EXPLANATION OF THE

Scheme And

IN THIS VERY POPULAR SCHEME, purchasers choose their own numbers, and they are decided by the drawn ballots of any Combination Lottery. All drawn numbers are equal in the Supplementary, no difference in what order they come.

Purchasers can select a 4 Number ticket,

Also, a 2 number ticket

Also, a single number ticket.

Choose their own numbers, and at whatever price they see proper to pay for their tickets. The Prizes are paid accordingly. To elucidate the matter—supporting a 12 ballot number in the Combination Lottery is to be drawn—any person can go to a vendor's office and select for example, a four number ticket at one dollar, in any class choosing h is own numbers, and the vendor will enter the same numbers upon the Manager's Register—and purchasers will be careful to see them entered upon the Register, as the Managers are responsible for that only. If, after the drawing takes piace, the purchaser's four numbers are drawn in that class (no difference in what order they may have come,) he would receive for his one dollar, \$200,—if three of the numbers only were drawn, \$15.

If he purchase a three number ticket, say at one dollar, in the same ballot, and the three numbers should be drawn out, he would receive \$120. If two of the numbers only were drawn he would receive \$2. If he purchase a two number ticket, say for one dollar, and the two numbers should be drawn, he would receive \$18. If he purchase a single number ticket, and the number of the number ticket, and the number be drawn he would receive \$18. If he purchase a single number ticket, and the number be drawn he would receive \$16. If he purchase

ANNOUNCEMENT.

The many friends of Wm. P. Little, anounce him as a candidate for Sheriff of Mecklenburg county, subject only to the vote of the people, at the election in August next. And if elected, he will not ask for any relief from the County Commissioners on account of delinquent tax payers. May 24th, 1874.

May 15. ANNOUNCEMENT.

I announce myself an independent farmers' candidate for Congress, from the Sixth Congressional District, knowing no party and acknowledging no affiliation with any E. C. DAVIDSON.

Nervous Diseases. The nervous system exercises a powerful influence over the digestion, secretion, nutri-tion, absorption, and the circulation of the blood, and its purpose see as to be to bind to-gether the machinery of the body, and to combine and harmonize the action of its sev-eral parts. Disease of the nerves are more numerous and afflictive now than at any former period-a result due to the luxurious habits of the age, and to the excitement which the struggle for wealth and position kindles and inflames. Almost every individual one meets in society, of either sex, is troubled with some nervous affection or other. Among the various medicinal agents recommended by the profession or recognized by the general public as nerviness, Hostetter's Stomach Bitters occupies the foremost place. Physicians of eminence concede to it very extraordinary tonic properties. and its popularity as an invigorant with all classes of the community is indicated by a demand for the article which has distanced competition, and is still continually increasing. Men of business, politicians, authors, lawyers, inventors, speculators—in short, all who are engaged in exciting pursuits, will find this healthful alterative and restorative the most restful cordial for the brain and the overtasked nervous system that the combined resources of botany and chemistry have yet given to the world. It is agreeable to the taste, promotes digestion, regulates the liver and the bowels, depurates the blood, and is the most helpful elixir in cases of severe mental despondency that ever cheered the depressed spirits of man or wo-

to all outside appearances. A drunken man hasn't been seen on the streets in a month of Sundays, and fights are of rare occurrence. There's a good deal of cussin' going on, but this will subside after the election, and then we'll claim for Charlotte the premium for good behavior

Our European Letter On the inside of the Ossesver this morning will be found another letter from the facile pen of our young fellow-townsman, F B McDowell. Esq. who is now travelling in Europe This is Mr McDowell's second letter to this paper since he crossed the waters, the first having been written from London and pub-lished in our issue of July 3rd. In a private note to us he says he "has had a jolly time and a varied experience."

Should be Attended to,-We call the attention of the authorities of the North Carolina Railroad, to the stagnant water which has been allowed to collect in Beattie's Ford Mail arrives Mondays and the side ditches of the railroad, from the in-saves Tuesdays. to the old Rock Island factory. The water has become green with age, and should by all means be drained off at once. Stagnant pools are a prominent agent in producing sickness, and that one should be allowed to stand until the water has actually turned from green to black, is a sin against the community. Even if they produced no sickness, they certainly do breed mosquitoes, and if they did nothing morn, this would be sufficient cause for having the nuisance absted. We refer to this matter now, and hope that the justice of our complaint will be seen at once, and that we shall not have Cash must accompany all orders.

Lost in the Street.-There are few things more terrible to a child than being lost from its parents in the streets at night, and no one who ever experienced this feeling when a child will be likely to forget it even when old. A mistortune of this kind overtook a little colored boy in this city about 11 o'clock on Thursday night; and as he wandered along, sobbing most piteously, he was met by a handsome and welldressed young friend of ours, who, with commendable sympathy, stopped him and inquired the cause of his crying, The little fellow related, between sobs, how he had come up town after supper, and, in a crowd, had gotten separated from those who had him in charge; how he didn't know what to do, as he was afraid to go home, and con-

This one question cast a gloom over the young man's feelings and all sympathy left him as quickly as he left the boy.

Making Improvement .- The store occupied by McMurray & Davis, on Trade street, undergoing considerable improvement The upper story was, until recently, divided into half a dozen or more rooms; but the partitions have all been taken down, making one large room, which will be used as a wholesale department. Their business has increased so rapidly that it was found ne cessary to have additional room. The partitions being taken down makes the upper room the same size as the lower-120x 33 feet. Beside this the front of the house will be changed by the ungainly corners being taken down and a parapet wall being

Our Candidate for Coroner .- We learned yesterday that four townships in the upper part of this county and two in South Iredell have already declared unanimously for McConnell, our candidate for Coroner He has not made a single speech during the campaign, but his card has been read in eyery corner of Mecklenburg and Iredell, and that is what has done the work. It is such cards as that one that stir the people up to action and convince them of the danger which threatens their liberties if independent candidates, or men who do not hold to the principles of the elder Adams and the immortal Jefferson, are countenanced, in

Mr. Schenck .- We have information that our candidate for Judge has spoken four times in Lincoln county this week, and that his speeches have had a splendid effect thirty-two column paper, the matter in arousing the friends of the cause and causing the enemy to quake. Indeed reports from every part of the west are most cheering, and point with certainty to the triumphant election of Schenck and Montgomery. The following are some of Mr

Schenck's appointments : Mount Pleasant, Cabarrus county, July 29 Beaver Dam, Gaston Beattie's Ford, Lincoln

A Close Guess .-- A merchant of this city had a pile of calico remnants in his store not long ago, none of the pieces measuring more than six yards or less than one. A country merchant came in and proposed to buy them. The merchant offered them at 8 cents per yard. The other declined to give

it. The merchant then offered the lot for \$35. The other told him he would give him \$30, and the bargain was made. The country merchant took the lot home, measured it, and found that he had made just half a yard of calico by giving \$30 for the pile instead of eight cents per yard, thus saving for himself four cents.

The Barbecue Yesterday.-We understand that there were about 500 negroes at the barbecue which was given at Huntersville yesterday, and that the rapidity with which the provisions disappeared was a caution. The speakers, we understand, were A B Lawrence, Burwell Johnston, Manuel Lord and Ned Davis, all colored. Whether or not any white men were present we did not learn. The colored band from this city was present, and everybody had a good time, notwithstanding the fact the rations were rather short and were all swept away by the first attack made upon them.

Another Handsome Building Soon to Go Up.-We are glad to learn that 8 P Smith, Esq, will soon begin the crection of a large and elegant business house on Trade street, between Brem, Brown & Co's hardware store and the Merchants and Farmers' National Bank. The house will be 130 x 33 feet, three stories high, with a solid iron front. The contract for the brick work has been given to P M Murray, and for the wood as well as those more advanced. Lessons gives the respective purple. work to F W Ahrens. This elegant building will take the place of a very unsightly wooden house, and will consequently be a great-improvement. Work will begin ere long.

To Locate Here .- We are glad to state that Mr Geo Welch, the architect of the Charlotte Opera House, will locate in this city. He is a tasty and most skillful architect, and will be a valuable acquisition to the place. The contract for the new jail has been given Mr Welch, and he will find no lack of work here once he is settled in our midst. His present residence is New York City, whither he goes to-morrow evening for the purpose of bringing his family to Charlotte. Mr Welch is an Englishman by birth and education, and has not been in America a great while.
