Free from the dotting scrapies that clutter our free-born reason.

OUR MANIFEST DESTINY.

The early completion of the Carolina Central Railway, connecting the city of Charlotte with the city of Wilmington induces us to indulge in a few reflections.

"Heaven helps those who help themselves" is an adage as old as the hills, and it never was truer than at the present.

The early completion of the Carolina Central Railway, connecting the city of Charlotte with the city of Wilmington induces us to indulge in a few reflections.

The farms of Western Carolina teem with wealth and all that has heretofore been lacking to make ours the country, is a just appreciation of our situation, a zealous attention to the building up of our industrial resources, our manufacturing facilities, and either a market at home for our products or means of cheap and rapid transportation to some other market.

The prospective completion of the Carolina Central Railroad, which is destined to become one of our main arteries of trade and travel, will supply in a measure a very great necessity, that of enabling the produce of Western North Carolina to find its way to the markets of the world, through one of our own seaports.

Each year we pay these cities thousands of dollars to handle our productions. Charlotte is now the commercial center of a vast stretch of country, and when the connecting rail shall have been laid, that unites her common destiny with that of Wilmington, we may look forward to a saving of the tariffs which have so long enriched our neighbors.

Wilmington should become the entering port for our importing merchants. There is no good reason why we should not buy our coffees, sugars, molasses, etc., in Cuba or New Orleans, and land them at the depot in Charlotte, with the simple payment of prime cost, government tariffs and through freights.

In one sense of the word, the completion of the Carolina Central will make us the commercial rival of Wilmington, but we hope and trust that it will only be that generous rivalry which every man expects to experience in business.

We are proud of our sister city by the sea. We have sailed down her bay, and have enjoyed the health-giving breezes that come across the outstretched Atlantic, waiting the perfumes of the tropics over the soil of our native State.

The extension of the Chesapeake and Ohio railroad connections to the Louisville, Cincinnati, and Chicago will also be an important measure for the advancement of her interests.

We are proud of our sister city by the sea. We have sailed down her bay, and have enjoyed the health-giving breezes that come across the outstretched Atlantic, waiting the perfumes of the tropics over the soil of our native State.

It never before, on the completion of the Carolina Central, the merchants and business men should encourage business relations. Several hundred copies of the Wilmington papers ought to be taken by our Charlotte people, and the business men of Charlotte, ever noted for their liberality, should advertise their business in those papers, and gradually enlarge their trade in the lower country.

Several hundred copies of the Wilmington papers ought to be taken by our Charlotte people, and the business men of Charlotte, ever noted for their liberality, should advertise their business in those papers, and gradually enlarge their trade in the lower country.

The Observer ought to have five hundred subscribers in Wilmington, and as many more along the line of the Carolina Central, furnishing as it does, the telegraphic markets, and the very latest news up to the hour of going to press.

In fine, if the people of the two cities make the proper effort, they can profit largely by the advantages to accrue upon the completion of this great work.

BEECHER-TILTON.

Tuesday, December 8th, has been fixed for the trial of the Beecher-Tilton case. It is supposed it will occupy the entire term of the court, and of course it will be an interesting subject of Brooklyn scandal for that period of time.

It is announced that the British government has determined to make another exploration of the Arctic regions, and for this purpose will send out two steamers next May.

The official vote for Superintendent of Public Instruction in North Carolina has been counted by the Legislature, and is as follows:

Pool, (dem.) 98,217  
Purnell, (rep.) 84,181  
This is a very handsome majority.

Western Grain.

The New York papers are deploring the tendency of the present system of transportation to diminish the grain trade of that city, Baltimore and other river ports are gaining what New York loses.

P. Davidson, Esq.

New York Tobacco Market.

Virginia Leaf—There has been no apparent change in the condition of the general tobacco market since our previous review, if we except the Spanish leaf department, which has shown considerable activity in the interim between that date and the present.

Of Virginia leaf we hear of a few sales, but of none of importance enough to mention in detail. Only the growth of this year takes its place in the market there can be but little to say of this variety of leaf in this column, as the days of what remains of last year's crop are numbered even at its source, and but a small, very small, portion is now likely to find its way to this seemingly indifferent section of the country.

Western leaf, according to the statement of dealers, showed rather better demand for export than for any other purposes, but was only moderately sought after by any class of buyers. The last fortnight, the month, it may be said, thus far has disclosed nothing to lead to the supposition that the late speculative movement is to be revived and continued on the other hand, has there been any thing to show that speculators have less confidence in the future than they had a while ago.

Manufactured.—The earlier part of the week was more satisfactory in this branch than the closing part. About Thursday day business brightened up a little and more inquiry and more sales were observable.

ATTEMPT TO LYNCH THE MARRIED PRIEST.—The examination of ex-priest Gerdemann in Philadelphia, and his release on bail, was mentioned in yesterday's Star. The Philadelphia Press of yesterday, thus describes the scene after the close of the examination: "In a few minutes Gerdemann was conducted out of the lower entrance, avoid the crowd, as trouble was feared. He was seen, however, and a rush was made for him by a mob of men and women, who indulged in violent exclamations: 'Kill him!' 'Shoot him!' 'Kill the heretic!' 'Hang him!' and several blows were aimed at him. The detectives defended him and called for aid, and a posse of officers drove their clubs and charged the crowd. For a few minutes matters looked ominous, but by a liberal use of their maces the mob was forced back and half a dozen ringleaders arrested among them being a young woman, who was very violent. They were locked up, and the carriage rolled away to Alderman Carpenter's office, at Eighth and Wood streets, where bail was speedily entered, there being many wealthy and influential Protestants there offering themselves as security. Carroll, who had been arrested during the hearing, was discharged after a reprimand."

Commenced Business in March, 1873! HAS HAD AN Unprecedentedly Successful Career! WHY? READ, READ, READ. GREAT DISCOVERY.

Bradley's Patent Enamel Paint, MADE FROM Pure White Lead, Linseed Oil and Zinc, and Always Ready for Use. READ THE FOLLOWING TESTIMONIALS: From Prof W G Simmons, Wake Forest College, North Carolina.

From Messrs Englehard & Saunders, Editors and Proprietors "Journal". We desire to call especial attention to the advertisement of "Bradley's Patent Enamel Paint." We can recommend it from a knowledge of its merits. Some of the employees of this office having purchased some of this paint from Mr C P Knight, of Baltimore, have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S Mc Gill, M.D. THE PLAINS, FAUCER Co. Va, Feb. 6, 1874. Mr C P Knight—Sir: The paint came safe to hand as ordered, 2 kgs, 5 gallons each, and 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks (not constant) work, completed the house, two coats; the last coat I applied thick, and it is now generally conceded, that for "enamel," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation—which is an item just now with the "Southern people." It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellence of material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what you think proper of this letter. Very respectfully and truly, S Mc GILL, M.D.

From R W Rayne, of the Firm of Bartlett & Rayne, 48 Carondelet Street. NEW ORLEANS, JANUARY 29, 1874. Mr C P Knight, Esq—No 93, West Lombard Street Baltimore—Dear Sir: It affords me much pleasure to advise you how well satisfied I am with Bradley's Patent Enamel Paint, having used all I bought of you in painting a large cottage (new) at Ocean Springs, Miss., and having found it to cover and work so admirably, and very far superior to ordinary metal paints, and colors not subject to fade, besides being decidedly cheaper. It is my purpose to send you another order for more very soon. Yours respectfully, R W RAYNE.
