THE OBSERVER-AN ANNOUNCE MENT.

Since we took charge of the OBSERV ER in April last, we have had very great encouragement and we flatter ourself, sometimes, that we have received more than we desired, however the rapid additions to our list of subscribers convinces us that we have succeeded in furnishing a paper which, though it has enemies, is appreciated by the general public, and we have been sustained as none of its predecessors were ever sustained. Still ours has not been a pecuniary success. We have discovered that the expenses of

conducting a daily paper, are much larger than we had anticipated, yet we desire to make the important announcement this morning that our paper is now on the highway to success, pecuniarily and otherwise.

We begin the new year with an experience covering a period of sixteen years, nine months of which has been spent in conducting a live daily, and treble the number of paid up subscribers with which we commenced in April. We have also associated with us on our editorial staff, for the coming year, Capt. W. F. Patent Enamel Bradley's MADE FROM

Pure White Lead, Linseed Oil and Zinc, and Always Ready for Use. READ THE FOLLOWING TESTIMONIALS:

From Prof W G Simmons, Wake Forms College, North Carolina.

Ware Former College, N C, October 4, 1873.

Mr C P Knight—Dear Sir: We have for several months been using your Bradley's Patent Enamel Paint on our College Hallding, and are will pleased with it. Though it was applied by one having no experience in such work, ret we have a good job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market.

W G SIMMONS.

From Messrs Englehard & Saunders, Editors and Proprietors "Journal."

WELLINGTON, N.C. Dec. 26, 1873.
We desire to call especial attention to the advertisement of Bradley's Patent Enamel Paint.' We can recommend it from a knowledge of its merits. Some of the employees of this office having purchased some of this paint from Mr. C P Knight, of Baltimore, have used it, and speak in the highest terms of it, after a trial of several months. While it is as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S McGill, M D. THE PLAIRS, FAQUIES Co., Va., Feb. 6, 1878. Mr CP Knight—Sir: The paint came safe to hand as ordered, 2 kegs, 5 gallons each, and 3 buckets, 1 gallon each. As practice was slack, I did the job myself. Two weeks (not constant) work, completed the house, two costs; the last cost I applied thick, and it is now generally conceded, that, for "enamel," like hardness, and body and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation—which is an item just now with the "Southern people." It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as "testimonials," but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people—in excellency of material, in besuty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter. Very respectfully and truly, S McGILL, M.D.

Prom R W Rayne, of the Pirm of Bartlett & Rayne. 48 Carondelet Street.

New Orleans, January 29, 1874.

C P Knight, Esq-No.93, West Lombard Street Baltimore-Hear Sir: It affords me much pleasure to advise you how well satisfied I am with Bradley's Patent Enamel Paint, having used all I bought of you in painting a large cottage (new) at Ocean Springs, Miss., and having found it to cover and work so admirably, and very far superior to ordinary metal paints, and colors not subject to fade, besides being decidedly cheaper. It is my purpose to send you another order for more very soon. Yours respectfully, R W RAYNE.
