ONE STEP TOWARDS REFORM.

The telegraph has informed us that at a Cabinet meeting which was held a short time ago, it was resolved that the time had come when the Republi can party must "unload." The political crimes, iniquities and corruption of the Radical party have risen mountain high, and they are at last arous ing a spirit of just indignation, which we trust will sweep like a tidal wave over the country. Since last October, when Governor Allen was elevated to will fit my back. My valise was the Gubernatoral chair of the great State of Ohio, wherever the people voice against the policy of the Radical party. In a few isolated instances the Radical party, owing to the personal popularity of their leaders, have been able to hold their own, but wherever the vital issues have been discussed the fanatics, and fire eaters of that party have been compelled to give away before the first indignation of the American voters.

It is stated that President Grant, and Cabinet recently resolved that there must be a change of policy in regard to the character of the men who hold Federal offices at the South. As mailing, common enough in Europe, long as the policy of the Federal Goy had made its appearance in America, of the South, no man with proper appointment, and to supply the defi- hear that he is absolutely crazed and pet-baggers were imported. by hearing within the last few days that Dr. J. J. Mott, had recently appointed C. L. Summers, James C. Anderson and H. X. Dwire, to posiment. These gentlemen are avowed Conservatives, and it is understood that they have made no change to politics. They will discharge whatever duties may fall to their lot with honesty and fidelity, and Dr. Mott, whom we have always liked as a gentleman and a good officer, has shown good judgment in the selection of such men as these to fill any subordinate

If Dr. Mottt, or any other Revenue officer, will cut loose from such characters as have, for the past few years, been following in their wake, and select just such men as these we have mentioned above, to do the work assigned them they will find a hearty support from all the good men in the country. Every man, with two ounces of brains, knows that the Revenue Collector is not to blame for the Revenue laws, (except that they and we all agree if the Revenue Laws must be enforced it were better to have it done by good men. If we are left to our news from Washington, for information on this subject, we judge that this is exactly the point the President has reached, and we take Dr. Mott's recent appointments, as a part of the programme agreed upon by the President.

While we are thankful that a returning sense of reason once more fills the breasts of our head officials, we are not willing to accord them any very great measure of credit for their action. They are merely obeying the behests of the people, after having persued a different course just as long as it was prudent policy to do so .read the hand writing on the wall, and he is not slow to take warning. WELL DONE, GEORGIA!

Our Georgia exchanges are jubilant over the result of the recent State All the rousters which wer accessible have been brought out, and others have been ordered from the type foundaries.

The election was for members of the State Legislature only. The Conservatives have elected a majority of two hundred and five on joint ballot, and have carried every county in the State but one. Georgia was the first South ern State to throw off the yoke of Radical carpet-baggery, and if we may judge by the election held last Thursday, she has no idea of again surrendering her rights or interests duto their hands. From Prof W G Simmons, Wake Forest College, Worth Carolina. WARE FOREST COLLEGE, N.C. October 4, 1873. Mr C P Knight-Dear Sir: We have for several months been using your Bradley Patent Enamel Paint on our College Building, and are well pleased with it Though if was applied by one having no experience in such work, yet we have a good job. have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S McGill, M Diend ont as beinger to a Mr. C. P. Knight—Sir.: The paint came safe to hand as ordered, 2 kegs, 5 gallons each and 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks (not constant) work, completed the house, two coats the last coat I applied thick, and it is now generally conceded, that, for "ename!," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation—which is an item just now with the "Southern people." It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials." but I feel so forcibly the creat adoptability of your "Enamet Paint" to as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellency of material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you to make what use you think proper of this letter.
