.

And received the following reply, with his card of May 23rd, enclosed in which he publicly retracted the charge that "I was a refugee from Tennessee for killing people,"

LINCOLNTON, May 28th, 1874. COL JAS K SIMPSON: Yours of the 25th inst, has just been received, and I state in reply, that I did say in my speech in Charlotte, that you were an East Tennessee refugee, and had "fled from that country for killing people," or something to that effect. I did say that there was rescality shown in the Polk county meeting, towards me, and that if I went to Pols, I would so charge it, or words to that effect. I am unable totell the exact language used. I did not say that I had found out that Simpson was a liar by letters from Rutherford, nor did I say anything of the kind, nor allude to letters having been received, nor had I received any letters of that kind. The only allusion to yourself was your refugeeing from Tennessee for crime, and your action in the Polk county meeting. I send you a card, by which you can see how I now stand, and what my sentiments are. Having answered your interogatories, will you inform me who your informant is? . Very respectfully. J. F. HOKE

We, the undersigned, citizens of Polk coun y, have been reliably informed that Col J I Hoke charged in a late speech, that he made in Charlotte, that our fellow-citizen, Col Jas K Simpson, "perpetrated rascality," in the Convention that met in Columbus, on the 2nd day of May, to appoint delegates to the Judicial Convention of this District. We, having participated in that Convention, feel that it is our duty to state, in justice to ourselves, and to Col Simpson, that the charge is without foundation and untrue. The vote given in the Convention is sufficient to convince any unprefudiced man, that The vote given in the Convention is sufficient to convince any unprejudiced man, that there was no necessity for any one to resort to any unfair means to secure the nomination for Mr Schenck; for out of 43 votes, Mr Schenck received 85, and the two other aspirants received 8 between them. Dr Warren, author of the "Household Physician," tells us that dyspepsia is a disease of civilization-that savages know nothing ot it. We do not believe the latter statement. Savages sometimes gorge themselves until they can scarcely move; and as they are human beings, and not anacondas, they must necessarily suffer the pangs of indigestion. Undoubtedly, however, in consequence of their luxurious habits, the civilized and enlightened portion of mankind are most subject to dyspepsia .-This being the case, what are the civilized and enlightened dyspepties going to do about it? What a large proportion of them are doing about it now is simply this: they are taking Hostetter's Stomach Bitters as a remedy with unvarying and complete success. From all parts of the United States, from all the Spanish republics, from the West Indies, from various parts of Europe, and from the antipodes, Australasia, evidences of its unrivalled properties as a specific for casual and chronic indigestion is continually being received. The result is that the consumption of the great tonic and alterative is rapidly increasing throughout the civilized world. The nations, near and remote, as well as our own poople, have discovered that as a preventive and remedy for diseases of the digestive organs, and all ailments of the liver, bowels, nerves and general system, which are generated or agravated by imperfect digestion, it has no qual either among officinal or proprietary
