The minutes were read, amended and ap- proved, and the convention, after prayer by R S C Alexander, adjourned to meet in Lin- colnton on the 2nd Tuesday in August. [COMMUNICATED.] The Charlotte Graded School In publishing the following report, the School Committee would remind the citi- zens of Charlotte that as yet no steps have been taken to secure suitable buildings for the Graded School, as recommended by Mr Boone; and unless such steps are speedily taken, the School cannot be re-opened with any prospect of success as expected. The Committee have no author- ity to apply more than a fractional part of the school funds to building or furnishing	our community. In concluding this report, allow me to suggest an early arrangement for a re-opening of the second session. The interest of the school demands that opening to be in better buildings, unless there can be such built or procured, or a near prospect for them at the time of opening the school, will fall much below the stand it ought to take. I suggest to the Committee that the most de- sired end now to be gained is, to so connect the Graded School with the other schools of the town, as to secure an entire cooperation, and form an unbroken connection, by mak- ing the Military Institute and the Female College, to supply the high school depart- ments of the Graded School. This might be done it we could get the College, the Faculty of C M. Institute, and a number of the prominent, representative citizens, and discuss the matter, and appoint a committee from the several parties, to report a plan as to whether it would be better to connect the Graded School and the High School De- partment for girls, is a question of delicacy to decide. If after such a conference it is decided to erect new buildings for the Grad- ed School an important end will be gained.

The session commenced on the 28th day of October, 1873, and closed the 19th day of June, 1874. During the session, there were over 300 pupils in the school, but we followed the plan of promptly drop- ping the names of those who left; so that we never had at any time more than 273 on our roll. The enrollment was kept by months, and the following will show the numbers: Nov., 179. Mar., 273.	In case of the erection of new buildings I would suggest that it be done by a joint stock company, allowing the stockholders to elect a board of trustees to hold the right to the property and to co-operate with the school committee. This will guard the building against the threatening "Civil Rights Bill," which would take possession of all school property belonging to the public schools. This whole matter can now be considered without any reference to me, as I have no further connection with the enter- prise. It is best that it should be so. Let
