

CHAS R. JONES, Editor & Proprietor. TRACE ASSESSMEN

Wednesday, November 11, 1874.

"Free from the doting scruples that tetter our free-born reason."

SOME OF THE RESULTS

because of party success beyond our of radicalism and centralization to ments above made. most sanguine hopes, and our rejoic- stand upon, The principles under To sum up the advantages offered ings in some sense, might be on ac- which the new democracy have ral- by this plan, when it shall have been count of a party victory, but there are lied, and under whose banner they put fully in motion, we will state that reasons higher, deeper, beyond any- invite every honest man who loves it is our belief that the profits on the thing of that kind, why we have felt his country to come, not as strangers cotton crop each year, and experience called upon to rejoice.

mercial, as well as material chaos. to first principles. Only a few weeks since the telegraph mills were running only on half time. The same state of affairs exist among employment. In fact, everything mocracy: that in any way depends upon a ical party, in domineering over the South, has been such as in many instances to entirely fetter the energies of the people. Loaded down with debts contracted under our carpet-bagscallawag regime, there has been little effort made by thousands of our best men to accumulate more than a living. Economy may be read in every purchase, and actual parsimony in many. Added to our other troubles, our labor system has been completely demoralized, and the willing laborer of a few years ago, has been transformed into the political machine, to be moved about according to the caprices of his political master, and in most cases directly against the interest and the welfare of the country.

All these, and many others, might be offered as reasons for our recent Democratic successes, and it many be worth while to consider whether the remarkable revolution of last week is likely to produce any change for the better. We are entitled to assume that it will, because the South has at last a most convincing assurance that the people of the Northern, as well as the Western States, have made our cause, their own. Massachusetts for thirty years or more has been the iron clad embodiment of the worst class of Puritanism, but in her election of Gaston, and in her defeat of Butler, she has shown a returning sense of reason, superinduced, because our Southern troubles have been brought home to her in the paralyzation of her trade. Her cause may be made the cause of the reaction in ings of self government, the permanent pacification of the white and black races on the sure and firm basis of mutual interest, and as a certain result of these, an early and speedy recovery of Southern prosperity.

should not now take fresh courage to the happy consumation of the good commenced. The great agricultural interests, the merchants, the manfacturers, and the press, all have an important part to perform They have experience these few years past and falcation or otherwise. knows many things now of which he

GREAT DISCOVERY. Bradley's Patent Enamel Paint,

MADE FROM

Pure White Lead, Linseed Oil and Zinc, and Always Ready for Use. READ THE FOLLOWING TESTIMONIALS:

From Prof W G Simmons, Wake Forest College, North Carolina.

WAKE FOREST COLLEGE, N C, October 4, 1873. Mr C P Knight—Dear Sir: We have for several months been using your Bradley's Patent Enamel Paint on our College Building, and are well pleased with it Though it was applied by one having no experience in such work, yet we have a good job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market. WG SIMMONS.

From Messrs Englehard & Saunders, Editors and Proprietors "Journal."

Wilmington, N.C., Dec. 26, 1873.
We desire to call especial attention to the advertisement of 'Bradley's Petent Enamel Paint.' We can recommend it from a knowledge of its ments. Some of the employees of this office having purchased some of this paint from Mr C P Knight, of Baltimore, have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S McGill, M.D.

THE PLAINS, FAQUIEC CO, Va. Feb. 6, 1873. Mr C P Knight-Sir: The paint came safe to hand as ordered, 2 kegs, 5 gallons each, nd 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks not constant) work, completed the house, two coats; the last coat I applied thick, and it is now generally conceded, that, for "enamel," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operaion-which is an item just now with the 'Southern people.' It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people-in excellency of material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter. Very respectfully and truly, S McGILL, M D,

From R W Rayne, of the Firm of Bartlett & Rayne, 48 Carondelet Street.

New Oblinants, January 29, 1874. C P Knight, Esq-No 93, West Lombard Street Baltimore-Dear Sir: It affords me much pleasure to advise you how well satisfied I am with Bradley's Patent Enamel Paint, having used all I bought of you in painting a large cottage (new) at Ocean Springs, Miss. and having found it to cover and work so admirably, and very far superior to ordinary metal paints, and colors not subject to fade, besides being decidedly cheaper. It is my purpose to send you another order for more very soon Yours respectfully, R W RAYNE.

Always ready for use and easily applied. Sold by the gallon. One gallon covers venty square yards, two coats. Specimens and Price List Furnished Gratis. Liberal inducements to the trade.
