THE SHREVEPORT ARRESTS.

down to pauperism.

The Boston Herald has a very just independence, which was finally and article, under the head of "The Bloody formerly recognized seven years later Shirt," on the subject of these Shreve- at Yorktown, Va. port arrests. It states the case thus:

the most prominent citizens of Shreve-port, La., have been arrested, asserts a conspiracy to intimidate and control numerous qualified voters in said disof employment by threatening to refuse to renew the contracts with said voters for labor, in violation of a stat-ute of the United States."

And upon this the Herald says: heard about murder, massacre, and in- tives. timidation reigning supreme, is there nothing to arrest men for but refusing to renew contracts with negroes if they the offense sworn to in the affidavit upon which ninety prominent citizens of Shreveport are arrested is not one shaking of the bloody shirt upon every northern platform as a warning tom-house officer of this city has been through the navy yard and warned the workmen that they must throw their votes for certain candidates. That is even a worse offense than is charged against the citizens of Shreveport, but there are no troops sent to Massachusetts to occupy the custom-house and secure the arrest of William, A. Simmons and his wire-pulling subordin-

Exactly. The Herald pursues the discussion by referring to the custom of the Federal Executive of employing workmen in the payy-yards with the view of using them as voters-niways increasing their number about election time, and never employing them with reference to capacity or skill; filling the navy words with imcompe-tent persons to be voted at the polls. The officers of the navy companie of it bitterly.

So, too, our contemporary of Boston might have mentioned the well-known custom of large manufacturing companies at the North of contpelling their operatives to vote their fayorite ticket upon the pain of discharge from employment in case of failure. But that which finds teleration in the North must in the South be punished with fine and imprisonment. The Govern ment must hector over the Southern people while Northern manufacturers go unscathed, and even the Federal Government deals in party politics and bribes men to vote the ticket by giving them employment.

We, Coservatives of North Carolina, who have Lecome habitually used to seeing political favorites rewarded for their political infamy; we who have seen the whole power and patronage of the Federal Government made subbates; we who have paid the taxes to the New York Tribung says: The Legislature of North Carolina; we who ional canvass in Western Pennsylva-have suffered under the evils of a Rad-nia, which is so politically distinct cal constitution, made by men who from the eastern portion of the State drove the colored voters into the sup- as to be practically regarded as a State And all other port of their men and measures, like by itself in the present contest. Well may the Herald exclaim, after giving a detailed account of the polit- Au extraordinary account has ap-

How long can you rob the South of its night of local self-government without conductors, only one being erected for every six arpents, or 750 acres, and the supremiser of federal bayonets in the stock of Groceries and Provisions in the sto workeles? If the freemen of the North knew new their votes were made to contribute to the rascality and corruption of unprincipled adventurers—if they knew that they were bailding up a central power that will be source.

To-day the New Fair of the Carolinas commences, and at this writing there is every prospect that it will be the grandest success which any Fair has ever attained in Charlotte. THE ELECTIONS TO DAY.

Twenty-four States and three terriries hold elections to-day, at which eleven governors, seventeen State legis latures, two hundred and twelve Congressness and times tearitorial delegates are to be chosen. The legislatures to be elected will choose thirteen Senators of the United States. Arkansas, Florida, Georgia, Kentucky, Maryland, Rhode Island, Texas, Virginia and Wisconsin elect only Congressmen. The eleven States that elect gov. ernors besides other State officers, and Congréssaren are: Demware, Alabama, Kansas, Massachusetts, Michigan, Missouri, South Carolina, Nevada, confined in the Taylorsville jail. The New Jersey, New York and Tennessec. The territories in which elections will be held for delegates are Arizona, Idaho and Wasnington. Besides these, Illinois, Minnesota. Pennsylvania and Louisiana elect minor State officers and Congressmen. All these elections occur to-day, except that of Louisiana which took place yesterday, and which was probably another satire on popular elections and republican institutions. To-day's shower of ballots will complete the list of representatives for the Forty fourth Congress, except 17, which are to come from Connecticut, Mississippi, New Hampshire and Califormia. When we consider the momentous interests to be decided at the polls to-day, well may we await with anxiety the returns that the trembling wires will bring to-merow morning.

From Prof W G Simmons, Wake Forest College, North Carolina. WAKE FOREST COLLEGE, N.C. October 4, 1873. Mr OP Knight-Dear Sir: We have for several months been using your Bradley Patent Enamel Paint on our College Building, and are well pleased with it Though it was applied by one having no experience in such work, yet we have a good job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market.

Wilmington, N.C., Dec. 26, 1873.
We desire to call especial attention to the advertisement of Bradley's Patent Enamel
Paint.' We can recommend it from a knowledge of its ments. Some of the employees of this office having purchased some of this paint from Mr. C. P Knight, of Baltimore have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience

THE PLAINS, FACULES CO. V.S. Feb. 6, 1873.

Mr C P Knight—Sir: The paint came safe to hand as ordered, 2 kegs, 5 gallons each, and 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks (not constant) work, completed the house, two coats; the last coat I applied thick, and it is now generally conceded, that, for "enamel," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item instrument of the place. tion—which is an item just now with the 'Southern people' It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellency of material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is "desirable to you) to make what use you think proper of this letter. Very respectfully and truly, S McGILL, M D,
