WILMINGTON, N. C., Dec. 13, 1874. If we cannot be said to be on the wing, we do not know what the expression means. Our readers have perhaps missed our labors on the columns of The Observer for the past four days, and it is pleasant for us to be able to say that we are skirmishing along the outposts, and at this writing have every reason to believe that our labors will not be in vain.

Our visit to our own "city by the sent has up to this writing, been very pleasant I We find the open hearted Wilmingtonians are throughly in earnest, in their professions of friendship, and are determined to offerthe merchants of Charlotte, and through them the citizens of Western North Carolina, every advantage which is possible. They are loud in their protestations of friendship, and in their effort to maintain business relations which will be to the mutual benefit of both cities. Her citizens, who are interested in the marine interest, are determined to offer our people such business advantages, as will make it obligatory upon us to patronize this port.

We feel that Wilmington is a city of our own, and that in patronizing her, and her merchants, we are keeping our business "in the family," and this we are always ready and willing to do so long as Wilmington can offer us the same advantages, as are now offered by other ports. Bradley's Patent Enamel Paint,

From Prof W G Simmons, Wake Porest College, North Carolina.

WARE FOREST COLLEGE, N C. October 4, 1873. Mr CP Knight—Dear Sir: We have for several months been using your Bradler's Patent Enamel Paint on our College Building, and are well pleased with it Though was applied by one having no experience in such work, yet we have a good job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market,

From Messrs Englehard & Saunders, Editors and Proprietors "Journal."

WILMINGTON, N.C. Dec. 26, 1873. We desire to call especial attention to the advertisement of 'Bradley's Patent Enamel Paint.' We can recommend it from a knowledge of its ments. Some of the employees of this office having purchased some of this paint from Mr C P Knight, of Baltimore, have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S McGill, M D.

THE PLAINS, FAQUIER Co, Va. Feb. 6, 1873. Mr CP Knight—Sir: The paint came safe to hand as ordered, 2 kegs, 5 gallons each, and 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks (not constant) work, completed the house, two coats; the last coat I applied thick, and it is now generally conceded, that, for "enamel," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation-which is an item just now with the 'Southern people.' It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellency o material, in beauty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter. Very respectfully and truly, S McGILL, M D,

From R W Rayne, of the Firm of Bartlett & Rayne, 48 Carondelet Street.

New Orleans, January 29, 1874. C P Knight, Esq-No 93, West Lombard Street Baltimore-Dear Sir: It affords me much pleasure to advise you how well satisfied I am with Bradley's Patent Enamel Paint, having used all I bought of you in painting a large cottage (new) at Ocean Springs, Miss., and having found it to cover and work so admirably, and very far superior to ordinary metal paints, and colors not subject to fade, besides being decidedly cheaper. It is my pur pose to send you another order for more very soon Yours respectfully, R W RAYNE.
